Notes to Financial Statements

December 31, 2014 and 2013

(1) **Description of the Plan**

The following description of the Rehab Solutions, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of the Company who have completed three months of service and attained age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions - Each year participants may contribute up to 100% of pretax annual compensation, as defined in the plan document, subject to Internal Revenue Code ("IRC") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans and certain individual retirement accounts. The Company may elect to make discretionary matching contributions. Participants shall be eligible to receive an allocation of any discretionary contribution to the Plan only if employed by the Company on the last day of the contribution period. Contributions are subject to certain limitations.

Investment Options - Participants direct the investment of their accounts into various investment options offered by the Plan. The Plan currently offers various mutual funds and a collective investment trust as investment options for participants.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, Plan earnings (losses), and charged with benefit payments, transaction fees related to notes receivable from participants and distributions, and allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is fully vested after three years of credited service or upon termination of employment due to death or disability.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at prime rate plus one percent as determined by the plan administrator. At December 31, 2014, outstanding notes bore interest rates of 3.25 – 4.75%. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits - On termination of service, a participant may receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeitures - At December 31, 2014 and 2013, forfeited non-vested accounts totaled approximately $-0- and $50, respectively. These accounts will be used to reduce employer contributions or pay plan expenses. During 2014, forfeitures of approximately $3,800 were used to pay plan expenses.

(2) **Summary of Significant Accounting Policies**

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results may differ from those estimates and assumptions.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

In accordance with GAAP, the common collective investment trust held by a defined contribution plan is required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the common collective investment trust. The statement of changes in net assets available for benefits is prepared on a contract value basis. For 2014 and 2013, contract value approximates fair value; therefore no adjustment is required from fair value to contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income from notes receivable from participants is recorded when received. Other interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants - Notes receivable from participants are measured at their unpaid principal balance. Delinquent participant notes are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits - Benefits are recorded upon distribution.

Administrative Expenses - The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan. Expenses relating to specific participant transactions (notes receivable from participants and distributions) are charged directly to the participant's account.

Subsequent Events - The Plan has evaluated subsequent events through July 24, 2015, the date the financial statements were available to be issued.

During 2014, the Plan's mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated $211,150.

(4) **Fair Value Measurements**

Fair value as defined under GAAP is an exit price, representing the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Inputs other than quoted prices in active markets that are either directly or indirectly observable.
- Level 3: Unobservable inputs about which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

When quoted prices are available in active markets for identical instruments, investment securities are classified within Level 1 of the fair value hierarchy. Level 1 investments include mutual funds.

Level 2 investment securities include collective investment funds and a collective investment trust for which quoted prices are not available in active markets for identical instruments. These funds are valued at the closing net asset value (NAV) of units held by the Plan at year end based on information certified by the trustee.

The following tables set forth by level within the fair value hierarchy the Plan's assets accounted for at fair value on a recurring basis as of December 31, 2014 and 2013:

	Fair Value as of December 31, 2014

(a) These funds seek to provide capital appreciation with low current income. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

(b) This fund seeks to provide capital appreciation with moderate current income. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

(c) These funds seek to provide current income with limited capital appreciation. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

The plan recognizes transfers between the levels as of the actual date of the event or change in circumstances that caused the transfer. There were no transfers between the levels for the years ended December 31, 2014 and 2013.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(5) **Unaudited Information Certified by Trustee**

The accompanying financial statements include the following unaudited information as of December 31, 2014 and 2013 and for the year ended December 31, 2014 that was obtained from data prepared and certified to be complete and accurate by the Plan's trustee:

	2014	2013
Investments	$ 3,730,857	$ 3,674,579
Cash	$ 43,547	$ 52,281
Notes receivable from participants	$ 10,186	$ 15,112
Net appreciation in fair value of investments	$ 211,150	
Interest and dividends	$ 99,600	
Interest income on notes receivable from participants	$ 1,084	

The certification mentioned above includes all investment information discussed in Notes 3 and 4.

(6) **Exempt Party-In-Interest Transactions**

Certain plan investments are shares of mutual funds and collective investments funds and trust managed by Alerus Financial, N.A. ("Alerus"). Alerus is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid to the trustee by the Plan for administrative services were $19,195 for the year ended December 31, 2014.

(7) **Plan Termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(8) **Tax Status**

The Plan has not obtained a determination letter from the Internal Revenue Service (the "IRS") stating that the Plan was in compliance with the applicable requirement of the IRC. The Plan is relying on the IRS approval of the volume submitter plan that it is utilizing. The IRS has determined and informed the trustee by a letter dated March 31, 2008 that the volume submitter plan document was designed in accordance with applicable sections of the IRC. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(9) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
