NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the Ohio Valley Banc Corp. Profit Sharing Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, established in 1957, was restated August 1, 2011 to be effective January 1, 2011 and includes all previous amendments. The Plan was last amended on July 22, 2014 effective October 1, 2014, to amend the Plan to allow enrollment elections and participants to make changes to contribution elections as of the first payroll period coinciding with or next following the first day of January, March, July or October and to amend the definition of spouse. The Plan is a defined contribution plan covering substantially all employees of the Ohio Valley Banc Corp. (the Plan Sponsor) who have one year of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, the Plan Sponsor contributes to the Plan a discretionary amount from its current profits as determined by the Plan Sponsor's board of directors. Plan Sponsor contributions are allocated to each eligible participant based on compensation. To be eligible to receive a Plan Sponsor contribution, a participant must work at least 1,000 hours during the year and be employed on the last day of the plan year. The Plan allows participants to contribute up to 100% of compensation, up to the extent permitted by law, and allows participants who attained age 50 by the end of the Plan year to make catch-up contributions up to the limits prescribed by the law. The Plan Sponsor matches the participant's contributions with a contribution equal to 25% of the participant's contributions up to the first 6% of the participant's compensation, with such matching amount not to exceed 1.5% of the participant's compensation.

Participant Accounts: Each participant account is credited with the participants' contribution and with an allocation of (a) Plan Sponsor contributions, (b) Plan earnings, and (c) forfeitures of terminated participants' nonvested accounts. Plan Sponsor contributions and forfeitures are allocated based on contributions made by participants and compensation of participants. Allocations of Plan earnings are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options: Each participant directs the investment of their account to any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance on retirement, death or disability.

Vesting: Each participant is 100% vested in all employee contributions and related earnings and will become vested in employer contributions, related earnings and forfeitures of nonvested accounts in accordance with the following schedule:

Years of Service	Vested Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 and over	100%

Payment of Benefits: On termination of service, retirement, death or disability, a participant's vested account balance shall be distributed to the participant as a lump-sum payment. If the participant's vested account balance is less than \$5,000, the Plan Administrator may elect to distribute the account without the participant's consent. Mandatory distributions greater than \$1,000 are paid to an individual retirement account on behalf of the participant, if not otherwise directed by the participant.

**THE OHIO VALLEY BANC CORP.
PROFIT SHARING RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

Hardship distributions are permitted for an immediate and heavy financial need as defined in the Plan document.

Notes Receivable from Participants: The Plan provides that participants can borrow from the Plan. These loans are secured by the balance in the participant's account and bear interest commensurate with prevailing rates. These loans are limited to the lesser of \$50,000 or 50% of the participant's vested account balance. Loan principal and interest payments are made in accordance with the note's amortization schedule.

Note 2. Significant Accounting Policies

Basis of Accounting: The financial statements of the Plan are prepared under the accrual method of accounting, and the general practices within the employee benefit plan industry.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions affecting certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for certain investment options in a combination of mutual funds, money market funds, and other investment securities. The underlying investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances. The Plan does not require collateral to secure its investments.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Mutual funds are stated at fair value as determined by quoted market prices, which represents the net asset value of shares held by the Plan at year end. The Plan's interest in the collective trust is based on the fair value of the collective trust's underlying investments as based on information reported by the Plan custodian using the audited financial statements of the collective trust at year end. Money market fund investments are stated at net realizable value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Accounting principles generally accepted in the United States of America require that investment contracts held by defined contribution employee benefit plans are to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. These professional standards require that the statement of net assets available for benefits present the fair value of investment contracts as well as an adjustment of the fully benefit responsive investment contracts from fair value to contract value. During the years ended December 31, 2014 and 2013, contract value approximated fair value and an adjustment from fair value to contract value was not required for fully benefit responsive contracts. The statements of changes in net assets available for benefits is prepared on a contract value basis.

