NOTE 1 – DESCRIPTION OF PLAN

The following description of F. Korbel & Bros., Inc., 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the summary plan description or plan document, as amended, for a more complete description of plan provisions.

General – The Plan is a 401(k) salary deferral plan covering substantially all employees of F. Korbel & Bros., Inc., (the Company), and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company is the Plan's sponsor and serves as plan administrator.

During 2014, the Company sold the Kenwood Vineyards division resulting in the termination of employment for certain employees affected by the sale. The Company has determined that a partial plan termination occurred as a result of this sale and has resolved that all involuntarily terminated employees in the Plan shall be 100% vested in their accounts.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching age 18 and after completing one year of service in which at least 1,000 hours are worked.

Contributions – Participants may elect to defer a portion of their compensation on a pre-tax or Roth basis. The plan also allows for voluntary after-tax contributions. Participants may also contribute amounts representing distributions from other qualified plans. The Company may elect to make a discretionary matching contribution to the Plan. During 2014, the Company matched 80% of the first 5% of compensation that a participant contributed to the plan on a deferred and, or Roth basis. Contributions are subject to regulatory limitations. Effective as of January 1, 2015, the employer matching contribution increased from 80% to a 100% rate.

Participant accounts – Each participant's account is credited with the participant's contribution; the Company's contribution; and any income, gains, or losses attributable to the investment mix of the account. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are fully vested in their salary deferrals, Roth and voluntary contributions, plus actual earnings thereon. Vesting in company contributions and earnings thereon is based on years of continuous service and increases in increments of 20% per year until fully vested after five years of credited service.

Notes receivable from participants – The plan does not make loans to participants or beneficiaries.

Payment of benefits – Upon termination of service, death, disability, hardship, attaining age 59½, qualified domestic relations order, or mandatory distribution at age 70½, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures – Forfeitures are the nonvested portion of a participant's account derived from company contributions that are lost upon termination of employment. Forfeitures are retained in the Plan and used to reduce the Company's discretionary matching contribution. As of December 31, 2014 and 2013, forfeited nonvested accounts totaled $0 and $840. For the year ended December 31, 2014, forfeitures in the amount of $3,897 were used to reduce company matching contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Recent accounting pronouncement – ASU 2015-07- In April 2015, the Financial Accounting Standards board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The ASU is effective for fiscal years beginning after December 15, 2016, with earlier application permitted.

The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient (NAV). Once adopted, the Plan will apply the amendments retrospectively to all periods presented. Plan management is determining the specific impact on Plan reporting. However when adopted, certain investments held by the Plan and measured using NAV will be no longer presented within the fair value hierarchy table.

Investment valuation and income recognition – The Plan's investments are stated at fair value, as determined by Vanguard Fiduciary Trust Company.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Payment of benefits – Benefits are recorded when paid.

Expenses – Administrative expenses are paid by the Company. Certain operating expenses are paid by the Plan.

Subsequent events – The Plan has evaluated subsequent events through July 24, 2015, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS

Investments representing 5% or more of net assets available for benefits consisted of the following as of December 31:

	2014	2013
Vanguard Institutional Index Fund	$ 9,188,580	$ 8,583,739
Vanguard Retirement Savings Trust III	6,382,873	6,483,203
Vanguard Mid-Cap Index Fund Admiral Shares	5,521,962	-
Vanguard Total Bond Market Index Fund: Institutional Shares	5,279,521	5,326,746
Vanguard Target Retirement 2025 Trust II	4,652,707	4,829,110
Vanguard Target Retirement 2015 Trust II	3,434,703	4,063,395
Vanguard Growth Index Fund Admiral Shares	3,083,925	-
DFA U.S. Micro Cap Portfolio, Institutional Class	3,082,748	3,170,281
Vanguard Mid-Cap Index Fund Signal Shares	-	4,990,173

Investment contracts – The Plan has a benefit-responsive investment contract with Vanguard Retirement Savings Trust III. Vanguard RST maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and operating expenses. The guaranteed investment contract issuer (Vanguard) is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive; such contracts are required to be reported at fair value. However, contract value is the relevant measurement attribute since contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the investment contracts. Generally accepted accounting principles require the statements of net assets available for benefits to present the fair value of the fully benefit-responsive investment contracts, as well as the adjustment from fair value to contract value. The statement of changes in net assets available for benefits reflects the fully benefit-responsive investment contracts, which is included in net appreciation in fair value of participant-directed investments at contract value, which approximates fair value. Contract value, as reported to the Plan by Vanguard RST, represents contributions made under the contract, plus earnings, less participant withdrawals and operating expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The existence of certain conditions can limit the trust's ability to transact at contract value with issuers of its investment contracts. Specifically, any event outside the normal operation of the trust that causes a withdrawal from an investment contract may result in a negative market value adjustment with respect to the withdrawal. Examples of such events include, but are not limited to, partial or complete legal termination of the trust or a unitholder, tax disqualification of the trust or unitholder, and certain trust amendments if issuers' consent is not obtained. As of December 31, 2014, the occurrence of an event outside the normal operation of the trust that would cause a withdrawal from an investment contract is not considered to be probable.

In general, issuers may terminate the contract and settle at other than contract value if there is a change in the qualification status of participant, employer, or plan; a breach of material obligations under the contract and misrepresentation by the contract holder; or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The average yields, based on actual earnings, were 2.3% and 1.98% for 2014 and 2013. The average yields, based on interest rate credited to participants, were 1.89% and 1.56% for 2014 and 2013.

During 2014, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

Participant-directed investments	$	3,145,061
Net appreciation in fair value of investments	$	3,145,061

NOTE 4 – FAIR VALUE MEASUREMENTS

The Accounting Standards Codification (ASC) related to fair value measurements and disclosures, defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. The hierarchy is based on the type of inputs used in arriving at fair value. The asset's or liability's fair value measurement level within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Methods used in arriving at fair value may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes the valuation methods used are appropriate, and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The three levels of inputs used to establish fair value are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified or contractual term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable, and significant to the fair value measurement.

Following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014.

Registered investment companies (Mutual funds): Shares of registered investment company funds (or mutual funds) are valued at the NAV of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Common/collective trusts: Units held in common/collective trusts (CCT) are valued using the net asset value (NAV) of the CCT as reported by the CCT managers. The NAV is based on the fair value of the underlying assets owned by the CCT, minus its liabilities, and then divided by the number of units outstanding. The NAV of a CCT is calculated based on a compilation of primarily observable market information.

Guaranteed investment contract: Units of the guaranteed investment contract (GIC) are valued at net asset value at year-end. The GIC is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The following sets forth, by level within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014:

NOTE 5 – TAX STATUS

The plan document is a prototype, non-standardized, profit-sharing defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC).

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 6 – RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as market, interest rate, and credit risk. It is reasonably possible that, given the level of risk associated with investment securities, changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTE 7 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- participant-directed investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013;
- net appreciation in fair value of participant-directed investments, interest, and dividends, as reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014; and
- investments reflected on the supplemental schedule of assets (held at end of year).

NOTE 8 – PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of funds managed by an affiliate of Vanguard Fiduciary Trust Company (VFTC). VFTC acts as trustee for only those investments as defined by the Plan. Transactions in such investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

NOTE 9 – PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan, and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
