PLASTIC PACKAGING, INC. 401(K) PLAN

Notes to Financial Statements

October 31, 2014 and 2013

(1) Plan Description

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all employees of Plastic Packaging, Inc. who have completed 90 days of service (as determined in the Plan document) and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company's 401(k) Committee is responsible for the oversight of the Plan. The Company's investment committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

(b) Contributions

Upon meeting the eligibility requirements, participants will automatically have four percent of compensation deferred unless otherwise elected. In addition, the Company may allocate discretionary matching contributions, as determined and authorized by the Board of Directors, to each eligible participant. To be eligible for any matching contributions, participants must be employed at the end of the Plan year and have completed a year of service within the Plan year. Participants who retire, die or become disabled are considered to be employed at the end of the Plan year and are considered to have completed a year of service within the Plan year. Total contributions to the Plan cannot exceed the maximum amount deductible under section 404(a)(3) of the Internal Revenue Code of 1986, as amended.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of Company contributions and Plan earnings. The allocation of Plan earnings is based on the participants' account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Notes receivable from participants

Participants are permitted by the Plan to borrow from their vested account balance up to the lesser of 50% or \$50,000. The minimum amount which may be borrowed is \$1,000, and only one loan at a time is permitted. Loan transactions are secured by the balance in the participant's account and bear interest at a reasonable rate of return. Principal and interest are paid ratably through payroll deductions.

PLASTIC PACKAGING, INC. 401(K) PLAN

Notes to Financial Statements, Continued

(1) Plan Description, Continued

(e) Vesting

Participants are immediately vested in their voluntary contributions and earnings thereon. A participant is 100 percent vested in the remainder of their account (i.e., employer contributions) after six years of credited service according to the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	20
3	40
4	60
5	80
6	100

(f) Payment of Benefits

Upon separation of service, due to termination of employment, death, disability or retirement, a participant may elect to receive his or her vested account balance. Distributions are subject to the applicable provisions of the Plan agreement. In addition, the Plan allows hardship distributions and distributions to eligible participants that have attained age 59 1/2, as defined by the Plan.

(g) Forfeited Nonvested Accounts

Forfeitures of nonvested amounts may first be used to pay Plan expenses. Any remaining forfeitures are used to offset future employer contributions. The balance of forfeitures available for use is \$44 and \$173 for the years ended October 31, 2014 and 2013, respectively.

(h) Administrative Expenses

Administrative expenses of the Plan are paid by both the Plan and the Company.

(i) Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA upon giving written notice to all parties concerned.

Notes to Financial Statements, Continued

(1) Plan Description, Continued

(j) Investment Options

Upon enrollment in the Plan, a participant may direct contributions into several investment options.

(2) Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan.

(a) Basis of Accounting

The accounting records with respect to investment transactions were maintained by Great-West Life & Annuity Insurance Company ("Great-West"). The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under terms of the Plan. The Plan invests in investment contracts through a collective trust. The fair value and the contract value of the investment in the collective trust are not materially different.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent liabilities at the date of the financial statements and the reported additions to and deductions from Plan assets during the periods reported. Actual results could differ from these estimates.

PLASTIC PACKAGING, INC. 401(K) PLAN

Notes to Financial Statements, Continued

(2) Summary of Significant Accounting Policies, Continued

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefit claims are recorded as expense when they have been approved for payment and paid by the Plan. There were no benefits payable as of October 31, 2014 and 2013.

(e) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the loan to be in default, the loan balance is reduced and a benefit payment is recorded.

(3) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

(3) Fair Value Measurements, Continued

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2014 and 2013.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Guaranteed investment contract: Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issue (see note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the value, fair value is determined annually for financial statement methodology, the Investment Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

(4) Investment Information

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Great-West Life & Annuity Insurance Company ("Great-West"), except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

The following table presents the fair value of the investments in this Plan that was certified by the custodian. Single investments representing more than 5% of the Plan's net assets as of October 31, 2014 and 2013, are separately identified.

(5) Investment Contract with Insurance Company

In September 2011, the Plan entered into a benefit-responsive investment contract with Great-West. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

Average yields:	<u>2014</u>	<u>2013</u>
Based on actual earnings	1.26%	1.30%
Based on interest rate credited to participants	1.26%	1.30%

(6) Related Party Transactions

Plan assets included investments in funds managed by Great-West. Great-West is the Plan's custodian and, as such, transactions with the custodian qualify as party-in-interest transactions under ERISA. Personnel and facilities of the Company have been used to perform administrative functions for the Plan at no charge to the Plan.

(7) Income Tax Status

The Plan adopted a volume submitter plan sponsored by Acuff & Associates, Inc. The volume submitter plan has received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near future and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for plan benefits.

(9) Subsequent Events

The Company has evaluated subsequent events through July 10, 2015, the date which the financial statements were available to be issued.
