NOTES TO FINANCIAL STATEMENTS

The Cleveland Foundation Retirement Plan

1 Description of Plan

The following description of The Cleveland Foundation Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of The Cleveland Foundation ("Organization") who meet the eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan was restated effective January 1, 2015 to update the definition of eligible compensation as well as contribution provisions as discussed below.

Eligibility:

All employees of the Organization who meet the eligibility requirements are eligible to participate on a voluntary basis in the Plan upon the first day of the month following their date of hire. All employees of the Organization who meet the eligibility requirements and are employed by the Organization for one year are eligible to receive the employer contribution to the Plan.

Contributions:

Employee Deferrals - Participants may elect a portion of their compensation, up to the maximum allowed by law, to be contributed to the Plan by the Organization. The Plan also allows catch up contributions up to the Internal Revenue Service limits for certain participants who are eligible.

New employees meeting the eligibility requirements will be automatically enrolled into the Plan at a set employee deferral of 4% of eligible compensation, up to the maximum allowed by law, to be contributed to the Plan by the Organization. Participants may change this deferral election at any time or elect not to defer into the Plan.

Effective January 1, 2015, participants who were not making employee deferral contributions of at least 4% of eligible compensation were automatically enrolled into the Plan at a set employee deferral of 4% of eligible compensation unless a participant changes his or her deferral election. The employee deferral percentage for these individuals will also be automatically increased each January 1 by 1% up to a maximum percentage of 10%, if the participant does not change his or her deferral elections.

Employer Contributions - The Organization makes safe harbor contributions to each eligible participant's account in the amount equal to 9% of the participant's compensation, plus 5.7% of compensation once the participant exceeds the Social Security taxable wage base.

Rollover contributions from other Plans are also accepted, providing certain specified conditions are met.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code, as defined in the Plan agreement.

The Cleveland Foundation Retirement Plan

1 Description of Plan, Continued

Participants' Accounts:

403(b) Accounts - Each participant's account is credited with the participant's elective contributions, employer contributions, earnings and losses thereon, as applicable.

Vesting:

All participants are immediately 100% vested in elective deferrals, rollover contributions and company matching contributions made to the Plan.

Other Plan Provisions:

Normal retirement age is 65. The Plan also provides for early payment of benefits after reaching age 59-1/2.

Payment of Benefits:

Upon termination of service of a participant, the participant receives payment in accordance with the custodial and/or Plan provisions.

Hardship Withdrawals:

Hardship withdrawals are permitted in accordance with Internal Revenue Service guidelines.

Investment Options:

Upon enrollment in the Plan, a participant may direct any contributions to any of the investment options offered by the Plan.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Valuation of Investments:

Investments held in the Plan are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's Custodians. Pooled separate accounts are valued using the market value of its underlying assets. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

NOTES TO FINANCIAL STATEMENTS

The Cleveland Foundation Retirement Plan

2 Summary of Significant Accounting Policies, Continued

Valuation of Investments, Continued:

Under current accounting guidance, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Administrative Fees:

Substantially all administrative fees are paid by the Plan.

Plan Termination:

Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Risks and Uncertainties:

The Plan's investments include investments in mutual funds and collective funds holding investment contracts with varying degrees of risk such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

Subsequent Events:

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through July 27, 2015, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

As defined in FASB ASC 820, "Fair Value Measurements", fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- * Level 1: Quoted market prices in active markets for identical assets or liabilities.
- * Level 2: Inputs to the valuation methodology include:
 - * Quoted prices for similar assets or liabilities in active markets;
 - * Quoted prices for identical assets or similar assets or liabilities in inactive markets;
 - * Inputs other than quoted prices that are observable for the asset or liability;
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- * Level 3: Unobservable inputs that are not corroborated by market data.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds:

The fair value of mutual funds are based on quoted market prices and falls in the Level 1 category of the hierarchy.

Money Market Funds:

The fair value of the money market funds are based on amortized cost, which approximates fair value and fall in the Level 2 category of the hierarchy.

NOTES TO FINANCIAL STATEMENTS

The Cleveland Foundation Retirement Plan

3 Fair Value Measurements, Continued

Variable Annuities:

The fair value of the variable annuities are generally valued using market quotations or prices obtained from independent pricing services and fall in the Level 2 category of the hierarchy.

