HDSS 401(k) RETIREMENT PLAN FOR UNION EMPLOYEES

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – PLAN DESCRIPTION

The following description of the HDSS 401(k) Retirement Plan for Union Employees (the “Plan”) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan effective January 1, 2013, covering all employees of High Desert Support Services LLC (the “Company” or “Employer”) who have completed one hour of service and are represented for collective bargaining purposes by the Teamsters Union Local #166. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Plan Custodian and Trustee – Bank of America, N.A. is the Plan Trustee (“Trustee”) and Merrill Lynch, Pierce, Fenner & Smith Incorporated is the Plan Custodian (“Custodian”).

Contributions – The Plan allows participants to contribute up to 100% of their annual compensation, as defined by the Plan. Participants may contribute on a pre-tax and/or after-tax Roth basis up to the maximum dollar amount allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also transfer amounts representing distributions from other qualified defined benefit or defined contribution plans, subject to approval by the Company.

Participants direct the investment of all contributions into various investment options consisting of mutual funds, common collective trust funds, and a money market fund offered by the Plan.

Participants' Accounts – Each participant's account is credited with the participant's contribution and allocations of administrative expenses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are 100% vested in their own contributions as well as actual earnings thereon.

Notes Receivable from Participants – Participants may borrow up to a maximum amount equal to the lesser of \$50,000 less the highest outstanding loan balance during the prior twelve months or 50% of their vested account balance. The minimum loan amount is \$1,000. Participants may only have one loan outstanding at any given time. Notes receivable from participants are secured by the balance in the participant's account and bear interest at a fixed rate of prime plus 1%. All outstanding notes receivable at December 31, 2014 and 2013 carry interest rate at the rate of 4.25% per annum. The loans are repaid ratably through payroll deductions over a period of five years or less for a general loan and up to ten years on a primarily residence loan.

HDSS 401(k) RETIREMENT PLAN FOR UNION EMPLOYEES

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – PLAN DESCRIPTION – continued

Payment of Benefits – Upon separation of service due to death, disability, retirement or termination of employment, a participant may elect to receive a lump-sum payment equal to the value of the participant's vested balance. A participant may withdraw all or a portion of their account in the event of a financial hardship, as defined by the Plan. Additionally, certain in-service withdrawals are permitted upon attainment of age 59 ½. Vested account balances less than \$5,000 are immediately distributable in a lump sum under the terms of the Plan without the participant's consent. If there is no direction from the participant and the vested balance is greater than \$1,000 but less than \$5,000, the vested balance will be distributed as a direct rollover into an individual retirement account selected by the Plan administrator. If the vested balance is \$1,000 or less, it will be distributed.

Administrative Expenses – The Company absorbs the significant administrative expenses of the Plan. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in conformity with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through collective trusts. The Statement of Net Assets Available for Benefits presents the fair value of the investments in the collective trusts, as well as the adjustment of the investments in the collective trusts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis. At December 31, 2014, an adjustment from fair value to contract value for interest in collective trust relating to fully benefit-responsive investment contracts of \$714 has been recognized. At December 31, 2013, fair value approximates contract value for the common collective trust fund.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of Plan additions and deductions during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Quoted market prices are used to value investments where available. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes gains and losses on investments sold during the year as well as net appreciation of the investments held at the end of the year.

Notes receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Recent Accounting Pronouncements – Recent accounting pronouncements issued by the Financial Accounting Standard Board ("FASB") or other authoritative standards groups with future effective dates are either not applicable or are not expected to be significant to the Plan's financial statements.

Subsequent Events – Management has evaluated subsequent events through July 20, 2015, the date that the financial statements were available to be issued. Effective January 1, 2015, the Plan Adoption Agreement was amended and restated to comply with the Pension Protection Act of 2006. Management has determined that no additional disclosures were necessary. No events occurring after this date have been evaluated for inclusion in these financial statements.

NOTE 4 – FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures topic of the Financial Accounting Standards Board Accounting Standards Codification provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under the framework are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

HDSS 401(k) RETIREMENT PLAN FOR UNION EMPLOYEES

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS – continued

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

- *Mutual funds/money market fund*: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common collective trusts*:
 - o Stable value common trust fund – The fund is comprised of guaranteed investment contracts, wrap contracts, and various other contracts. The fair value of the guaranteed investment contract is provided by the fund administrator and is generally determined by discounting the scheduled future payments required under the contract (income approach). The fair value of wrap contracts reflects the discounted present value of the difference between the current wrap contract cost and its replacement cost, based on issuer quotes (cost approach). For assets other than investment and wrap contracts, including securities underlying synthetic investment contracts, fair value generally is reflected by market value at the close of business on the valuation date (market approach). Therefore, the funds' fair value is classified within level 2 of the valuation hierarchy. This fund is a fully benefit-responsive investment, and as required, an adjustment is made to reflect this investment at contract value on the financial statements, which represents cost plus accrued income less redemptions.
 - o Other common collective trust funds – The fair values of other common collective trust funds are determined by the net asset value ("NAV") provided by the fund administrator. Although the NAV's unit prices are quoted on a private market that is not active, the unit prices are based on underlying investments which are traded on an active market (market approach). Therefore, the fair values of the funds are classified within the level 2 of the valuation hierarchy. The common collective trust funds are not subject to restrictions regarding redemptions and there are no unfunded commitments to the funds. There are also no restrictions on the NAV price or its equivalent.

NOTE 4 – FAIR VALUE MEASUREMENTS – continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Net appreciation in fair value of investments:		
Mutual funds	21,883	
Common collective trust funds	134

NOTE 6 – INCOME TAX STATUS

The Plan operates under a non-standardized adoption agreement in connection with a prototype defined contribution plan and trust sponsored by the Custodian. This prototype plan document has been filed with the appropriate agency and the prototype plan document administrator obtained an opinion letter dated March 31, 2008, from the Internal Revenue Service stating that the prototype plan and related trust, as then designed, constituted a qualified plan under Section 401 of the IRC and, therefore, were not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

NOTE 7 – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by the Custodian, and, therefore, these transactions qualify as party-in-interest transactions as defined by ERISA. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. There have been no known prohibited transactions with parties-in-interest.

Fees paid by the Plan to the Custodian for administrative expenses amounted to \$850 for the year ended December 31, 2014.

The Plan has notes receivable from participants as of December 31, 2014 and 2013. As a result, these receivables and all transactions relating to these receivables qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.
