Tiff's Treats 401(k) Plan

Notes to Financial Statements

As of December 31, 2014 and 2013
and for the year ended December 31, 2014

1. Description of the Plan

Tiff's Treats 401(k) Plan (the "Plan") is a defined contribution plan covering substantially all eligible employees of Tiff's Treats, LLC (the "Company" or "Plan Sponsor"). The Plan became effective January 1, 2012. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All Plan assets are held by State Street Bank and Trust Company. Complete information regarding the Plan is included in the Plan Agreement. Significant Plan provisions are summarized below.

Eligibility

Employees of the Company are eligible to participate in the Plan upon the attainment of 6 months of service, as defined in the Plan Agreement. The Plan will automatically enroll participants at a contribution rate of 3% unless the employee elects a different percentage or elects not to participate. The automatic deferral percentage increases by 1% at the beginning of each plan year, up to a maximum of 10%.

Contributions

Participants are allowed to make pre-tax elective deferrals or Roth contributions in an amount equal to not less than 1% or more than 90% of their Plan compensation, as defined in the Plan Agreement, for the contribution period. Participants who have attained age 50 are eligible to make catch up contributions. Participants may also contribute amounts representing rollovers from other retirement plans.

The Company makes contributions to the Plan of amounts determined and authorized by the Company's Board of Directors up to the maximum amounts permitted by the Internal Revenue Service ("IRS"). The Company's matching contributions are discretionary and are based on each participant's contribution. None were made in 2014. The Company may also make discretionary non-elective contributions. None were made in 2014.

Participant Accounts

Participants direct the investment of their accounts among various investment options offered by the Plan. Participants may change their investment options daily.

1. Description of the Plan (continued)

Each participant's account is credited with (a) participant's contributions, (b) an allocation of employer contributions and (c) an allocation of investment earnings, and is charged with (a) withdrawals, (b) an allocation of investment losses and (c) certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions, including rollover contributions, plus actual earnings thereon. Vesting in the Company's discretionary matching and discretionary non-elective contributions plus actual earnings thereon is based on years of credited service, as defined. A participant is 100% vested upon death, disability, or retirement. Company matching and discretionary contributions are subject to the following vesting schedule:

Years of Service	Vested Benefits
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or greater	100%

Forfeitures

Non-vested balances of participants' accounts may be subject to forfeiture upon termination of their employment with the Company. A forfeiture occurs in the Plan year in which the participant either receives a distribution of their vested account or has a five-year period of severance or break-in-service, as defined by the Plan. Forfeitures are retained in the Plan and first used to pay Plan administrative expenses with any remaining amounts used to reduce future employer contributions. There were no forfeitures for the year ended December 31, 2014 and no forfeited unvested account balance at December 31, 2014 or 2013.

1. Description of the Plan (continued)

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $500 and up to a maximum of i) $50,000 reduced by the highest outstanding note receivable balance over the prior twelve months less the outstanding balance on the date a new note receivable is made or ii) 50% of their vested account balance, whichever is less. Notes receivable from participants are secured by the vested balance in the participant's account and bear interest at the prime rate plus 2%. Participants may have up to two notes receivable outstanding at a time. Principal and interest are paid ratably through payroll deductions over a period generally not to exceed five years, unless the funds are used for purchase of a principal residence in which repayment terms may be extended.

Payment of Benefits

Upon termination of service due to death, disability, normal retirement, early retirement after reaching age 59 ½, or termination of employment, a participant is entitled to receive an amount equal to the vested interest in his or her account, payable in annuity or lump-sum form. In general, if a participant's vested account balance, as defined by the Plan, is greater than $5,000 and employment is terminated other than due to retirement or death, the account may not be distributed before normal retirement without the participant's consent. Participants' account balances that are less than $5,000, but in excess of $1,000 (the in-voluntary cash-out amount) will be paid as a direct rollover to an individual retirement account. However, regardless of participant election as to the payment, the Plan may, upon termination of service of a participant for any reason, pay the benefits owed in a lump sum if the account balance is less than the involuntary cash-out amount. Distributions are subject to the applicable provisions of the Plan Agreement.

In-service withdrawals of all or a portion of a participant's vested account balance may be withdrawn by a participant after reaching age 59 ½. In-service withdrawals of all or a portion of a participant's rollover account balance may be withdrawn at any time.

Withdrawals from the Plan may also be made upon circumstances of financial hardship, in accordance with the provisions specified in the Plan. Hardship withdrawals are strictly regulated by the IRS and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

1. Description of the Plan (continued)

Distributions from the Plan will normally be subject to income taxes and in certain circumstances may also be subject to IRS penalties, unless the distribution is transferred to another qualified plan or individual retirement account.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the financial statements and supplemental schedule.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires Plan management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and schedule. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the investment advisers, trustee, and insurance company. See Note 3 for discussion of fair value measurements.