Annuity Investment and Guaranteed Annuity:

The fair value of the guaranteed annuity is backed by TIAA CREF's claims-paying ability, guarantees principal and any additional interest rate additions declared. The fully allocated insurance account is classified in the Level 3 category of the valuation hierarchy.

Pooled Separate Account:

The fair value of the pooled separate account is based on the net fair value of the underlying assets. The underlying investments are valued at fair value based on appraisals of the underlying real estate investments. The fair value is allocated among the contract holders based on a unit value. This investment falls into the Level 3 category of the valuation hierarchy.

The pooled separate account seeks long-term returns through rental income or capital appreciation of its investments. Participant transactions (purchases and sales) may occur daily. Transfers out of the pooled separate account are limited to one per calendar quarter. Although the underlying assets of the pooled separate account cannot be quickly sold and converted to liquid assets, the TIAA General Account provides the pooled separate account with a liquidity guarantee.

Guaranteed Fixed Income:

The fair value of the guaranteed fixed income fund is based on the value of the participants' principal balance plus a stated crediting interest rate and backed by the general account of the Custodians. The fair value is allocated among the contract holders based on a unit value. This investment falls into the Level 3 category of the valuation hierarchy.

4 Tax Status

The Internal Revenue Service has determined that the Organization was qualified as a tax exempt organization under 501(c)(3) of the Internal Revenue Code. The Plan was restated as of April 1, 2010 to comply with ERISA. The Plan has not applied for a determination letter. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

In addition, Fidelity Management Trust Company and Principal Trust Company certify their Plan holdings independently of TIAA-CREF. 7 Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by the Custodians as defined by the Plan, and therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid by the mutual fund for the investment management services. The Custodians qualify as party-in-interest.

NOTES TO FINANCIAL STATEMENTS

The Cleveland Foundation Retirement Plan

8 Benefit-Responsive Contract

The Plan has a benefit-responsive investment contract with Principal Financial Group ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

For 2014 and 2013, Principal reported contract value equals fair value for the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 403(b) of the Internal Revenue Code, (2) the establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification of the Plan or the administration of the Plan that is not consented to by the wrap issuer, (4) complete or partial termination of the Plan, (5) any change in law, regulation, or administrative ruling applicable to the Plan that could have a material adverse effect on a portfolio's cash flow, (6) merger or consolidation of the Plan with another plan, the transfer of assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor, (7) any communication given to participants by the Plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in a portfolio or to transfer assets out of a portfolio, (8) exclusion of a group of previously eligible employees from eligibility in the Plan, (9) any early retirement program, group termination, group layoff, facility closing, or similar program, and (10) any transfer of assets from a portfolio directly to a competing option. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The issuer may terminate the contract for cause at any time, but has no intention of doing so. Because of this and other recent interpretation of accounting guidance, there is no adjustment in 2014 and 2013 from fair value to contract value.

The average yield based on actual earnings of the contract was 2.00%, as of December 31, 2014 and 2013. The crediting interest rate was 2.00% as of December 31, 2014 and 2013.

The Cleveland Foundation Retirement Plan

8 Benefit-Responsive Contract

The Plan has a benefit-responsive investment contract with Principal Financial Group ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

For 2014 and 2013, Principal reported contract value equals fair value for the guaranteed investment contract.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent. Such interest rates are reviewed on a semi-annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) the Plan's failure to qualify under Section 403(b) of the Internal Revenue Code, (2) the establishment of a defined contribution plan that competes with the Plan for employee contributions, (3) any substantive modification of the Plan or the administration of the Plan that is not consented to by the wrap issuer, (4) complete or partial termination of the Plan, (5) any change in law, regulation, or administrative ruling applicable to the Plan that could have a material adverse effect on a portfolio's cash flow, (6) merger or consolidation of the Plan with another plan, the transfer of assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor, (7) any communication given to participants by the Plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in a portfolio or to transfer assets out of a portfolio, (8) exclusion of a group of previously eligible employees from eligibility in the Plan, (9) any early retirement program, group termination, group layoff, facility closing, or similar program, and (10) any transfer of assets from a portfolio directly to a competing option. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The issuer may terminate the contract for cause at any time, but has no intention of doing so. Because of this and other recent interpretation of accounting guidance, there is no adjustment in 2014 and 2013 from fair value to contract value.

The average yield based on actual earnings of the contract was 2.00%, as of December 31, 2014 and 2013. The crediting interest rate was 2.00% as of December 31, 2014 and 2013.
