Notes to Financial Statements

December 31, 2014 and 2013

Plan Description

The following description of the Lane Aviation Corporation (the Company) Profit Sharing 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. At the option of the Company, a discretionary matching contribution equal to a uniform percentage of each participant's contribution to the Plan may be made. During 2014 and 2013, the Company made matching contributions of 25% of the first 10% of employee deferrals. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on continuous years of service according to the following vesting schedule:

Years of Service	Vesting Percentage
Less than 3	0%
3 or more	100%

Plan Description (continued)

Investment Options

A participant may direct Company and participant contributions in any of the various investment options offered by the Plan. Participants may change their investment options at any time. The Plan also permits any participant to separately direct the investing activity of their assets in the Plan.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000, or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1% when the loan is executed. Principal and interest are paid ratably through payroll deductions. Loan repayment terms are not to exceed five years, unless the loan will be used by the participant to acquire the participant's principal residence.

Payment of Benefits

Upon termination of service due to separation of service, disability or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, or in annual installments. For termination of service due to death of a participant, the beneficiary will receive a lump-sum distribution that will be equal to the participant's account. The participant's account will become fully vested upon the death of the participant.

Forfeited Accounts

At December 31, 2014 and 2013, there were no forfeited non-vested accounts. These accounts may be used to pay administrative expenses of the plan or used to reduce any employer contributions. No forfeited accounts were used in 2014 or 2013.

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan agreement.

Fair Value Measurements

GAAP established a fair value hierarchy that prioritizes the inputs to measure the fair value of the assets or liabilities being measured. Fair value is defined as the exchange value that would be received on the measurement date to sell an asset or to value the amount paid to transfer a liability in the principal or most advantageous market available to the entity in an orderly transaction between market participants. The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs are unadjusted quoted market prices in active markets for identical assets or liabilities that the entity has the ability to access at the measurement date. Level 1 inputs provide the most reliable measure of fair value as of the measurement date.

Level 2 - Inputs are based on significant observable inputs, including unadjusted quoted market prices for similar assets and liabilities in active markets, unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active, or inputs other than quoted prices that are observable for the asset or liability.

Level 3 - Level 3 are significant unobservable inputs for the asset or liability.

The level of the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 or 2013.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year-end.

Common Collective Trusts: Valued at fair value, by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Investments at Fair Value as of December 31, 2014:

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event of Plan termination, the participants' accounts will become fully vested.

Tax Status

The Company has adopted a non-standardized prototype plan which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008. The opinion stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

December 31, 2014 and 2013

Transactions with Party-in-Interest

Certain Plan investments are shares of mutual funds managed by State Street Bank and Trust Company (State Street). State Street is the trustee and, therefore, these transactions qualify as party-in-interest. ADP is the record keeper of the Plan and Everhart Financial Group, Inc. is the investment advisor to the Plan and therefore, these transactions qualify as party-in-interest. Administrative expenses totaled \$30,023 and \$30,918 during 2014 and 2013, respectively.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying 2014 statement of net assets available for benefits.

Subsequent Events

The Plan has evaluated subsequent events through the date of the Independent Auditor's Report, the date the financial statements were available to be issued.
