## Bonten Media Group Inc. Employee Retirement Savings Plan

### Notes to Financial Statements

---

#### Note 1. Description of Plan

The following brief description of the Bonten Media Group Inc. Employee Retirement Savings Plan (the Plan) is provided for general information. Participants should refer to the plan agreement for a more complete description of its provisions.

**General:** The Plan, established October 1, 1985, is a single employer, defined contribution plan covering all employees of Bonten Media Group Inc. and its affiliates (the Company). Employees are eligible to enter the Plan upon start of employment or any time during the year and there are no age requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

**Contributions:** Participants may contribute up to 90% of compensation limited to the maximum amount allowed by the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year may elect to make catch-up contributions to the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may also elect to make after-tax contributions to the Plan. The Company may make discretionary nonselective contributions to the Plan. During 2014, the Company did not make matching contributions to the Plan.

**Vesting:** Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's contributions and earnings thereon are based on years of service as follows:

| <u>Years of Vesting Service</u> | <u>Percentage</u> |
|---------------------------------|-------------------|
| 1 or less                       | 0%                |
| 2                               | 25%               |
| 3                               | 50%               |
| 4                               | 75%               |
| 5 or more                       | 100%              |

**Participant accounts:** Each participant's account is credited with the participant's contribution, the Company's matching contribution, if any, and investment earnings on the participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

**Investment options:** Participants direct their account balances to be invested in 1% increments in any of the investment options offered by the Plan.

Participants may change their investment options at their discretion.

**Notes receivable from participants:** Participants may borrow from their fund accounts a minimum of \$500, up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's vested account and bear interest at a reasonable rate as determined by the Plan administrator. The interest rate was 4.25% per annum at December 31, 2014 and 2013. Principal and interest are paid ratably through payroll deductions. Loans must be repaid within five years unless for the purchase of a principal residence in which case the Plan administrator may permit a longer repayment term. Participants may only have two loans outstanding at any one time.

#### Note 1. Description of Plan (Continued)

**Benefit payments:** Participants are eligible to receive benefits upon termination of employment, death, disability or retirement. Participants may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in monthly, quarterly, semiannual or annual installments over a period not to exceed the greater of the life expectancy of the participant or the joint life expectancy of the participant and the participant's spouse.

**Forfeited accounts:** Forfeited nonvested accounts are used to reduce future employer contributions or pay plan expenses. During 2014, forfeitures in the amount of \$10,868 were used to pay plan expenses. Unallocated forfeitures at December 31, 2014 and 2013 were \$36,287 and \$38,951, respectively.

#### Note 2. Summary of Significant Accounting Policies

**Basis of accounting:** The accompanying financial statements have been prepared using the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

**Use of estimates:** The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

**Administrative expenses:** Certain administrative expenses of the Plan may be paid by the Company.

**Investment valuation and income recognition:** The investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company determines the Plan's valuation policies utilizing information provided by investment custodian. See Note 5 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Federated Capital Preservation Fund invests in fully benefit-responsive investment contracts through a common collective trust. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The contract value of the Federated Capital Preservation Fund approximates its fair value at December 31, 2014.

**Notes receivable from participants:** Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

**Payment of benefits:** Benefits are recorded when paid.

**Recent accounting pronouncements:** In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (a consensus of the FASB Emerging Issues Task Force), to address this diversity in practice. This ASU

#### Note 2. Summary of Significant Accounting Policies (Continued)

removes the requirement to categorize within the fair value hierarchy investments for which fair values are measured at NAV using the practical expedient. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice in how investments measured at NAV (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy to permit reconciliation to the line items presented in the statement of net assets available for benefits.

The ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, upon adoption, the disclosures required by ASC paragraph 820-10-50-6A will be limited to investments for which the entity has elected to measure the fair value using that practical expedient.

The ASU is effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. For all other entities, the ASU is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. A reporting entity should apply the amendments retrospectively to all periods presented. Retrospective application in this case requires that investments valued using the NAV per share practical expedient be removed from the fair value hierarchy in all periods presented. Earlier application is permitted.

In July 2015, the FASB issued ASU 2015-12 (Update), Plan Accounting: *Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.
- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent), practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.
- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this Update will have on the Plan's financial statements.

#### Note 5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There were no significant transfers between Level 1 and Level 2 investments during the year ended December 31, 2014.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at quoted market prices in active markets.

Common collective trust: This category includes a common collective trust fund that is designed to deliver safety and stability by preserving principal and accumulating earnings. The Federated Capital Preservation Fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, the Plan is required to provide a one year redemption notice to liquidate its entire share in the fund. The fair value of this fund has been estimated based on the fair value of the underlying investment contracts in the fund as reported by the issuer of the fund. The fair value approximates the contract value. As previously discussed in Note 2, contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The strategies of the mutual funds are as follows:

Growth and income funds: Long-term capital appreciation balanced with current income growth; investing primarily in domestic equity securities of large companies

Growth funds: Long-term capital appreciation

### Notes to Financial Statements

#### Note 5. Fair Value Measurements (Continued)

Aggressive growth funds: Long-term capital appreciation, investing primarily in emerging and developing markets

Income funds: Maximum total return with emphasis on current income

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

#### Note 6. Guaranteed Investment Contract

The Plan has an investment in a Federated Capital Preservation Fund, a common collective trust fund that contains investments in guaranteed investment contracts. The investment is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The common collective trust fund is included in the financial statements at fair value, which approximates the contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

### Notes to Financial Statements

#### Note 6. Guaranteed Investment Contract (Continued)

There are no reserves against contract value for credit risk of the contract issuer. The contract issuer is contractually obligated to repay the principal at a specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on a formula agreed upon with the issuer and is reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendment to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Company or other Company events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any prohibited transaction exemption under the Employee Retirement Income Security Act of 1974. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

The following table sets forth additional disclosures of the Plan's investment in the common collective trust as of December 31, 2014:

|                         | Fair Value | Unfunded<br>Commitment | Redemption<br>Frequency | Redemption<br>Notice Period                                             |

#### Note 7. Exempt Party-in-Interest Transactions

Certain management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost. These party-in-interest transactions are not deemed prohibited because they are covered by statutory and administrative exemptions from the IRC and the rules of prohibited transactions of ERISA.

#### Note 8. Plan Termination

Although it has expressed no intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

#### Note 9. Income Tax Status

On March 31, 2008, the Internal Revenue Service (IRS) stated that the prototype adopted by the Plan, as then designed, qualifies under Section 401(a) of the IRC. The Plan has not received a determination letter specific to the Plan itself. The Plan has been amended since receiving the determination letter, however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. The Plan sponsor has indicated that it will take the necessary steps, if any, to maintain the Plan's qualified status. Therefore, no provision for income taxes has been included in the Plan's financial statements.

### Notes to Financial Statements

#### Note 9. Income Tax Status (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan administrator believes it is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years prior to 2011.

#### Note 10. Risks and Uncertainties

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' accounts and the amount reported in the statements of net assets available for benefits.
