401(k) Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

Note 1: Description of the Plan

The following description of The National Mutual Insurance Company 401(k) Savings Plan (Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General

The Plan is a defined contribution plan sponsored by The National Mutual Insurance Company (Company) for the benefit of its employees who meet certain age and hour requirements. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Vanguard Fiduciary Trust Company (Vanguard) serves as Plan trustee.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to 75% of eligible compensation. Employee rollover and employee Roth contributions are also permitted. The Plan does allow participants to make catch-up elective deferral contributions in a taxable year if the participant is age 50 or older. No Company contributions were made during 2014 or 2013. Company profit-sharing contributions are discretionary as determined by the Company's Advisory Committee. Contributions are subject to certain limitations.

Participant Investment Account Options

Investment account options available include various funds from Vanguard. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

The Plan Document also includes an automatic deferral feature whereby a participant is treated as electing to defer a certain percentage of eligible compensation unless the participant made an affirmative election otherwise. The automatic deferral feature also provides for an annual increase in the percentage deferred and is ultimately capped at 75%.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, Plan earnings and forfeitures of terminated participants' nonvested accounts and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The National Mutual Insurance Company
401(k) Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested after three years of continuous service. The nonvested balance is forfeited upon termination of service. Forfeitures are used to reduce Company contributions. There have been no forfeitures used by the Company to make contributions during 2014 or 2013.

Payment of Benefits

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his account, a joint and survivor annuity or a combination of a lump-sum and installments. At December 31, 2014 and 2013, there were no Plan assets allocated to accounts of terminated or retired participants who have elected to withdraw from the Plan, but have not yet been paid.

Forfeited Accounts

At December 31, 2014 and 2013, there were no forfeited nonvested accounts.

Participant Loans

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$500. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are secured by the balance in the participant's account and are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

The National Mutual Insurance Company
401(k) Savings Plan
Notes to Financial Statements
December 31, 2014 and 2013

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. The Statements of Net Assets Available for Benefits presents the fair value of the investment in the collective trust, as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Quoted market prices, if available, are used to value investments. Mutual funds and money market funds are valued at the net asset value of shares held by the Plan at year-end.

The Plan's interest in the collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Plan Tax Status

The Plan operates under a nonstandardized adoption agreement in connection with a prototype profit sharing plan and trust/custodial document sponsored by Vanguard. This prototype plan document has been filed with the appropriate agency and has obtained an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the prototype constitutes a qualified plan under Section 401 of the Internal Revenue Code and that the related trust was tax-exempt as of that date. The Plan has not obtained or requested a determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

With a few exceptions, the Plan is not subject to U.S. federal, tax examinations for years before 2011.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Certification by Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified the following information included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits and related disclosures as of December 31, 2014 and 2013
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2014

The Plan's independent auditors did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Plan invests in certain funds of the Plan trustee. The Plan paid \$223 and \$165 of recordkeeping fees to Vanguard during 2014 and 2013. The Company provides certain administrative services at no cost to the Plan.

Certain Plan investments are shares of mutual funds managed by Vanguard, which is the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of investments.

Note 6: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Notes to Financial Statements

December 31, 2014 and 2013

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2014. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There were no Level 3 investments.

Note 7: Reconciliation of Financial Statements to Form 5500

Differences between the Annual Return/Report of Employee Benefit Plan (Form 5500) filed with the Internal Revenue Service and the accompanying financial statements include reporting the collective trust in Form 5500 at contract value and in the accompanying statements of net assets available for benefits at fair value and classification differences.

Note 8: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
