Note 1 - Description of Plan

The following description of Monotech of Mississippi, Inc. 401(k) Plan provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Monotech of Mississippi, Inc. 401(k) Plan (the "Plan") is a defined contribution 401(k) retirement plan available to all employees of Monotech of Mississippi, Inc. and Monotech of Mississippi - Fulton (collectively, the "Company") who are eighteen (18) years of age or older, have completed three months of service, and whose compensation and conditions of employment are established pursuant to the terms and conditions of the Collective Bargaining Agreement between the Company and the International Union of Operating Engineers, Local No. 624. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may elect to defer up to five percent (5%) of their annual eligible compensation subject to Internal Revenue Service limitations. There are no provisions under the Plan Agreement for employer matching or profit sharing contributions.

Participant investment account options

The Plan allows participants to direct varying portions of their contributions and account balances among different investment options within The Collective Investment Funds of First Mercantile Trust Company.

Participant accounts

Each participant's account is credited with the participant's deferral contribution, plus a proportionate interest in the investment earnings or losses of the funds in which the contributions are invested. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their deferral contributions plus earnings or losses thereon.

Payment of benefits

Upon termination of service for any reason, participants may elect to receive account distributions in the form of a lump sum payment as defined in the Plan Agreement. If the participant's balance does not exceed $1,000, the Plan may distribute funds in the form of a lump sum payment without the consent of the participant. Withdrawals by a participant while employed are limited to those requested due to events of financial hardship as defined by the Plan Agreement or upon attainment of the age of 59½.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions which affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investments

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments

Benefit payments are recorded when paid.

Administrative expenses

Certain expenses of the Plan are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of benefits paid to participants are charged directly to the respective participant's account and are included in benefits paid to participants. Investment related expenses are included in net appreciation of fair value of investments.

Note 3 - Investments

The fair value of the individual investments which represent five percent (5%) or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013 is as follows:

	2014	2013
FMT/FFTW Income Plus Fund	$ 96,159	$ 84,604
FMT/LifeStyle Aggressive Growth Fund	66,356	42,038
FMT/LifeStyle Moderately Aggressive Growth Fund	45,049	33,186
FMT/U.S. Growth Opportunities Fund	39,294	36,518
FMT/Vanguard 500 Index Fund	36,910	35,228

Note 3 - Investments (continued)

	2014		2013
FMT/Global Infrastructure Fund	$ 31,044		$ 26,288
FMT/Large Cap Fundamental Growth Fund	26,424		25,057
FMT/SSgA U.S. Treasury Money Market Fund	20,765	*	24,697

* Presented for comparative purposes only. Does not represent 5% or more of the fair value of the Plan's net assets as of December 31, 2014.

Note 4 - Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, First Mercantile Trust Company, the custodian of the Plan, has certified the following data included in the accompanying financial statements and the supplemental schedule is complete and accurate.

- Investments at fair value
- Net appreciation in fair value of investments
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and the supplemental schedule.

Note 5 - Fair value measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 5 - Fair value measurements (continued)

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of December 31, 2014 and 2013.

Common/collective trust funds: Valued at the Net Asset Value (NAV) of units of the collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that security liquidations will be carried out in an orderly business manner.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although plan management believes its valuation method is appropriate and consistent with other market participants, the use of a different methodology or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

	Investments at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Common/collective trust funds				
Equity	$ -	$ 154,419	$ -	$ 154,419

Fixed income	-	9,362	-	9,362

Note 5 - Fair value measurements (continued)

	Investments at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Total
Common/collective trust funds				
Equity	$ -	$ 144,618	$ -	$ 144,618
Target risk allocation	-	106,800	-	106,800
Stable value	-	84,604	-	84,604

Fixed income	-	6,852	-	6,852
Total	$ -	$ 393,859	$ -	$ 393,859

The fair value of the investments in the common/collective trust funds has been estimated using the net asset value of the investments. The common/collective trust funds listed above are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

Note 6 - Related party transactions and party-in-interest transactions

Plan investments represent interests in certain common/collective trust funds offered by First Mercantile Trust Company. First Mercantile Trust Company is the custodian for the Plan and, therefore, these investments and related investment transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The plan sponsor pays directly any other fees related to the Plan's operations.

Note 7 - Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits for financial reporting purposes to net assets reported on Form 5500 as filed by the Plan for the years ended December 31, 2014 and 2013.

	2014	2013
Net assets available for benefits for financial reporting purposes	$ 464,453	$ 394,740
Less employer contributions receivable	-	(881)
Net assets per Form 5500	$ 464,453	$ 393,859

Note 7 - Reconciliation to Form 5500 (continued)

The following is a reconciliation of contributions for financial reporting purposes to contributions reported on Form 5500 as filed by the Plan for the years ended December 31, 2014 and 2013.

	2014	2013
Contributions for financial reporting purposes	$ 76,757	$ 68,898
Employee contributions receivable at the beginning of the year	881	-
Employee contributions receivable at the end of the year	-	(881)
Contributions per Form 5500	$ 77,638	$ 68,017

Note 8 - Plan termination

Although it has not expressed any intent to do so, the Company has the right to modify or terminate the Plan at any time subject to the provisions of ERISA and the Plan Agreement.

Note 9 - Tax status

The Internal Revenue Service (IRS) has determined that the Prototype Non-Standardized Profit Sharing Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and has informed the custodian of such in a letter dated March 31, 2008. Although the Plan has been amended since receiving the opinion letter, plan management believes the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to IRS examinations for years prior to the year ended December 31, 2011.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11 - Subsequent events

Plan management has evaluated events through July 28, 2015, which is the date that the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
