NU-WAY LOGISTICS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. DESCRIPTION OF PLAN

The following description of the Nu-Way Logistics, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Nu-Way Logistics, Inc. who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 100 percent of their annual compensation, subject to certain ERISA limitations. Participants may begin their contributions on January 1 or July 1 of each year and make modifications to their contributions and terminate their contributions at their discretion. Nu-Way Logistics, Inc. may make discretionary matching contributions up to the first 6 percent of salary deferrals, limited to 4.5 percent of a participant's total compensation. Nu-Way Logistics, Inc. may also make a discretionary contribution that is allocated to eligible employees based upon total compensation. Employer contributions for the years ended December 31, 2014 and 2013, were $180,749 and $175,677, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution (if any), and an allocation of Plan earnings. Allocations are based on the performance of the participants' individual investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on covered years of service. A covered year of service is any 12-month period ending on the Plan year-end during which the participant worked at least 1,000 hours. A participant becomes 20-percent vested after two years of service and vests 20 percent each year thereafter until 100-percent vested after six covered years of service. Additionally, participants become 100-percent vested upon normal retirement age, death, or disability.

Payment of Benefits

Upon retirement, participant accounts may be distributed in a lump sum payment or annuity payments over a certain term. Distribution requests are processed as soon as administratively feasible by the Plan administrator.

Notes Receivable From Participants

Participants may borrow from their account up to a maximum of $50,000 or 50 percent of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest equal to the prime rate as listed in *The Wall Street Journal* plus 2 percent on the date the loan application is processed.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts totaled $2,358 and $6,984, respectively. These accounts may be used to reduce future employer contributions or pay administrative expenses of the Plan. In 2014 and 2013, no forfeitures were used as employer contributions to the Plan.

Plan Termination

Although it has not expressed any intent to do so, Nu-Way Logistics, Inc. has the right to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants become 100-percent vested in their accounts.

Tax Status

The Plan obtained its latest determination letter on October 3, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since its latest determination letter. It is the belief of the Trustees and the Plan's attorney that the Plan is in compliance with all applicable laws and regulations.

The Plan files a federal informational return annually. Management believes the returns are no longer subject to examination for years prior to 2011.

Subsequent Events

The Plan has evaluated subsequent events through June 2, 2015, the date the financial statements were available to be issued, and has determined there are no subsequent events that require recognition or disclosure in these financial statements.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation

The Plan has entered into a deposit contract with TD Ameritrade Trust Company. As directed by the participants, the funds are invested in equity and fixed rate funds. The funds are stated at fair value as determined by the custodian of the Plan based on market values.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates based on management's knowledge and experience. Due to their prospective nature, actual results could differ from those estimates.

NOTE 7. FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the FASB Accounting Standards Codification (FASB ASC Topic 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014, from the prior year.

Stock funds, international stock funds, bond funds, balanced funds, alternative funds, and cash and money markets: Valued daily at unit values based on the price from each fund house after the close of the stock market. The unit values include the net asset value and any dividends or capital gains declared.

Collective trust: Valued daily at unit value based on the underlying price reported by Wells Fargo Stable Return Fund G. The unit value includes the net asset value exclusive of the adjustment to contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
