1. DESCRIPTION OF PLAN:

The following description of the Klosterman Baking Company Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

The Klosterman Baking Company (the "Company") Profit Sharing Plan was first adopted on July 1, 1970. The Klosterman Baking Company as well as KBI, Inc., KBO, Inc., Klosterman Baking Cincinnati, Inc. and Hearth Grains Bakery, LLC, are participating employers in the Plan. The restated defined contribution plan covers substantially all employees who are not participants in union sponsored plans of the above named companies. The Plan was amended effective March 1, 2003 as a prototype plan sponsored by Fidelity Management & Research Company (FMRC). In compliance with current tax laws, the Plan has been restated as of February 22, 2010. The Plan committee of the Company is the Plan administrator.

General

The Plan is a defined contribution plan covering all eligible employees of the Company who have attained age 18 and have one month of service. Participants are eligible to receive employer contributions when they attain age 18 and have one year of service in which they have completed at least 1,000 hours of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The contributions of the Company to the Plan are determined by resolution of the Board of Directors. For the 401(k) account, the Company may set a uniform minimum or maximum contribution for any pay period or for any year. For the years ended October 31, 2014 and 2013, the Company set an amount based on participants' years of service with the Company as follows:

One year but less than five years	50% of first \$1,000 contributed by the participant
Five years but less than ten years	60% of first \$1,000 contributed by the participant
More than ten years	70% of first \$1,000 contributed by the participant

Participants may contribute to their 401(k) account based on a minimum or maximum contribution uniformly established by the Sponsor for any pay period or any year. Participants may also elect to contribute unused flex credits, awarded quarterly, to the 401(k) Plan. Flex credit contributions are comprised of 50% employee contributions and 50% employer contributions.

Participant accounts

Each participant's account is credited with the participant's contributions, related matching contributions, if any, and an allocation of Plan earnings. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their employee pre-tax contributions and rollover contributions, plus actual earnings thereon.

Vesting in the employer match, flex match, and employer discretionary profit sharing portion of a participant's account is based on years of continuous service. A participant is 100% vested after six consecutive years of service, as follows:

<u>Years of Service</u>	<u>Vesting</u>
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures of non-vested balances of withdrawn participants are used to reduce employer contributions.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

In addition to normal retirement benefits commencing at the age of 60, the Plan provides for full benefits upon death or disability. If an employee is terminated for any other reason, benefits will be based upon the vested percentage of the participant's account. A participant eligible for benefits may elect to receive payments: (a) in a lump sum, (b) in annual installments over a specified number of years not in excess of fifteen, or (c) by the purchase of a single life annuity contract or a qualified joint and survivor annuity.

Forfeited accounts

The balance in the forfeiture account available to offset future employer contributions was \$25,947 and \$1,519 at October 31, 2014 and 2013, respectively. Employer contributions were offset by \$24,126 and \$40,276 during the years ended October 31, 2014 and 2013, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following is a description of the significant accounting policies of the Plan.

Basis of accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a collective trust. As required, the statement of net assets available for benefits presents the fair value of the investment in the collective trust as well as the adjustment of the investment in the collective trust from fair value to contract value relating to the investment contract. The statements of changes in net assets

available for benefits are prepared on a contract value basis.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See further discussion of fair value in Note 4.

Purchases and sales of securities are recorded on a trade-date basis on a specific item basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefit payments to participants are recorded upon distribution.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of October 31, 2014 or 2013. If a participant ceases to make loan repayments the plan administrator deems the participant loan to be in default. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Subsequent events

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through August 13, 2015, the date on which the financial statements were available to be issued.

3. INVESTMENTS:

Participants direct the investment of their contributions into various investment options offered by the Plan. Company contributions are allocated in proportion to participant directed investments. The Plan's investments that represented 5% or more of the Plan's net assets available for benefits as of October 31 are as follows:

	<u>2014</u>	<u>2013</u>
Fidelity Advisor Stable Value Portfolio - Class II (at contract value)	\$ 2,052,043	1,968,015
Fidelity Advisor Balanced Fund Class A	1,664,225	1,449,730
Fidelity Advisor Diversified International Fund Class A	**	779,754
Dreyfus S&P 500 Index Fund	1,445,745	1,167,920
Victory Diversified Stock Fund A	1,422,158	1,291,532
Hartford Mid Cap R4	856,890	734,605
Fidelity Advisor New Insights A	1,256,370	1,190,556
Fidelity Advisor Strategic Income Fund Class A	**	775,432

** Fund was not greater than 5% during at Plan year end.

During 2014 and 2013, the Plan's investments in mutual funds (including investments bought, sold, and held during the year) appreciated in value by \$580,749 and \$1,722,864, respectively.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: 1. Quoted prices for similar assets or liabilities in active markets; 2. Quoted prices for identical or similar assets or liabilities in inactive markets; 3. Inputs other than quoted prices that are observable for the asset or liability; 4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at October 31, 2014 and 2013.

Mutual funds: Valued at the quoted daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value.

5. INFORMATION CERTIFIED BY TRUSTEE:

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee certified information regarding the fair value of investments and related income.

6. RELATED-PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments are shares of funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund.

7. RISKS AND UNCERTAINTIES:

Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that change in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements and supplemental schedule.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

9. TAX STATUS:

The Company adopted a prototype non-standardized profit sharing plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service dated March 31, 2008. While the Plan has since been amended, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of October 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to income tax examinations prior to 2011.

11. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:
