Behr Retirement Savings Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following description of Behr Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible employees of MAHLE Behr USA, Inc. (Behr America, Inc. or the "Company") and certain of its subsidiaries. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 50 percent of the pretax annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code (the "Code"). The Plan has an automatic enrollment feature. If automatically enrolled, a participant's deferral is set at 4 percent of eligible compensation until changed by the participant and will begin with the first pay period after the 30-day opt-out period. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan provides for employer matching contributions. During 2013, the Plan required participants to be employed by the Company on the last day of the plan year and be enrolled in the Plan to be credited with any employer contributions. Employer matching contributions were calculated based on the participant's cumulative contribution as follows:

Cumulative Employee Contribution	Cumulative Employer Matching Contribution	
	Prior to January 1, 2014	Effective January 1, 2014
1%	1.5%	1%
2%	2.5%	2%
3%	2.9%	3%
4%	3.3%	3.5%
5%	3.7%	4%
6%	No additional match	4.5%
7% - 50%	No additional match	No additional match

Effective January 1, 2014, the plan document was amended to adopt provisions for safe harbor contributions, which provides for a new matching structure that includes a maximum matching contribution of 4.5 percent and the elimination of the requirement to be employed by the Company on the last day of the plan year in order for a participant to be credited with employer contributions. In addition, for employees hired on or after January 1, 2014, the safe harbor matching contributions will be subject to a two-year vesting schedule.

Behr Retirement Savings Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description (Continued)

The plan document was also amended to create a new employer contribution. This contribution is discretionary and only for participants who were also participants in the Behr America Cash Balance Pension Plan or the Behr Dayton Balance Pension Plan on December 31, 2013. In 2014, the Plan had \$1,005,960 in discretionary employer contributions. The contributions are subject to a two-year vesting schedule.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's non-safe harbor matching contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 20 percent after two years of service, 40 percent after three years of service, 66 percent after four years of service, and they become fully vested after five years of service. Vesting in the Company's safe harbor matching contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in contributions made by the Company 100 percent after two years of service with no prior vesting.

Benefit Payments - Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, subject to the provisions of the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their vested account balance, not to exceed \$50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a reasonable interest rate.

Note 1 - Plan Description (Continued)

Transfers - Participants in the Behr Dayton Retirement Savings Plan (a related plan) who become an employee of the Company may have their account balance transferred to the Plan. Participants in the Plan who become an employee of MAHLE Behr Dayton, LLC (Behr Dayton Thermal Products, LLC) may have their participant account balance transferred to the Behr Dayton Retirement Savings Plan. In 2014, \$28,002 was transferred from the Behr Dayton Retirement Savings Plan.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan document and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by T. Rowe Price Trust Company or its affiliates. T. Rowe Price Trust Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Subsequent Event - Subsequent to year end, on February 19, 2015, the Plan Sponsor announced the purchase of Delphi's thermal business. As a result, approximately 200 former Delphi employees have become participants in the Plan. The Plan will be amended to account for a participant's prior vesting service with Delphi.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation - The Plan prepares its financial statements on the accrual basis of accounting. Revenue is recorded when earned, expenses are recorded when the obligation is incurred, and investments are recognized at fair value.

Basis of Accounting - Accounting standards require the statement of net assets available for benefits present the fair value of the common collective trust fund as well as the adjustment of the fully benefit-responsive common collective trust fund from fair value to contract value.

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value, except for the common collective trust fund, which is stated at contract value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Note 2 - Summary of Significant Accounting Policies (Continued)

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - All administrative costs are paid by the Plan.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Pronouncements - In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. This update amends ASC 820, *Fair Value Measurements*. The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The disclosure requirements are effective for fiscal years beginning after December 15, 2016, for nonpublic entities, and are required to be provided retrospectively for all comparative periods presented. Management does not expect the adoption of this standard to have a significant impact on the Plan's financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 27, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

T. Rowe Price Trust Company (the "Custodian") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Custodian.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 4 - Fair Value Measurements (Continued)

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Fund - The common collective trust fund investment is valued at contract value. Contract value represents investments at cost, plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

The common collective trust fund primarily holds fixed-income securities and wrapper contracts. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer(s) is based on the replacement cost methodology, which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

(1) This class represents investments in an actively managed common collective trust fund that invests primarily in investment contracts, a variety of fixed-income instruments which may include corporate bonds, both U.S. and non-U.S. municipal securities, and wrapper contracts. There were no unfunded commitments or redemption restrictions related to the investment.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no transfers between levels in the hierarchy in 2014 and 2013.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.
