INDEPENDENT AUDITORS' REPORT

Administrative Committee
Whole Earth Provision Company 401(k) Plan
Austin, Texas

I have audited the accompanying financial statements of Whole Earth Provision Company 401(k) Plan, which comprise the statements of net assets available for benefits as of October 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Whole Earth Provision Company 401(k) Plan as of October 31, 2014 and 2013, and the changes in its net assets available for benefits for the years

then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

My audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year), referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

A. Description of the Plan

The Whole Earth Provision Company 401(k) Plan (the Plan) is a qualified plan maintained for the exclusive benefit of eligible employees of Anacacho, Inc. Dba Whole Earth Provision Company (the Employer). The Plan is subject to the provisions of the employee Retirement Income Security Act of 1984 (ERISA). The following description of the Plan provides only general information and participants should refer to the Summary Plan Description and the Plan agreement for a more complete description of the Plan's provisions.

Participants

All employees, except certain employees whose employment is governed by a collective bargaining agreement and certain nonresident aliens, are eligible to participate in the plan after being employed for one year (12 consecutive months, 1,000 service hours).

Contributions

A plan member may elect to have a portion of his or her salary deferred, subject to certain dollar limits set by law, and contributed to the Plan and invested in certain investment options as designated by each plan member. See Note C for a list of the various investment options available to plan members.

In addition, for each plan year, the Employer may contribute an amount which is designated by the Board of Directors of the Employer to be the Employer Discretionary Contribution for the Plan Year. The discretionary contributions may be, (1) a matching of the employee salary deferral amount, (2) an amount to satisfy the "safe harbor" contribution rules, (3) a matching equal to a uniform percentage of the employee salary deferral, (4) a qualified non-elective contribution on behalf of each employee equal to a uniform percentage of employee compensation, or (5) a discretionary profit sharing contribution.

The Employer notified the Plan participants that the plan would be a Safe Harbor Plan for the plan year ended October 31, 2014.

The discretionary profit sharing contribution will be allocated among eligible participants based on participant groups. All participants will be categorized as Group A Owners, and Group B All Others.

Different amounts may be contributed to each group. The amount contributed on behalf of each group will be allocated to each participant based on compensation compared to the total compensation of each group.

A. Description of the Plan (Continued)

Vesting

Participants are vested in their accounts based on years of active service as follows:

	Full Vested After Years of Active Service
Employer Discretionary Contribution	6
Employer Matching Contribution	6

Participants are always 100% invested in salary deferral amounts, "safe harbor" contributions, and non-elective contributions to the plan

Payments of Benefits

The Plan provides that upon termination of employment and when the participant's vested interest in the Plan excluding amounts attributable to any rollovers to the Plan by the participant does not exceed $ 5,000, then a lump sum distribution will be made as soon as administratively practicable. The participant may elect whether to receive the distribution or to roll over the distribution to another retirement plan such as an individual retirement account (IRA). If the amount of the distribution is more than $ 1,000 and the participant does not elect either to receive or to roll over the distribution, then as provided by law, the participant's distribution must be rolled over to an IRA.

Forfeiture on Termination of Participation

If a participant terminates his participation in the plan he receives a distribution of his entire vested interest in his accounts. The non-vested amount in his accounts is forfeited. However, if the participate is re-employed within five years all of his accounts containing employer contributions shall be restored if he repays that portion of his distribution which was derived from employer contributions.

Any remaining amount of forfeitures occurring from employer contributions after required restatement has been made shall be used to reduce future employer matching contributions and any remaining amount of forfeitures occurring from employer discretionary contributions will be added to discretionary contributions. The amount of forfeited non-vested accounts subject to being restored upon re-employment are disclosed in Note C.

A. Description of the Plan (Continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are reported on the accrual basis and the plan prepares its Department of labor Form on a cash basis. Differences between these statements and the amounts reported on Form 5500 are presented in Note E.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Financial Accounting Standards Board Statement No. 157, *Fair Value Measurements* (FASB Statement No. 157), establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Statement No. 157 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement

B. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date

Shares of registered investment companies (mutual funds) are valued at quoted prices in active markets which represent the net asset value of shares held by the Plan at year-end and classified within Level 1 of the fair value heirarchy.

Federal Income Taxes

A ruling has been obtained from the Internal Revenue Service stating that the Plan, as amended, qualified under Section 401(a) of the Internal Revenue code of 1954 and, as a result, is exempt from federal income taxes.

C. Investments

The following table lists account balances of various investment options available to plan participants measured at fair value on a recurring basis in the statement of net assets available for plan benefits as of October 31, 2014 and 2013 and are classified as Level 1 of the fair value hierarchy.

C. Investments (Continued)

The net appreciation of the Plan's investments, including investments bought, sold and held during the year, and including dividends which were reinvested during the year is as follows

	October 31,	
	2014	2013
Net appreciation (depreciation):	$	$
Regulated investment companies	175,040	364,182
	$ 175,040	$ 364,182

Supplemental schedule, Schedule of Assets Held for Investment Purposes (Form 5500) 2014, prepared by the third party administrator is attached to this report (Page 13) and Form 5500.

At October 31, 2014 and 2013, pending forfeited non-vested accounts totaled approximately $ 27,000 and $ 8,000 respectively.

At October 31, 2014 and 2013 investments includes $ 281,487 and $ 281,803 respectively, allocated to but not disbursed to participants who are not active in the Plan.

D. Risks and Uncertainties

The Plan participants invest in various investment securities which are exposed to various risks such as interest rate, market , and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

E. Benefits Payable and Administrative Expenses

At October 31, 2014 and 2013, there was no benefits payable for distribution to participates who have requested a distribution from the Plan prior to the end of the Plan year.

Plan administrative expenses paid by the Employer for the benefit of the plan for the years ended October 31, 2014 and 2013 totaled approximately $15,800 and $ 10,100, respectively.

F. Reconciliation of Financial Statements to Form 5500

The statement of net assets available for plan benefits as of October 31, 2014 and the related statement of changes in net assets available for plan benefits for the year then ended differ with the amounts reported to the Department of labor on Form 5500 because the Form 5500 is prepared on a cash basis. A reconciliation of the differences is presented below:
