Independent Auditor's Report

To the Administrative Committee of
Star Leasing Company Employee Stock Ownership Plan
Columbus, Ohio

Report on the Financial Statements

We have audited the accompanying financial statements of Star Leasing Company Employee Stock Ownership Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

BDO USA, LLP, a Delaware limited liability partnership, is the U.S. member of BDO International Limited, a UK company limited by guarantee, and forms part of the international BDO network of independent member firms.

BDO is the brand name for the BDO network and for each of the BDO Member Firms.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and the changes in net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Matter - 2013 Financial Statements

The 2013 financial statements of Star Leasing Company Employee Stock Ownership Plan were audited by SS&G Inc. whose partners and professional staff joined BDO USA, LLP as of January 1, 2015, and has subsequently ceased operations. Star Leasing Company Employee Stock Ownership Plan

Notes to Financial Statements

1. Description of Plan

The following description of the Star Leasing Company Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Star Leasing Company (the Company) established the Plan effective as of January 1, 1988. As of January 1, 2002, the Plan was amended and operates, in relevant part, as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by an Administrative Committee appointed by the Board of Directors. The Company elected Subchapter S status for federal income tax purposes effective July 1, 2000. The Plan has hired an external trustee.

The Plan purchased Company common stock using the loan proceeds (Note 6) and holds the common stock in a trust established under the Plan. The borrowing is to be repaid over a period ending May 2018 by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of common stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The loan is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The Company has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2014 and 2013 and for the year ended December 31, 2014 present separately the assets and liabilities and changes therein pertaining to:

1. The accounts of employees with vested rights in allocated common stock (Allocated) and
2. Common stock not yet allocated to employees (Unallocated)

Eligibility

The Plan is a defined contribution plan covering all employees of the Company who have attained age 18 and have completed 1,000 hours of service from the date of hire through the last day of the plan year.

Concentration of Credit Risk

During 2014 and 2013, the majority of the Plan's assets were invested in Company common stock. It is the general intent of the Plan to invest all or substantially all of the funds of the Plan in common stock of the Company.

Contributions

The Company contributions are made in cash and/or common stock as determined by the plan document. The Company must contribute sufficient amounts to the Plan to pay amounts due under the loans payable used to acquire Company common stock.

Star Leasing Company Employee Stock Ownership Plan

Notes to Financial Statements

Eligible participant accounts will be credited with a portion of the Company's contribution based on the ratio of each participant's eligible compensation to the total eligible compensation of all participants for the year.

Participant Accounts

The Trustee of the Plan establishes an individual account for each participant and will credit such accounts for Company contributions made on behalf of the participant no later than the due date for filing the Employer's Federal income tax return for that year for all participants that have met the eligibility requirement and were employed by the Company on the last day of the Plan year. In addition, each individual account will be adjusted for a proportionate share of forfeitures, market earnings or losses, and income and expenses of the entire trust fund. Additional shares of Company common stock are allocated to individual accounts as they become available for allocation as the result of principal and interest payments made on loans payable, and at the discretion of the Administrative Committee for the recycling of shares purchased by the Plan from terminating participants. No employee contributions to the Plan are permitted. During 2013, the Company contributed 1,500 common stock shares valued at \$300.11 per share (totaling \$450,165) that were redeemed from terminated participants and reallocated the shares to active plan participants. During June 2015, the Company contributed 500 common stock shares valued at \$444.48 per share (totaling \$222,240) that were redeemed from terminated participants and reallocated the shares to active plan participants.

Diversification Rights

A participant who has attained age 55 and has completed 10 or more years of active participation is eligible for special diversification rights. During the 90-day period after the end of the qualifying plan year, the participant can elect to liquidate a portion of the Company common stock credited to the participant's account. The election applies beginning with the first plan year after satisfying the age 55 and 10-year participation requirement and continues for each of the next five plan years for a total term of six years of special diversification rights. For the first five years of the special diversification rights term the participant can elect to liquidate up to 25% of the Company common stock. For the last year of the special diversification rights term the participant can elect to liquidate up to 50% of the Company common stock. The proceeds from the liquidation will be reinvested as directed by the participant in the Company's 401(k) Plan for current employees or other external investment vehicles for former employees.

Vesting

Participants are vested in their account plus earnings thereon based on years of continuous service as follows:

<i>Years of Service</i>	<i>Vested Percentage</i>
Less than 2	0%
2 but less than 3	25%
3 but less than 4	50%
4 but less than 5	75%
5 or more	100%

Star Leasing Company
Employee Stock Ownership Plan
Notes to Financial Statements

A participant is entitled to 100% of his or her vested account balance upon retirement, death, or disability.

Payment of Benefits

On termination of service due to death, disability, retirement, or for other reasons a participant may receive either annual cash installment payments or a lump-sum amount equal to the value of the participant's vested interest in his or her account. Normal retirement age is 65; early retirement age is 61.

The distribution method is decided in accordance with the Plan document. Distributions under \$10,000 will be paid out to the participant in a lump sum payout. Distributions from the participant's Company common stock account will be made in Company common stock or cash, at the Company's discretion. Any shares of Company Stock distributed to participants and beneficiaries are required to be immediately resold to the Company at their fair market value determined as of the preceding December 31st.

Forfeitures

At the end of each plan year, previously forfeited non-vested amounts are allocated to eligible participants based on a pro rata portion of the participants' eligible compensation. During the plan years ended December 31, 2014 and 2013, forfeitures consisting of 36.6903 and 126.0283 shares of common stock, respectively, were reallocated to participants based on eligible compensation.

