Balon Corporation 401(k) Plan and Trust

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

NOTE A - DESCRIPTION OF PLAN

Balon Corporation 401(k) Plan and Trust (the "Plan") is a defined contribution plan covering substantially all full-time employees of Balon Corporation and Valve Products, Inc. (collectively, the "Participating Employers") who have completed one year of service and are age 21 or older. MG Trust Company, LLC, the trustee of the Plan, holds investment assets and executes investment transactions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participating Employers automatically withhold 3% of the employee's compensation from each payroll period and contribute that amount to the Plan as pre-tax 401(k) deferral. The automatic deferral provisions apply to all participants, except those who have a salary deferral agreement in effect on the automatic deferral provisions effective date. Employees can elect not to participate in the Plan. While employees are participating, the automatic deferral percentage will increase each plan year as outlined by the plan document.

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

Contributions

Each year, participants will contribute automatic withholdings as discussed above and may contribute additional amounts up to the maximum amount determined under Internal Revenue Service guidelines. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Participating Employers make matching contributions equal to 100% of the salary deferral that does not exceed 1% of compensation plus 50% of the salary deferrals between 1% and 6% of compensation that a participant contributes to the Plan. In addition, the Participating Employers may also make a discretionary matching contribution to the Plan. All contributions are subject to certain limitations, as outlined in the plan document.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Participating Employers' matching and discretionary contributions and allocations of plan earnings or losses, as defined by the plan agreement. The benefit to which a participant is entitled is the benefit provided by the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings or losses thereon. Vesting in the Participating Employers' matching and discretionary contribution portion of their accounts, plus actual earnings or losses thereon, is based on years of service as defined by the plan agreement. A participant is fully vested after six years of credited service in matching contributions made prior to January 1, 2009, and fully vested after two years of credited service in matching contributions made on or after January 1, 2009.

NOTE A - DESCRIPTION OF PLAN - CONTINUED

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms typically require repayment within five years. The loans are secured by the balance in the participant's account and typically bear interest at a rate equal to 2% above prime rate as published in the Wall Street Journal as of the date of the loan. Principal and interest are paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his/her account, or installments over a certain period. However, if the vested account balance does not exceed $5,000, the Plan permits only a lump-sum distribution.

Forfeited Accounts

Upon termination of a participant's employment with the Participating Employers, the nonvested portion of the Participating Employers' matching and discretionary contributions is used to reduce future Participating Employers' contributions. Forfeited nonvested accounts totaled approximately $18,000 and $16,000 at December 31, 2014 and 2013, respectively. During the years ended December 31, 2014 and 2013, there were no forfeitures used to reduce Participating Employers' contributions.

Administrative Expenses

Administrative expenses for the years ended December 31, 2014 and 2013 were paid by Balon Corporation.

NOTE B - SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

2. Investments

The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note F for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF ACCOUNTING POLICIES - CONTINUED

3. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2014 or 2013.

4. Payment of Benefits

Benefits are recorded when paid.

5. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE C - PLAN TERMINATION

Although they have not expressed any intent to do so, the Participating Employers have the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Participating Employers' contributions.

NOTE D - TAX STATUS

The Plan is based on a prototype plan which has received a determination letter as a qualified plan under the provisions of section 401 of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE E - INVESTMENTS

Investments that represent 5% or more of the Plan's net assets are as follows at December 31:

*Investments did not represent five percent or more of the Plan's net assets.

NOTE E - INVESTMENTS - CONTINUED

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term, and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

NOTE F - FAIR VALUE MEASUREMENTS

The Plan utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices of identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds and money market funds - Valued at the net asset value ("NAV") of shares held by the Plan.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.
