The Plan was restated on a volume submitter document maintained by Fidelity Investments. The Plan was then restated effective October 1, 2013 on an individually designed plan document. The Plan was again restated effective January 1, 2014. The Plan is a multiple employer defined contribution plan and the participating employers are collectively referred to as ("the Employers"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Optum Partner Services Plan Administration Committee ("the Plan Administrator") serves as plan administrator.

Eligible employees are automatically enrolled in the Plan as soon as administratively feasible after their hire date at an employee pre-tax contribution deferral rate of 3% of their eligible pay, unless they opt out within a prescribed time limit or elect a different pre-tax and/or Roth contribution deferral rate. Participants who miss the deadline to opt out have 90-days from the first biweekly pay date in which employee pre-tax contributions are automatically deducted from their eligible pay to cancel future contributions and request a withdrawal of all pre-tax contributions, including associated earnings and losses. Any applicable matching contributions on such withdrawn deferrals will be forfeited.

Contributions

Each year, participants may contribute up to the maximum dollar amount permissible under Internal Revenue Code ("the Code"). Elective contributions include pre-tax deferrals, Roth deferrals and rollover contributions. In general, the Plan provides for automatic employee pre-tax contribution rate increases each February until the participant's combined pre-tax and/or Roth contribution deferral rate reaches 6%. Participants are notified of the automatic rate increases in advance and have the opportunity to decline the automatic increase or establish a different automatic increase schedule and amount. Participants who have attained age 50 before the end of the plan year may make additional catch-up contributions, subject to limitations imposed by the Code.

The Employers make a safe harbor matching contribution equal to 100% of applicable contributions up to 3% of eligible compensation, plus 50% of the next 3% of eligible compensation for a max contribution of 4.5% per payroll period as defined in the Plan document. Participants become eligible for safe harbor matching contributions once they are credited with one year of service. Each employer may, in its discretion, make a profit sharing contribution to the Plan for the benefit of its eligible participating employees, to be allocated pro rata based upon compensation within limitations as determined by the Code. No employer elected to make a discretionary profit sharing contribution for the year ended December 31, 2014.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 1 - Description of the Plan (cont.)

Participant Accounts

Each participant's account is credited with the participant's contributions, rollover contributions, safe harbor matching contributions, an allocation of the Employer's discretionary profit sharing contribution, if any, and plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments Classification

All investments are participant directed. The Plan is intended to comply with ERISA section 404(c). Participants have the right to individually select the percentage of their accounts to be invested among different classifications of investments made available to them through a registered investment company. In the event a participant does not make an investment election, contributions are invested in the target date fund closest to the date the participant will attain age 65.

Vesting

Participants are immediately vested in their salary reduction, rollover contributions, and earnings thereon. Safe harbor matching contributions and discretionary profit sharing contributions and earnings thereon vest in accordance with provisions of the Plan as follows:

<u>Years of Vesting Service</u>	
Less than 2 years	0%
2 or more	100%

Notwithstanding the vesting schedule above, safe harbor matching contributions and employer discretionary profit sharing contributions, if any, will become fully vested (100%) upon the occurrence of any of the following events while the participant is employed by an Employer: death, attainment of normal retirement age (age 65), disability, partial plan termination with respect to the participant, complete termination of the Plan or complete discontinuance of employer contributions, or a severance from employment as a result of certain corporate transactions.

Forfeited Accounts

As of December 31, 2014 and 2013, forfeited nonvested accounts totaled \$5,821 and \$40,075, respectively. During the year ended December 31, 2014, employer contributions were reduced by \$35,295 from forfeiture accounts. Forfeitures can be used to reduce future employer contributions or to pay certain administrative expenses.

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 1 - Description of the Plan (cont.)

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan document. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment.

There are no amounts owed to the participants who had elected to withdraw from the Plan, but had not been paid as of December 31, 2014.

Termination of Plan

Although it has not expressed any intent to do so, the Principal Plan Sponsor has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Notes Receivable From Participants

Participants may borrow from their account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 (subject to reduction for certain loan balances in the prior 12 months) or 50% of their vested account balance. These loans are secured by the balance in the participant's account. The loans bear a reasonable rate of interest which will be the prime interest rate quoted by Reuters on the first business day of each month plus one (1) percentage point. Interest rates on loans from merged plans were determined under the related merged plan document. Principal and interest are paid ratably through payroll deductions. Participants generally may have up to two outstanding loans at one time.