2. Significant Accounting Policies (continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded by the Plan when actual payment is made.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan Sponsor and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payment transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification ("ASC") 820. ASU 2015-07 is effective for the Plan retrospectively for the year ending December 31, 2016,

2. Significant Accounting Policies (continued)

with early adoption permitted. Plan Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Plans (Topic 965)*, in three different parts as follows:

> *Part I: Fully Benefit-Responsive Investment Contracts*, requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and eliminates the previous requirement to present these investments at fair value with an adjustment to contract value for purposes of determining total net assets available for benefits.
>
> *Part II: Plan Investment Disclosures*, simplifies the required investment disclosures under Topics 820, 960, 962 and 965 by eliminating the requirements to disclose the following in the notes to the Plan's financial statements: (1) individual investments that represent 5% or more of net assets available for benefits; (2) the net appreciation or depreciation for investments by general type; and (3) the classification of investments on the basis of their nature, characteristics, and risks. Instead, net appreciation or depreciation will only be required to be presented in the aggregate and investments will only be required to be grouped by general type. Additionally, if an investment is measured using the NAV per share practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor ("DOL") Form 5500 as a direct filing entity, disclosure of that investment strategy will no longer be required.
>
> *Part III: Measurement Date Practical Expedient*, provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

ASU 2015-12, and all related parts, is effective for the Plan retrospectively for fiscal years beginning after December 15, 2015, with early adoption permitted. Plan Management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

2. Significant Accounting Policies (continued)

Subsequent Events

The Company evaluated events occurring between the end of the most recent Plan year and August 12, 2015, the date the financial statements and supplemental schedule were available to be issued. No events have occurred through that date that would impact the financial statements.

3. Fair Value Measurements

The guidance for fair value measurement establishes the authoritative definition of fair value, sets out a framework for measuring fair value, and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Plan uses a three-tier fair value hierarchy based upon observable and non-observable inputs as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs developed using the Plan's estimates and assumptions which reflect those that market participants would use.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

3. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common collective trust funds (SSGA S&P Mid Cap Index Fund, SSGA Russell Small Cap Index Fund, SSGA S&P 500 Index Fund, SSGA REIT Non Lending Series Index Fund, SSGA International Index Series VII Fund, SSGA US Government Money Market Fund)*: The State Street funds are common/collective trust funds for which State Street Bank and Trust Company acts as custodian. The net asset value ("NAV") is based on the market value of its underlying investments. The NAV is not a publicly-quoted price in an active market. The money market fund is valued as a cash equivalent, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

3. Fair Value Measurements (continued)

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no significant transfers in or out of Levels 1, 2, or 3.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

	December 31, 2014

3. Fair Value Measurements (continued)

Fair Value of Investments in Entities that Use Net Asset Value

The objective of the Index Fund common/collective trusts are to approximate the returns obtained by these indexes. Redemption is generally permitted daily. Participant-directed redemptions have no restrictions; however, the Plan has potential limitations on redemption which can delay complete redemption for a period of 30 days. There are no unfunded commitments and no changes in the valuation methodology used at December 31, 2014 or 2013.

4. Investments

The following presents individual investments, at fair value, that represent 5% or more of the Plan's net assets at December 31, 2014 and 2013:

	December 31, 2014	2013
T Rowe Price Retirement 2040 Fund	**$ 16,667**	$ 9,118
T Rowe Price Retirement 2045 Fund	**18,033**	10,424
T Rowe Price Retirement 2050 Fund	**31,521**	11,683

State Street S&P 500 Index Fund	**40,774**	26,340

* Investment is less than 5%.

4. Investments (continued)

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in fair value as follows:

	Year ended December 31, 2014
Mutual funds	**$ (1,662)**
Common/collective trust funds	**9,321**
Total	**$ 7,659**

5. Information Certified by the Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Total investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2014.

6. Related-Party and Party-In-Interest Transactions

Plan assets include investments in funds managed by State Street Bank and Trust Company and notes receivable from participants. State Street Bank and Trust Company serves as the Plan's trustee and as such, these transactions qualify as party-in-interest transactions under ERISA. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The amounts received through revenue sharing are not significant. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the termination of the Plan, the individual accounts of all members shall become fully vested. After deducting all charges and expenses, the balances of all individual accounts will be adjusted and the remaining assets distributed.

8. Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the IRS dated March 31, 2008, stating that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is tax-exempt. In accordance with Revenue Procedures 2013-6 and 2011-49, the Plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. The Plan has also adopted all required amendments. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, and for the year ended December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, the Plan is not currently under audit with respect to any tax periods in progress.