Notes receivable from participants: Loans to participants are reported as notes receivable from participants at the unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payments of Benefits: Benefits are recorded when paid.

PROFIT SHARING RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

Significant New Accounting Pronouncement: On May 1, 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2015-07 *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. The amendments of ASU 2015-07 remove the requirements to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments of ASU 2015-07 are effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. A reporting entity should apply the amendments retrospectively to all periods presented. Early adoption is permitted. Management is currently evaluating the impact of this ASU on the financial reporting of the Plan.

Subsequent Events: The Plan has evaluated subsequent events through July 30, 2015, the date that the financial statements were available to be issued.

Note 3. Plan Termination

Although it has not expressed intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and its related regulations. In the event of plan termination, participants will become 100% vested in their accounts.

Note 4. Assets Certified

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the years then ended, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets. Investments that represent 5% or more of the Plan's net assets are separately identified.

NOTES TO FINANCIAL STATEMENTS

Reliance Trust Company also certified to the completeness and accuracy of dividend and interest income of \$752,273 and \$433,370 and net appreciation of investments of \$136,989 and \$1,953,627 for the years ended December 31, 2014 and 2013, respectively.

Asset information not certified by Reliance Trust Company was participant loans of \$63,966 and \$75,504 as of December 31, 2014 and 2013, and the related interest income of \$2,233 and \$2,499, respectively.

During the years ended December 31, 2014 and 2013, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

	2014	2013
Mutual Funds	\$ 89,818	\$ 1,911,549
Guaranteed Contracts	47,171	42,078
	<u>\$ 136,989</u>	<u>\$ 1,953,627</u>

Note 5. Fair Value Measurements

ASC Topic 820, "*Fair Value Measurements and Disclosure*" (ASC 820) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**THE OHIO VALLEY BANC CORP.
PROFIT SHARING RETIREMENT PLAN**

NOTES TO FINANCIAL STATEMENTS

Following is a description of the valuation methodologies used for investments measured at fair value.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Guaranteed contract: NAV is calculated based on the assets in the account using unitization valuation processes.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013.

NOTES TO FINANCIAL STATEMENTS

Note 6. Investment in Stable Asset and Stable Value Funds

At December 31, 2014 and 2013, the Plan includes as an investment option participation in The Standard Stable Asset Fund A, a guaranteed contract. The Fund invests the deposits of plan participants as part of the general account assets of Standard Insurance Company. The general account includes its fixed income securities portfolio and commercial mortgage loan portfolio. The resulting Stable Asset Fund provides participants with a guaranteed return of principal, along with attractive crediting rates and 100 percent liquidity. A participant's return is determined by a declared interest rate, which is accrued daily and compounded quarterly. The interest rate is applied to the entire fund.

As described in Note 2, because these Plan assets are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at fair value but such amount cannot be less than principal and earnings previously credited. During the years ended December 31, 2014 and 2013, contract value approximated fair value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. If an event occurs that may impair the ability of the contract issuer to perform in accordance with the contract terms, fair value may be less than contract value. As of December 31, 2014 and 2013, the Standard Stable Asset Fund A had an average yield of 2.35% and 2.53%, respectively, and a crediting interest rate of 2.35% and 2.53%, respectively.

Note 7. Party-In-Interest Transactions

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. During the years ended December 31, 2014 and 2013, transactions with parties-in-interest primarily included administrative expenses related to invested assets, which are recorded against net asset values of each investment fund. Shares of registered investment companies owned by the Plan are issued or sponsored by parties considered to be a party-in-interest to the Plan. Expenses associated with the administration and maintenance of participant accounts and audit services are paid by the Plan Sponsor on behalf of the Plan. Additionally, certain administrative functions are performed by officers or employees of the Plan Sponsor at no cost to the Plan.

Note 8. Tax Status

The Internal Revenue Service has determined and informed the Plan Sponsor by letter dated December 14, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since this date; however, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2011.