Administrative Expenses

The Employers paid a portion of the Plan's administrative expenses. Reasonable expenses may be paid from the Plan's assets.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The accompanying financial statements have been prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with generally accepted accounting principles in the United States of America (U.S. GAAP) requires the Plan Administrator to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Risks and Uncertainties

The Plan has investment securities, which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 2 - Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Net appreciation or depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in fair value of investments. Net unrealized appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represents the difference between the sale proceeds and the fair value of the investment as of the beginning of the period or the cost of the investment if purchased during the year.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update (ASU) No. 2015-07, Fair Value Measurement, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendment also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. This requirement is effective for fiscal years beginning after December 15, 2016. The Plan will evaluate the impact of the amendment.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

As of December 31, 2014 and 2013 and for the Year Ended December 31, 2014

NOTE 5 - Fair Value of Financial Instruments

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Unadjusted quoted prices for identical assets in active markets that the Plan can access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 - Unobservable inputs for the asset.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price reported by the fund.

Common/Collective Trust: Units are stated at fair value as determined by issuer of the common/collective investment trust funds based on the fair market value of the underlying investments.

The Plan Administrator is responsible for the determination of fair value. Accordingly, the Plan Administrator performs periodic analysis on the prices received from the Trustee to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the Plan Administrator has not historically adjusted the prices obtained from the Trustee. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 - Party-in-interest

The Plan pays various fees to the Trustee, including recordkeeping and investment management fees. These transactions are exempt party-in-interest transactions. The Plan invests in a fund managed by an affiliate of the Trustee. The investment constitutes an exempt party-in-interest transaction.

NOTE 7 - Tax Status

The Plan has applied for but has not yet received a determination letter from the Internal Revenue Service (IRS). Although the Plan has not received a determination letter, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Company has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any current tax periods in progress. The 2012 – 2014 plan years are open for examination by the IRS.

NOTE 8 – Investment in Stable Value Common/Collective Trust Fund

The Plan currently invests in a stable value common/collective trust fund ("the Fund") which indirectly holds guaranteed investment contracts (GICs). The objective of the Fund is to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term. The Fund invests in Wells Fargo Stable Value Fund C which invests solely in Wells Fargo Stable Value Fund G ("Fund G"). Fund G primarily invests in investment contracts, including traditional guaranteed GICs and security-backed contracts issued by insurance companies and other financial institutions. Fund G also invests in the Synthetic Stable Value Fund, which has the same investment objective as the Fund, and Short-Term Investment Fund G, which invests in highly liquid assets for daily liquidity needs.

GICs are backed by the general account of the contract issuer. Fund G deposits a lump sum with the issuer and receives a guaranteed interest rate for a specified period. Interest is accrued on either a simple or fully compounded basis, and is paid either periodically or at the end of the contract term. The issuer guarantees that all qualified participant withdrawals will be at contract value (principal plus accrued interest).

Because the Fund's GICs are fully benefit-responsive investments, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to guaranteed investment contracts. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or the transfer of all or a portion of their investment at contract value. The Plan has reported its investment in the Fund at fair value on the statements of net assets available for benefits with an adjustment from fair value to contract value.

NOTE 9 – Net Asset Value (NAV) Per Share

A summary of the Plan's investments with a reported NAV at December 31, 2014 is set forth as follows:

Investment	Fair Value (1)	Unfunded Commitment	Redemption Frequency	Other Redemption Restrictions (2)	Redemption Notice Period
December 31, 2014					
Common collective trust (3)	\$ 7,230,463	-	Immediate	Various	None

Stable value collective trust (4)	<u>3,045,636</u>	<u>-</u>	Immediate	Various	None
Total	<u>\$ 10,001,242</u>	<u>\$ -</u>			

(1) The fair values of the investments are based on the fair values of the underlying investments in the funds.

(2) Certain events may cause funds held in the common/collective trust and stable value collective trust to be deferred, including, but not limited to, the following:

- (i) Closing or disruption of the financial markets or exchanges in which a transaction is unable to be settled prudently.
- (ii) An emergency situation in which the disposition of assets would be seriously prejudicial to Plan participants.
- (iii) Breakdown in the means of communication normally employed to determine fair market value of an investment.
- (iv) Investments cannot be effected at normal rates of exchange.

None of these events occurred in 2014.

(3) The funds in the common/collective trusts employ a variety of investment strategies, including, but not limited to, long-term capital growth, short-term growth and income.

(4) The stable value collective trust calculates its NAV based on the contract value of the fund and on the fair value based on the underlying assets in the fund. All transactions with the stable value are at the NAV at contract value. The NAV at contract value at December 31, 2014 and 2013 is \$50.36 and \$49.74 and the fair value NAV at December 31, 2014 and 2013 is \$51.07 and \$50.15, respectively.

NOTE 10 – Late Contributions

During 2014, the Employers failed to remit all employee contributions to the Plan on a timely basis, which is a prohibited transaction under ERISA. The Plan Administrator has calculated the lost earnings to the participants and has contributed that amount to the Plan in order to correct the prohibited transactions.
