MID AMERICA 401(k) RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 And 2013

1. Description Of The Plan

The following description of the Mid America 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

St. Charles Nissan, Inc., Mid America Motors, Inc. and Mid America Collision Repair, Inc. (MACR) (collectively referred to as the Company) adopted the Plan to provide participants an opportunity to defer a portion of their compensation to provide supplementary retirement income and a measure of economic security. The Plan, which became effective January 1, 1985, is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Principal Life Insurance Company (Principal) is the Plan's recordkeeper.

Eligibility

Employees of the Company who have completed six months of service and are age 18 or older are eligible to participate in the Plan. Participants are automatically enrolled at a default salary deferral contribution of 2% of compensation. Participants have the option of changing their elections or opting out of participation.

Contributions

Participants are allowed to contribute to the Plan up to 100% of their annual compensation, as defined in the Plan Agreement, on a tax-deferred basis, up to the maximum set by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

The Company may contribute discretionary matching contributions each year. The Company contributed a matching contribution of 50% of the first 2% of eligible compensation contributed by participants for 2014 and 50% of the first 1% of eligible compensation contributed by participants for 2013.

In addition, at the end of each Plan year, the Company's Board of Directors may authorize a profit-sharing contribution. The Company did not make a discretionary profit sharing contribution for 2014 or 2013.

MID AMERICA 401(k) RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Forfeitures

Forfeited nonvested accounts may be used to reduce Company contributions, Plan administrative expenses or both. Forfeitures used to reduce Company contributions amounted to \$305 and \$198 during 2014 and 2013, respectively.

Notes Receivable From Participants

Participants may borrow from their accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of the total value of the participant's vested account balance. Loans are for a period not exceeding five years, or not to exceed 30 years for the purchase of a primary residence. Loans bear interest at a fixed rate of interest based on prevailing market rates. Loans are repaid through payroll withholdings, including principal and interest.

Vesting

Participants are immediately vested in their deferral contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of service. A participant is 20% vested after two years of service, increasing 20% each year to 100% vested after six years of service.

Participant Accounts

Each participant's account is credited with the employee's contributions, the Company's contributions, and an allocation of Plan earnings. The allocation of earnings or losses is determined by the earnings of the participant's investment selection based on each participant's account balance, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants in the Plan may direct the investment of their accounts among a variety of investment options. The investment options at December 31, 2014 and 2013 consist of pooled separate accounts and guaranteed interest accounts.

Payment Of Benefits

Upon termination of service due to death, disability, retirement, or separation from the Company, a participant may elect to receive either a lump-sum distribution or one of several forms of annuities, as defined in the Plan Document.

MID AMERICA 401(k) RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

In-Service Withdrawals

Participants who attain the age of 59-1/2 may withdraw any portion of their vested account balance. In certain circumstances, a participant may elect a hardship distribution, as defined in the Plan Document.

Administrative Expenses

Significant expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to contract administration, notes receivable from participants, distributions and recordkeeping are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

2. Summary Of Significant Accounting Policies

Basis Of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates And Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation And Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

MID AMERICA 401(k) RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The guaranteed investment accounts are not considered fully benefit-responsive and as such, the amounts reported on the statement of net assets available for benefits and the statement of changes in net assets available for benefits are presented at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment Of Benefits

Benefits are recorded when paid.

Subsequent Events

Management has evaluated subsequent events through July 30, 2015, the date which the financial statements were available for issue.

3. Investments

Financial information related to the investments and earnings thereon is included in the accompanying financial statements and is based on information provided by Principal. This information, which has not been audited by the Plan's auditors, has been certified as complete and accurate by Principal.

MID AMERICA 401(k) RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

Investments, at fair value, that represent 5% or more of net assets available for benefits are as follows:

	December 31,	
	2014	2013
Pooled Separate Accounts		
Principal SAM Strategic Growth Separate Account	\$ 809,306	\$ 690,607
Principal SAM Conservative Growth Separate Account	748,564	660,603
Principal SAM Balanced Separate Account	629,082	622,681
Principal Mid Cap Growth III Separate Account	461,168	436,332
Principal Large Cap Standard & Poor's 500 Index Separate Account	508,394	399,638

4. Fair Value Measurements

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

MID AMERICA 401(k) RETIREMENT SAVINGS PLAN

Notes To Financial Statements *(Continued)*

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Pooled Separate Accounts

Valued at the net asset value (NAV) of units held by the Plan at year end. The NAV is determined by dividing the net assets, at fair value, of the fund by the number of units outstanding on the day of valuation. The NAV, as provided by Principal, is used as a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Guaranteed Interest Accounts

Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates. Contract value represents contributions plus earnings, less withdrawals and expenses. In determining the reasonableness of the methodology, management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through utilizing interest rates applied.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In addition, Maher Rosenheim Comfort Tabash LLC (MRCT Benefits Plus) is the broker for the Plan. Fees paid by the Plan for broker fees, which are included as a component of net appreciation (depreciation) of investments in the statement of changes in net assets available for benefits, amounted to \$7,791 and \$11,162 in 2014 and 2013, respectively.

These transactions qualify as exempt party-in-interest transactions under ERISA.

6. Income Tax Status

The Company adopted the Principal Financial Group Prototype Basic Savings Plan (Principal). The prototype plan sponsor has obtained an opinion letter dated March 31, 2008 in which the IRS stated that the restated prototype Plan Document was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter. The Plan has been amended since the date of the opinion letter; however, the Plan Administrator believes that the Plan is currently being operated in accordance with the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2011 and later remain subject to examination by taxing authorities.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

8. Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
