Barilla America, Inc. 401(k) Plan

Notes to Financial Statements

December 31, 2014 and 2013

Note 1: Description of Plan

The following description of Barilla America, Inc. (Company) 401(k) Plan (Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

The Plan was established to enable employees to save toward retirement through payroll deductions. The Plan allows employees to put money into the Plan on a before-tax basis. Income taxes are generally not incurred until the employee receives money from the Plan. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA), as amended by subsequent legislation.

General

The Plan covers all employees of the Company who have attained the age of 21 and are not covered by a collective bargaining agreement. Upon satisfying the Plan's eligibility requirements, employees are eligible to participate in the Plan as of the following month.

Contributions

Participants may contribute up to 25% of eligible compensation not to exceed the amount allowable under the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company makes a matching contribution equal to a participant's eligible contribution, up to a maximum of 6% of base compensation. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

Forfeitures of non-vested Company contributions and earnings thereon are used to reduce future Company contributions and pay administrative expenses. At December 31, 2014 and 2013, there were $16 and $9,703, respectively, of unallocated forfeitures. In 2014 and 2013, $43,660 and $64,964, respectively, of forfeitures were applied to reduce employer contributions.

Vesting

Participants are fully vested in the value of their employee-directed contributions to the Plan and the earnings thereon. The Company's matching contributions vest according to the following schedule:

Full Years of Service	Vested Percentage
1	33%
2	66%
3	100%

In the event of death, disability or retirement, participants are fully vested in employer contributions.

Investments

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various registered investment companies and a common or collective trust as investment options for participants.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum amount of $1,000 not to exceed 50% of their vested account balance. The maximum aggregate dollar amount of loans outstanding may not exceed $50,000 per participant. The notes are secured by the balance in the participant's account and bear interest at a reasonable rate. Interest rates are 5.25% at December 31, 2014.

Payment of Benefits

Each participant is entitled to receive a distribution equal to his or her vested account balance upon his or her death, retirement, termination, or disability. Participants may elect to receive benefits in a rollover, a lump-sum payment or a combination of the two. A participant may make withdrawals from his or her account derived from salary deferral contributions and vested matching Company contributions in the event of financial hardship as defined by the plan document.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Fully Benefit-Responsive Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common or collective trust. The statement of net assets available for benefits presents the fair value of the investment in the common or collective trust as well as the adjustment of the investment in the common or collective trust from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on the contract basis. The average yield of the underlying investment contracts was 1.67% and 1.54% in 2014 and 2013, respectively. The average yield credited to participants in 2014 and 2013 was 1.07% and 0.89%, respectively.

Administrative Expenses

The majority of the expenses of administering and operating the Plan are paid by the Company. The Plan pays certain administrative expenses and transaction costs related to participant loans and investment fees. Investment fees are netted against the unrealized appreciation of the investments.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as further described in Note 6. Purchases and sales of securities are reflected on a trade-date basis. Income from investments is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions.

Note 3: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4: Information Certified by the Plan's Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments, at fair value, with the exception of the fully benefit-responsive investment contract in the common or collective trust, which was certified at contract value, and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Investment income components and interest income from participant notes receivable as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013.
- Investments at fair value excluding the fully benefit-responsive investment contract in the common or collective trust, which was certified at contract value, included in the supplemental schedule of assets (held at end of year) as of December 31, 2014.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Investments

The following investments, at fair value, represent 5% or more of the Plan's net assets:

	2014	2013
Fidelity Blue Chip Growth Fund	$ 5,406,787	$ 4,709,104
Fidelity Low-Priced Stock Fund	4,253,161	3,923,334

Fidelity Spartan 500 Index ADV	4,245,957	3,894,413

*Investment less than 5% of net assets available for benefits.

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought, sold as well as held during the year) appreciated as follows:

	2014	2013
Common or collective trust	$ 23,687	$ 22,535
Registered investment companies	290,833	6,586,524
	$ 314,520	$ 6,609,059

Note 6: Fair Value Measurements

Generally accepted accounting principles provide a uniform framework for the definition, measurement and disclosure of fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The financial accounting standards establish a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The financial accounting standards describe three levels of inputs that may be used to measure fair value:

Level 1: Quoted market prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted market prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

The fair value of shares of registered investment companies is determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1 inputs).

The fair value of participation units held by the Plan in common or collective trusts is based on their net asset values, as reported by Fidelity Management Trust Company and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The fair values of common or collective trusts that invest only in securities traded on nationally recognized securities exchanges and active dealer markets are classified within Level 2 of the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

(a) This common or collective trust fund (CCT) is a comingled pool for which the net asset value (NAV) is based on the market value of its underlying investments which contain fixed income asset classes. The CCT can be redeemed at NAV as of the measurement date on a daily basis.

Note 7: Income Tax Status

The Company has adopted a nonstandardized prototype plan of Fidelity Management & Research Company, which received a favorable opinion letter dated December 5, 2001. The Plan has been amended since receiving the opinion letter. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Accordingly, no provision for income taxes is included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination of the Plan, each participant will be fully vested in the value of their account.

Note 9: Party-In-Interest Transactions

Certain Plan investments are managed by Fidelity Management Trust Company, the trustee of the Plan, and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan of $30,195 and $10,024 during 2014 and 2013, respectively, for legal, accounting and other professional services are primarily rendered by parties-in-interest.
