Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of the Plan

The following description of the Kansas City Royals Baseball Corporation 401(k) Plan (the Plan) is provided for general information purposes only. Reference should be made to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan that was adopted by the Kansas City Royals Baseball Corporation (the Company or Plan Administrator) effective June 1, 2001. The Plan is administered by the Company.

(b) Eligibility

Employees of the Company are eligible for participation in the Plan after completing one year of continuous service, attaining the age of 21, and completing 1,000 hours of service in the Plan year. Employees that are nonresident aliens or part of a collective bargaining agreement are not eligible for participation in the Plan.

(c) Contributions

The Plan establishes a qualified cash or deferred compensation arrangement permitting eligible employees to authorize the Company to make tax-deferred salary reduction contributions on their behalf up to 50% of their annual earnings, subject to certain limitations under the Internal Revenue Code. The Company makes a matching contribution of 50% of each participant's contributions, up to a maximum of 6% of each participant's annual compensation.

Contributions made by the Company and participating employees are not required to be included in the employees' taxable income until the year of withdrawal from the Plan.

(d) Vesting

Upon retirement or termination of employment, Plan participants are entitled to receive the full value of their contributions and earnings thereon. Vesting in Company contributions occurs as follows:

<u>Years of service</u>	<u>Percentage vested</u>
1	20%
2	40
3	60
4	80
5	100

Each participant is 100% vested upon disability, death, or attainment of age 65 while employed by the Company.

A participant's account may be invested 100% in any fund or may be allocated among the funds. (h) Hardship Withdrawals

A participant may at any time withdraw any portion of his or her employee account upon showing financial hardship, as permitted by the Internal Revenue Code.

(i) Forfeitures

Forfeited amounts may first be applied against the administrative fees paid to Principal by the Company, with any remaining forfeitures used to reduce future Company contributions. Forfeitures totaled approximately \$3,968 and \$5,440 in 2014 and 2013, respectively. During 2014 and 2013, accumulated forfeitures of approximately \$3,968 and \$5,440, respectively, were used to offset employer contributions.

In the event of termination, net assets shall be distributed to participants in accordance with their account balances.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting. Benefits are recorded when paid.

(b) Investment Valuation

The investments have been reported to the Plan by the Trustee at fair value, determined principally based on quoted market prices, using similar assets in an active market, or using the underlying asset's net asset value in an actively traded market. Net appreciation (depreciation) in fair value of

investments includes both realized and unrealized gains and losses on securities held by the funds. Purchases and sales of investments are recorded on a trade-date basis.

(c) Administration Expenses

Substantially all costs and expenses incurred in administering the Plan are paid by the Company.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

(3) Investments

Plan investments that represent 5% or more of the Plan's assets available for benefits at December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
Nonproprietary mutual funds:		
American Century Mid Cap Value Advisor Fund	\$ 1,166,877	903,394
Vanguard Primecap Fund	3,080,587	2,478,932

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	<u>2014</u>	<u>2013</u>
Nonproprietary mutual funds	\$ 761,626	1,611,766

**KANSAS CITY ROYALS BASEBALL
CORPORATION 401(k) PLAN**

Notes to Financial Statements

December 31, 2014 and 2013

(4) Federal Income Taxes

The Plan has received a favorable determination letter from the Internal Revenue Service, dated October 20, 2009, indicating that it is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from tax under Section 501(a) of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

The Plan Administrator is not aware of any activity or transactions that may adversely affect the qualified status of the Plan.

(5) Information Certified by the Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified to the completeness and accuracy of all investments reflected in the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013, the schedule H, Line 4i – schedule of assets held for investment purposes as of December 31, 2014, note 3 and note 7, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2014 and 2013. As permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment information certified by the Trustee as complete and accurate, except for comparing such information certified by the Trustee to information included in the Plan's financial statements.

(6) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the statement of net assets available for benefits.

CORPORATION 401(k) PLAN**

Notes to Financial Statements

December 31, 2014 and 2013

(7) Fair Value Measurements

Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements*, establishes a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds – The fair value of the mutual funds is based on quoted market prices from national securities exchanges.

Pooled Separate Accounts – Valued using similar assets in an active market or using the underlying asset's net asset value in an actively traded market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
