CARGILL EMPLOYEE RETIREMENT ACCOUNT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of Plan

The following description of the Cargill Employee Retirement Account Plan (the Plan) of Cargill, Incorporated, and Associated Companies (the Company) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions. The Plan began January 1, 2007.

(a) General

The Plan is a qualified defined-contribution retirement plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is funded by discretionary contributions from the Company based on age and service. Contributions are held in a trust fund and are separate from the Company assets.

Participants are eligible to participate if hired or rehired by the Company on or after January 1, 2007, and are a U.S. employee with salaried benefits. Participants are automatically enrolled in the Plan on their date of hire. Unvested participants in the Cargill Salaried Employees Pension Plan under the age of 40 as of December 31, 2006 also became participants of the Plan on January 1, 2007.

Participants are eligible to receive their vested account balance upon retirement, termination of employment, death, or total and permanent disability.

(b) Trust Agreement and Plan Administration

The investment assets of the Plan are held in the Cargill Employee Retirement Account Plan Trust, with Vanguard Fiduciary Trust Company (the Trustee).

Recordkeeping for the Plan is outsourced to The Vanguard Group (Vanguard). Participants' accounts are revalued each day the New York Stock Exchange is open for trading.

(c) Contributions

The Company may make a discretionary contribution to the Plan on participants' behalf each plan year. Participant age and service are used to determine the Company's contribution and allocation to participant accounts. Participants must be employed on the last day of the plan year to receive an allocation unless their employment is terminated due to death, disability, or retirement on or after age 55. The contribution will be made following the plan year. Effective January 1, 2013, the annual contribution was increased from a range of 1% to 7% to 2.5% to 7% of a participant's eligible compensation based on the participant's age and service.

CARGILL EMPLOYEE RETIREMENT ACCOUNT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

Participants choose how to invest contributions by selecting from either the Vanguard Target Retirement Trusts or the Core Funds offered by the Trustee for the Plan. During the year ended December 31, 2014, the share classes of the investments offered by the Trustee for the Plan were modified. As of July 1, 2014, the investments in the existing share classes of the funds offered by the Trustee during the Plan year ended December 31, 2013 were automatically transferred to the equivalent share classes offered as of December 31, 2014. Participants' contributions subsequent to July 1, 2014 may be invested in the share classes of the funds listed below.

Investment share classes

Vanguard Target Retirement Trust Plus Funds
Vanguard Target Retirement Income Trust II
Vanguard Institutional Index Fund Plus Shares
Vanguard Prime Money Market Fund Institutional Shares
Vanguard PRIMECAP Fund Admiral Shares
Vanguard Windsor II Fund Admiral Shares
Vanguard Total International Stock Index Fund Institutional Shares
T. Rowe Price Institutional Small-Cap Stock Fund
JPMorgan Stable Value Fund
PIMCO Total Return Bond Institutional Fund

The Target Retirement Trust Plus Funds are "one decision" funds that simplify investing for retirement. The participant can choose the one fund nearest to his/her expected year of retirement (2060, 2055, 2050, 2045, 2040, 2035, 2030, 2025, 2020, 2015, or 2010). As that date approaches, the fund gradually and automatically reduces risk by shifting from stocks to bonds. The Vanguard Target Retirement Income Trust Plus maintains a fixed allocation intended to provide retirees with income while preserving their original investment.

Participants may invest in one or more funds in multiples of 1% to 100% of the amount being invested. Unless specified otherwise, contributions made on participants' behalf will be automatically invested in the Vanguard Target Retirement Trust II Fund that most closely matches the year in which participants reach age 65.

A participant will automatically become 100% vested upon death, total disability, or upon retirement as defined in the plan document. Forfeitures of nonvested accounts are used to reduce future employer contributions. For the years ended December 31, 2014 and 2013, forfeitures of nonvested accounts were \$1,046,486 and \$558,620, respectively.

Participants are vested in their plan accounts after completing three years of service.

(d) Benefit Payments and Withdrawals

Benefit payments and withdrawals may be made upon the members reaching early or normal retirement date or due to termination, disability, death, retirement, or hardship. Early retirement date is the first of the month in a participant attains age 55 with five or more years of service. Normal retirement date is the date on which a participant attains age 65. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value

of the participant's vested interest in his or her account, installment payments – monthly (12 payments per year), quarterly (four payments per year), semi-annually (two payments per year), or annually (one payment per year), or partial payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution or installment payments – monthly (12 payments per year), quarterly (four payments per year), semi-annually (two payments per year), or annually (one payment per year).

(2) Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Investments and Income Recognition

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

The Plan's investments are stated at fair value within changes recorded in net appreciation in fair value of investments in the statements of changes in net assets available for benefits. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for the discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation, which include realized and unrealized gains and losses, are determined and applied daily according to market changes.

(c) Expenses

Trustee and certain other administrative expenses are paid by the participants out of plan assets. Other administrative expenses are paid by the Company.

(d) Benefits

Benefits are recorded when paid.

(e) Use of Estimates

The preparation of financial statements, in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the

CARGILL EMPLOYEE RETIREMENT ACCOUNT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual amounts could differ from those estimates.

(f) Risks and Uncertainties

The Plan provides for investment in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participant accounts and the amounts reported in the statements of net assets available for benefits.

(3) Information Certified by Trustee

The Plan Trustee holds the Plan's investment assets, executes transactions therein pursuant to discretionary authority granted to the Plan Trustee concerning purchases and sales of investments in the trust fund, and collects the related investment income.

The Plan Trustee has provided the plan administrator with certifications as to the completeness and accuracy of investment assets, liabilities, and income of the Plan as of and for the years ended December 31, 2014 and 2013. The JPMorgan Stable Value Fund is included in participant-directed investments at contract value as outlined in the following table:

	<u>2014</u>	<u>2013</u>
Participant-directed investments	\$ 60,873,785	40,333,894
Net investment income	4,802,692	6,743,862

Such amounts are included in the accompanying financial statements, notes thereto, and supplemental schedules of the Plan based on such certification from the Plan Trustee.

(4) Investments

The following presents investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013.

CARGILL EMPLOYEE RETIREMENT ACCOUNT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

* Investments are less than 5% of net assets available for benefits.

The Plan's mutual fund investments (including gains and losses on investments bought and sold as well as held during the year) appreciated in value by \$4,468,194 and \$6,603,660 in 2014 and 2013, respectively.

(5) Fair Value Measurements

The Company establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Basis of Fair Value Measurement:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of valuation methodologies used for investment assets held and carried at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

- Mutual funds – Valued daily based on quoted prices from national exchanges and commonly used third-party pricing services. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- Stable value funds – The unit value is calculated at the end of each business day. The unit value is based on the current value of the investment contract fund's holdings divided by the total number of outstanding units to obtain a daily unit value (NAV). The NAV, as provided by the Trustee, is used as

CARGILL EMPLOYEE RETIREMENT ACCOUNT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

a practical expedient to estimate fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The following tables present the level within the fair value hierarchy at which the investments are measured on a recurring basis as of December 31, 2014 and 2013:

2014				
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Balanced funds	\$ 50,982,557	—	—	50,982,557
Domestic equity	5,043,168	—	—	5,043,168
Other	3,325,810	942,319	—	4,268,129
Stable value funds	—	582,259	—	582,259
Total	<u>\$ 59,351,535</u>	<u>1,524,578</u>	<u>—</u>	<u>60,876,113</u>

2013				
	Level 1	Level 2	Level 3	Total
Mutual funds:				
Balanced funds	\$ 34,747,495	—	—	34,747,495
Domestic equity	2,843,007	—	—	2,843,007
Other	2,438,466	—	—	2,438,466
Stable value funds	—	304,960	—	304,960
Total	<u>\$ 40,028,968</u>	<u>304,960</u>	<u>—</u>	<u>40,333,928</u>

The Plan did not have significant transfers between Levels 1 and 2 during the years ended December 31, 2014 and 2013. It is the Plan's policy to recognize transfers between levels of the fair value hierarchy on the date of event or change in circumstances that caused the transfer.

(6) Synthetic Guaranteed Investment Contracts

The Plan contains direct investments in synthetic guaranteed investment contracts (SGICs) (the JPMorgan Stable Value Fund) managed by JPMorgan, which are presented at fair value at December 31, 2014 and 2013, as shown in notes 4 and 5. In determining the Net Assets Available for Benefits at December 31, 2014 and 2013, the JPMorgan Stable Value Fund is recorded at its contract value of \$579,931 and \$304,926, respectively, which is equal to principal balance plus accrued interest. Investment contracts such as those comprising the JPMorgan Stable Value Fund are generally valued at contract value, rather than fair value, to the extent it is fully benefit-responsive.

Contract value, as reported to the Plan by Vanguard, represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed and reset on

CARGILL EMPLOYEE RETIREMENT ACCOUNT PLAN

Notes to Financial Statements

December 31, 2014 and 2013

a quarterly basis. The crediting interest rate at December 31, 2014 and 2013 was 1.71% and 1.94%, respectively. The average yield at December 31, 2014 and 2013 was 1.55% and 1.53%, respectively.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include, but are not limited to, the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Stable Value Fund does not permit the wrap providers to terminate the agreement except under certain circumstances per the terms of the agreement. The wrap providers and the Plan may terminate the agreement upon 30 days' notice. The SGICs within the JPMorgan Stable Value Fund are placed with financial institutions whose Standard & Poor's credit rating is A or higher.

(7) Income Taxes

The Plan received a tax determination letter from the Internal Revenue Service on June 28, 2012 stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and the trust created thereunder is exempt from federal income taxes under Section 501(a). The plan administrator believes the Plan is qualified under Section 401(a), and the underlying trust is exempt from federal income taxes under Section 501(a).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

(9) Party-In-Interest Transactions

Transactions resulting in plan assets being transferred to or used by a related party are prohibited under the ERISA unless a specific exemption applies. Vanguard Fiduciary Trust Company, Trustee of the Plan, is a party in interest as defined by ERISA as a result of investing plan assets in certain of their funds. However, such transactions are exempt under Section 408(b)(8) and are not prohibited by ERISA.
