BRAKE MAX, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 1 – Description of Plan

The following description of the Brake Max, Inc. 401(K) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a qualified retirement plan covering all full-time employees of Brake Max, Inc. (the Company) and is participant-directed. The Plan was adopted on May 1, 1999, with an original effective date of May 1, 1999, and was amended and re-stated with an effective date of May 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. To be eligible for employer contributions, employees must have at least three consecutive months of service and be age 21 or older.

Contributions

Contributions to the Plan include salary reduction contributions authorized by participants and at the discretion of the Company, employer matching contributions, and additional employer nonelective contributions. Participants may elect to contribute to the Plan a portion of their annual pre-tax or after-tax wages, not to exceed \$17,500 for the years ended December 31, 2014 and 2013, respectively. The Plan allows for catch-up contributions subject to Internal Revenue Service (IRS) limitations, which was \$5,500 per year for both 2014 and 2013. Participants may also contribute amounts representing distributions from other qualified plans. Employer contributions may be determined annually by management. For both 2014 and 2013, the Company made matching contributions up to a maximum of 50 percent of employee salary deferral contributions up to 4 percent of participants' eligible compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's contributions plus earnings thereon. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are immediately vested in their contributions. Vesting in the Company's matching contribution is based on years of continuous service, following the table below. A participant is 100 percent vested after six years of credited service or upon and after attaining normal retirement age of 65, if the participant is employed by the Company on or after that date. If a participant incurs a severance from employment as a result of death or disability, the participant is 100 percent vested in the matching contribution.

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participant Loans

Participants may borrow from their vested funds a minimum of \$500 up to a maximum of the lesser of (i) \$50,000 or (ii) 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of prime (3.25% at December 31, 2014 and 2013) plus 1% at the time of the loan. Current interest rates on outstanding loans are 4.25%. Principal and interest is paid ratably through regular payroll deductions.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 1 – Description of Plan, continued

Payment of Benefits

On termination of service due to termination, death, disability, or retirement, a participant or beneficiary may elect to receive the vested interest of their account in the form of a single lump sum distribution.

Hardship Withdrawals

Withdrawal of a portion of a participant's account will be permitted due to an immediate and heavy financial need. After the withdrawal, the participant may not make elective deferrals or other contributions to the Plan for six months.

Forfeitures

Forfeitures of unvested Company matching contributions from terminated participant accounts can be used to offset current-year Company matching contributions and then to reduce nonelective contributions. During 2014 and 2013, forfeited non-vested accounts totaled \$11,217 and \$9,032, respectively. There were no non-vested forfeitures included in the total investment balances at December 31, 2014 and 2013, respectively. During 2014, forfeitures, including interest and dividends earned on those forfeitures, of \$11,499 were used to reduce employer contributions.

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of the Plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the Key Guaranteed Portfolio Fund, which is a fully benefit-responsive guaranteed investment contract (GIC).

The fair value of a GIC is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The contract value of the fully benefit-responsive investment contract represents contributions plus earnings, less participant withdrawals/transfers and premium tax, if applicable. Management has been advised that the fair value of the investment contract, prior to contract termination, equals the contract value.

Participant Loans Receivable

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recognized when assessed. Participant loans are considered to be in default and are reclassified as distributions based upon the terms of the plan document. Outstanding participant loans of terminated participants are reclassified as distributions if not repaid as specified in the plan document.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 2 – Summary of Significant Accounting Policies, continued

Payment of Benefits

Benefits are recorded when paid or when payable under the plan provisions.

Administrative Expenses

Management fees are paid out of participants' vested account balances, and investment trade fees reduce the vested balance in the account of the participant who initiated the trade.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 3 – Investments

The Plan's investments are held by Great-West Life & Annuity Insurance Company through a plan developed by its subsidiary Orchard Trust Company and are administered by Great-West Retirement Services. Collectively, these companies are referred to as Great-West, the custodian, or the third-party administrator.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options. The investments are recorded at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. The Plan's investments are certified by Great West for 2014 and 2013.

In accordance with generally accepted accounting principles, the statements of net assets available for benefits present an investment contract at fair value.

The Key Guaranteed Portfolio Fund is a general account product similar to a money market fund that serves as the guaranteed investment contract. The fund provides a guarantee of principal and a guaranteed quarterly interest rate. The entire general account assets of Great-West Life & Annuity Insurance Company back these guarantees. These assets are primarily investment-grade quality, fixed income bonds.

The average yield and actual average crediting yield for the Key Guaranteed Portfolio Fund at December 31 are as follows:

	<u>2014</u>	<u>2013</u>
Average yield	1.25%	1.26%
Actual average crediting yield	1.25%	1.26%

The average crediting rate is reset on a quarterly basis.

International equity - mutual funds	28,511

As part of a Department of Labor (DOL) limited-scope audit, the custodian, Great-West, has provided a certification letter for both the 2014 and 2013 years. The letter certifies that the statement of transactions and list of securities are complete and accurate. The plan administrator instructed the auditors not to perform any auditing procedures with respect to the information summarized in Note 3, Note 4, or the supplementary information contained in these financial statements.

Note 4 – Fair Value Measurements

In accordance with generally accepted accounting principles, the Plan classifies its investments into Level 1, Level 2, and Level 3 as defined below:

- Level 1 Quoted market prices in active markets for identical assets or liabilities
- Level 2 Significant other observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 Significant unobservable inputs reflecting the reporting entity's own assumptions

BRAKE MAX, INC. 401(K) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 5 – Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 6 – Related Party Transactions

The Plan's investments are held by Great-West Life & Annuity Insurance Company, which also serves as the third-party administrator; therefore, such transactions qualify as party-in-interest transactions. Management fees of \$4,024 and \$3,871 were charged to participants' accounts by Great-West Life & Annuity Insurance Company in 2014 and 2013, respectively.

Note 7 – Tax Status

Effective May 1, 2010, the Plan re-stated its non-standardized prototype plan. Great West received a determination letter dated March 31, 2008 in which the IRS stated that the form of the revised prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). In 2010 and 2009, prior to the re-statement of the Plan, the original non-standardized prototype plan, under which the Plan was operating, had been amended since adoption. The Company believes that the amended Plan was designed and operated in compliance with applicable requirements of the IRC.

Generally accepted accounting principles prescribe requirements for the recognition, measurement, classification, and disclosure in the financial statements of uncertain tax positions taken or expected to be taken by the Plan. The Company has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by the IRS and generally, the Plan's tax returns remain open for federal income tax examination for three years from the date of filing and four years for Arizona.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer profit-sharing contributions.

Note 9 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to that on the Form 5500 as of December 31:

The GIC balances on Form 5500 are \$307,392 and \$295,500 for the years ended December 31, 2014 and 2013, respectively.

Note 10 – Subsequent Events

In 2015, the Company contracted with a new third-party administrator and fund custodian to assist it in managing the plan. The Company considers this change an ordinary event within the normal scope of operations and one that will not have a material impact on plan operations or investment alternatives. The Company evaluates events or transactions that occur subsequent to year end for potential recognition or disclosure in the financial statements through the date on which the financial statements are available to be issued. The financial statements were approved by management and available to be issued on August 5, 2015.