Put Option Requirements

If Company common stock is distributed from the Plan at a time when the Company common stock is not readily tradable on an established securities market, then the participant or beneficiary receiving the Company common stock shall have the right to require that the Company repurchase the Company common stock at a purchase price equal to the fair market value as of the most recent valuation date. The participant or beneficiary may exercise this put option for a period of 60 days following the date on which the Company common stock is distributed and for an additional period of 60 days during the next following plan year. The period during which the put option is exercisable shall not include any period during which the participant or beneficiary is unable to exercise the put option because the Company is prohibited from honoring it by federal or state law. In order to exercise the put option, the participant or beneficiary must notify the Company in writing, during the exercise period, that the put option is being exercised.

Voting Rights

The Administrative Committee shall direct the Trustee as to the voting rights, except that any vote regarding any proposed corporate merger or consolidation, recapitalization, reclassification liquidation, dissolution sale of substantially all of the Company assets, or any other similar major corporate event, will be "passed through" to Plan participants.

With respect to any of the unallocated shares of the Company common stock held in the ESOP suspense account, and shares of the Company common stock allocated to participants' ESOP accounts as to which no voting directions have been received by the Administrative Committee in

Star Leasing Company
Employee Stock Ownership Plan
Notes to Financial Statements

a timely manner, the Administrative Committee shall direct the Trustee as to how to vote the shares on any corporate matters.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment Valuation and Income Recognition

The Plan's investments in non publicly traded Company common stock are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Investments in common stock of the Company are valued at the latest appraised value, which is \$444.48 and \$300.11 per share as of December 31, 2014 and 2013, respectively, as determined by an independent appraiser. Purchases and sales of securities are recorded on a trade-date basis.

Plan Administrative Costs

All administrative expenses of maintaining the Plan are paid by the Company.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Risks and Uncertainties

The Plan invests in common stock of the Plan sponsor. The Company common stock is exposed to various risks, such as interest rate, market and credit risks, as well as valuation assumptions based on earnings cash flows and/or other such techniques. Due to the level of risk associated with the Company common stock and the level of uncertainty related to changes in the value of the Company common stock, it is at least reasonably possible that changes in the values of the Company common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Loans Payable

The loans payable to the Company are secured by the unallocated shares of Company common stock. Shares of common stock become available for allocation to eligible participants based on a ratio of principal and interest during the plan year to the total principal and interest paid over the life of the loan. During both 2014 and 2013, 1,446 shares of common stock were released from suspense as a result of payments made on the loans payable.

Star Leasing Company
Employee Stock Ownership Plan
Notes to Financial Statements

Subsequent Events

The Plan has evaluated events and transactions that occurred between January 1, 2015 and July 30, 2015 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements (see Note 1).

3. Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Plan Administrative Committee should direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

4. Investment in Star Leasing Company Common Stock

The Plan's investments in Company common stock at December 31 are presented in the following table:

	2014		2013	
	Allocated	Unallocated	Allocated	Unallocated
Company common stock				
Number of shares	45,012	4,866	45,935	6,312
Cost	\$11,325,254	\$220,552	\$4,006,130	\$286,073
Estimated fair value	\$20,007,136	\$2,162,844	\$13,785,479	\$1,894,173

During 2014 and 2013, the Plan's investment in common stock appreciated in value by \$7,200,953 and \$4,640,754, respectively.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in in active markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Star Leasing Company
Employee Stock Ownership Plan

Notes to Financial Statements

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Following is a description of the valuation methodologies used for assets measured at fair value:

Common stock: The fair value of the Company common stock is determined by an annual independent appraisal. This appraisal was based on a combination of the market and income valuation methods consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and estimated fair value of Company assets and liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Company common stock:				
Non publicly traded company				
common stock	\$ -	\$ -	\$22,169,980	\$22,169,980
Total assets at fair value	\$ -	\$ -	\$22,169,980	\$22,169,980

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014:

	Fair Value Measurements Using Significant Unobservable Inputs (Level 3) Common Stock
Balance, beginning of year	\$15,679,652
Shares distributed to participants	(710,625)
Net unrealized gains relating to instruments still held at the reporting date	7,200,953
Balance, end of year	\$22,169,980

Star Leasing Company
Employee Stock Ownership Plan

Notes to Financial Statements

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Assets at Fair Value as of December 31, 2013			
	Level 1	Level 2	Level 3	Level 4
Company common stock:

common stock	\$ -	\$ -	\$ 15,679,652	\$15,679,652
Total assets at fair value	\$ -	\$ -	\$ 15,679,652	\$15,679,652

6. Loans Payable

The Plan has entered into a term loan agreement with the Company. As of December 31, 2014 and 2013, the Plan was indebted to the Company for the following amount:

	2014	2013
Loan Payable	\$407,797	\$511,047

In 1998, the Plan entered into a \$1,359,750 term loan agreement with the Company. The proceeds of the loan were used to purchase Company common stock. Unallocated shares serve as collateral for the unpaid portion of the loan. The loan bears interest at 7.25%. This loan agreement provides for the loan to be repaid over twenty years.

The scheduled amortization for the next four years is as follows:

Year	Total
2015	\$110,990
2016	119,310
2017	128,253
2018	49,244
	\$407,797

7. Party-in-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan's assets are invested primarily in shares of the Company common stock; therefore, all such investments represent party-in-interest investments. All professional fees for the audit and administration of the Plan are paid by the Company.

**Star Leasing Company
Employee Stock Ownership Plan**

Notes to Financial Statements

8. Income Tax Status

The Plan obtained its latest determination letter on November 22, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan had an application out for a new determination letter as of December 31, 2014. On February 11, 2015, the Plan obtained its latest determination letter in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
