Gachina Landscape Management, Inc. 401(k) Plan
Notes to the Financial Statements
December 31, 2014 and 2013

Note 1: Description of Plan:

The following description of the Gachina Landscape Management, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General: The Plan is a defined contribution plan established under Section 401(k) of the Internal Revenue Code. The Plan covers all full-time employees of Gachina Landscape Management, Inc. ("the Company") who have completed one year of service and are age twenty-one (21) or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

2. Contributions: Participants may elect to defer a percentage of their compensation up to the maximum allowed by law. They may also make a special salary deferral election where they may defer up to 100% of any bonus received. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans or individual retirement accounts. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers 19 pooled separate accounts as investment options for participants.

   The Company may contribute a discretionary percentage of the first 5% of base compensation that a participant contributes to the Plan. For the year ended December 31, 2014, the Company made discretionary matching contributions of 15% of elective deferral contributions on the first 5% of the participants' eligible compensation.

3. Participant Accounts: The plan administrator maintains a separate account for each participant and each type of contribution. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

   Certain fees are charged to the funds and are offset against plan investment income and losses as presented on the statement of changes in net assets available for benefits. Participants should refer to the prospectuses of these funds for details on the various types and amounts of investment fees charged to the Plan and their individual accounts.

Note 1: Description of Plan, continued:

4. Vesting: Plan participants are immediately 100% vested in salary reduction contributions, rollover contributions and actual earnings or losses thereon. Employer contributions are vested based on years of service according to the following schedule:

Less than 1 year	0%
1 year	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

5. Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account, are repaid by payroll deductions in equal installments, and bear interest at rates determined when the loan is disbursed. Interest rates on loans outstanding during 2014 and 2013 range between 4.25% - 7.30%.

6. Payment of Benefits: On termination of service, or upon death, disability or retirement, a participant can elect to receive either a lump-sum or partial amount equal to the value of the participant's vested interest in his or her account or partial distribution. The Plan allows for automatic distribution for participant accounts that have a vested balance of $1,000 or less on date of separation.

7. Forfeitures: Forfeitures are created when participants terminate employment before they become 100% vested in their account balance. Forfeitures are used to offset employer contributions and/or plan expenses.

8. Administrative Expenses: The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Certain administrative functions are performed by employees of the Company. No such employee receives compensation from the Plan.

Note 2: Summary of Significant Accounting Policies:

Basis of Accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Investment income (loss), derived from underlying pooled account fund investments, is comprised of interest, dividends (recorded on the ex-dividend date), and realized and unrealized gains and losses. The investment gain (loss) is reported net of investment charges.

Notes Receivable from Participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits:

Benefits are recorded when paid.

Subsequent Events:

The Plan has evaluated subsequent events through July 31, 2015, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements:

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled separate accounts: Valued at contract value, which approximates fair value at all times during the life of the contract because participants may withdraw pooled separate account assets at contract value without restrictions, and the pooled separate accounts are marked-to-market on a daily basis. The marked-to-market valuation is based on closing prices, on nationally recognized stock exchanges or over-the-counter markets where no formal exchange exists, on that date to the extent possible. Where the investment underlying the pooled separate account is in shares of a mutual fund or portfolio thereof, it is computed by using the net asset value per share provided by that mutual fund or portfolio thereof on that date. Liquidation of the entire contract may result in liquidation or surrender charge, which would result in an adjustment to the contract value.

Note 3: Fair Value Measurements, continued:

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and December 31, 2013:

Note 4: Investments and Information Certified by the Plan's Custodian:

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of the investments under contract reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the related net appreciation (depreciation) in fair value of investments reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014, and the supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2014.

Note 4: Investments and Information Certified by the Plan's Custodian, continued:

The following table presents investments under contract. Investments that represent 5% or more of the Plan's net assets in either year are separately identified.

Note 5: Related Party Transactions:

Plan investments are maintained in pooled separate account funds managed by Minnesota Life Insurance Company. This company acts as the investment custodian and provides administrative services to the Plan. Therefore, these transactions qualify as party-in-interest transactions.

The Company provides to the Plan certain accounting and administrative services for which no fees are charged and absorbs certain plan expenses.

Note 6: Income Tax Status:

The Plan has adopted a prototype plan sponsored by Minnesota Life Insurance Company. The prototype plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter, however, the Plan administrator and the Plan's management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 6: Income Tax Status, continued:

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examination for years prior to 2011.

Note 7: Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

Note 8: Risks and Uncertainties:

The Plan invests in various pooled separate account funds. These investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9: Corrective Distributions:

Corrective distributions for the 2014 and 2013 plan years of $22,540 and $7,958, respectively, were made less than 3 months after the end of the plan year and are reflected as a reduction of contributions for the years ended December 31, 2014 and 2013 and as excess contributions payable at December 31, 2014 and 2013.

Note 10: Reconciliation of Financial Statements to Schedule H of Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 and 2013 to Schedule H of Form 5500:
