Duro-Last, Inc. Employee's 401 (k) Retirement Plan

Notes to Financial Statements

1. Description of the Plan

The following description of Duro-Last, Inc. Employee's 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution employee 401(k) retirement plan covering substantially all employees of Duro-Last, Inc. and provides for retirement benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees are eligible for Plan participation when they have completed one fourth of a year of service and have obtained age 18.

Enrollment

Upon eligibility for enrollment in the Plan, an employee is automatically enrolled with a 4% pre-tax contribution that is invested in the default investment option under the plan. The employee may elect to stop making salary deferral contributions at any time, and may also change their deferral percentage or investment options at any time subsequent to automatic enrollment taking place.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, up to a maximum amount of \$17,500 for 2014. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to \$5,500. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. For each plan year, the employer shall match one half (1/2) of each participant's salary reduction contribution up to a match of the lesser of two percent (2%) of compensation or \$5,000. Additional contributions can be made each year at the discretion of the Board of Directors of Duro-Last, Inc. In 2014, employer matching contributions totaled \$484,818 and discretionary profit-sharing contributions totaled \$2,165,169.

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions and the Company's contributions, as well as allocations of the Plan's investment earnings and charged with the Plan's investment losses and administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

Vesting

Participants are immediately 100% vested in these personal voluntary contributions. Employer and discretionary profit-sharing contributions vests as follows:

<i>Years of Service</i>	<i>Vested Percentage</i>
1	0%
2	20
3	40
4	60
5	80
6 - Thereafter	100

A year of vested service constitutes any plan year in which 1,000 hours are worked.

Notes Receivable from Participants

Participants may borrow from their fund accounts up to a maximum equal to the lesser of \$ 50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. Repayment of a loan is required within a five year period, except for the purchase of a primary residence. Participants are limited to no more than two loans outstanding. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through monthly payroll deductions. Loans which are not repaid in accordance with their terms are deemed distributions to the participant.

Payment of Benefits

Benefits are paid as a lump sum payment based on the vested service and account balance. The Plan provides for normal retirement. A participant becomes 100% vested in employer contribution amounts if the participant is actively employed upon their attainment of normal retirement age, disability, or death. In addition, if a participant dies while on qualified military service, they become 100% vested in the employer contributions in their account. Death benefits will be paid to a designated beneficiary upon death.

Certain participants may also be entitled to withdraw money from their account prior to termination. Participants can elect to withdraw money in the event of financial hardship if they meet certain conditions. In-service distributions may be taken from both elective deferrals and Company contributions, however, may not exceed the participant's vested account balance.

Forfeitures

At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$488 and \$78,857, respectively. During 2014, forfeitures were reallocated in the amount of \$223,291 in accordance with respective applicable formula elected by the Company.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies

Basis of Accounting

Beginning January 1, 2014, the accounting records of the Plan are maintained on the accrual basis method of accounting, in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

The Statement of Net Assets Available for Benefits as of December 31, 2013 was prepared on the modified cash basis. Under the modified cash basis, revenues were recognized when received rather than when earned, and expenses were recognized when paid rather than when incurred.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain Plan expenses (other than loan fees which are paid by the Plan participant) are paid by the Company.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant's loan balance is reduced and a benefit payment is recorded.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) include the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

Accounting Standards Codification 820, Fair Value Measurements and Disclosures ("ASC 820"), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America, N.A., the Trustee of the Plan, has certified certain assets on behalf of, as record keeper and agent, Bank of America, N/A., for the mutual funds of the Plan, that the following data included in the financial statements is complete and accurate:

6. Income Tax Status

The Plan obtained its latest determination letter on June 28, 2004, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Duro-Last, Inc. Employee's 401(k) Retirement Plan

Notes to Financial Statements

The Plan files informational returns in the U.S. federal jurisdiction. US GAAP and the modified cash basis of accounting requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The statute of limitations is generally three years for federal returns.

7. Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Bank of America. Bank of America is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services amounted to \$ 5,850 for the year ended December 31, 2014.

8. Risks and Uncertainties

The Plan invests in various investment securities, such as mutual funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associates with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

9. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In event of termination, participants become 100% vested in the current account balances.
