REPORT OF INDEPENDENT AUDITORS

Administrative Committee of the
Window Products, Inc. Profit Sharing and 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Window Products, Inc. Profit Sharing and 401(k) Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year then ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

(continued)

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by Reliance Trust Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan administrator by the custodian is complete and accurate for the periods mentioned above.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2014, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on this supplementary information.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary information, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 – Plan Description

The following description of the Window Products, Inc. Profit Sharing and 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Window Products, Inc. and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Window Products, Inc. (Company) is the Plan's sponsor and serves as Plan administrator.

Eligibility – All employees, with the exception of leased employees, nonresident aliens, and employees covered by a collective bargaining agreement will be eligible to participate in the Plan once certain eligibility requirements are met. Employees of the Company are eligible for salary deferral contributions immediately following the date of hire and having reached the age of 18. Employees are eligible for discretionary profit sharing and matching contributions if the employee has reached the age of 18, has completed one year of service with at least 1,000 hours of service worked in that 12-month period, and must be employed on the last day of the Plan year.

Contributions –

Participant contributions – Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Employees are automatically enrolled into the Plan upon eligibility at 2% of eligible compensation unless the participant elects otherwise. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan. The Company matched 50% of employee contributions, up to 6% of eligible compensation deferred to the Plan during the year ended December 31, 2014. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no profit sharing contributions for the year ended December 31, 2014.

Contributions are subject to regulatory limitations.

Note 1 – Plan Description (continued)

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. Participants vest in the Company's contributions based on the following schedule:

Years of Service	Vested Percentage
1	25%
2	50%
3	75%
4	100%

Notes receivable from participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed 15 years. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2014, the rate of interest on all outstanding loans was 3.25% with various maturities through September 2019.

Payment of benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum, partial withdrawal, or installment payment amount equal to the value of the participant's interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions.

Note 1 – Plan Description (continued)

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and will be re-allocated to participants as a profit sharing contribution. As of December 31, 2014 and 2013, forfeited nonvested accounts totaled $2,605 and $2,543, respectively. For the year ended December 31, 2014, $2 was re-allocated to participants.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncement – In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The ASU is effective for fiscal years beginning after December 15, 2016, with earlier application permitted.

The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. The ASU has been adopted for the December 31, 2014, Plan year end; however, the retrospective approach requires that an investment for which fair value is measured using NAV be removed from the fair value hierarchy in all periods presented in the financial statements. Accordingly, the investment disclosures in Note 4 have been modified as of December 31, 2013, as well.

Investment valuation – The investments are stated at fair value. The Plan's custodian, Reliance Trust Company, certifies the contract value of the deposit administration group annuity contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Note 2 – Summary of Significant Accounting Policies (continued)

Investment valuation (continued) – Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

As of December 31, 2014 and 2013, the contract value of Standard Stable Asset A approximated fair market value; therefore, there is no adjustment to contract value shown on the statements of net assets available for benefits.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the date of the statements of net assets available for benefits but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits but arose after the date of the statements of net assets available for benefits and before the financial statements are available to be issued.

The Plan was restated effective January 1, 2015, in order to comply with the requirements of PPA, pursuant to Rev. Proc. 2011-49.

The Plan has evaluated subsequent events through August 13, 2015, which is the date the financial statements were available to be issued.

Note 3 – Investments

Investments representing 5% or more of net assets available for benefits consist of the following as of December 31:

	2014	2013
Registered investment funds		
Vanguard 500 Index Signal Fund	$ 1,185,278	$ 661,228
T. Rowe Price Growth Stock Fund	943,081	887,791
Vanguard Balanced Index Fund Signal	821,184	918,266
T. Rowe Price Equity Income Fund	566,914	566,493
Aston Fairpoint Mid Cap Fund N	543,849	502,791
Columbia Acorn R5	534,861	493,301
Harbor International Fund I	390,114	370,328
Deposit adminstration group annuity contract		
Standard Stable Asset A	996,856	906,101

During 2014, the Plan's investments (including gains and losses on investments purchased, sold, as well as held during the year) appreciated in fair value as follows:

Registered investment funds	$ 5,544

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Note 4 – Fair Value Measurements (continued)

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2014 and 2013:

Registered investment funds (Mutual Funds) – Shares of Mutual Funds are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Deposit administration group annuity contracts (DA Contract) – Standard Stable Asset A is a DA Contract, which is a type of guaranteed investment contract (GIC). The DA Contract is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (see Note 5). The DA Contract is not actively traded and significant other observable inputs are not available. Accordingly, the DA Contract is classified within Level 3 of the valuation hierarchy.

Note 4 – Fair Value Measurements (continued)

The following table provides additional information for investments in certain entities that calculate net asset value per share (or its equivalent):

	Fair Value	Redemption Frequency	Redemption Notice Period	Redemption Restrictions
Deposit administration group annuity contract	$ 996,856	Daily	N/A	N/A

The Administrative Committee, under the supervision of the Company's Board of Directors and the Plan Trustees, determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

In determining the reasonableness of the valuation methodology for the Plan's DA Contracts, the Administrative Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – Fair Value Measurements (continued)

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31:

	2014

Note 4 – Fair Value Measurements (continued)

The following table discloses the summary of changes in fair value of the Plan's Level 3 investment assets:

	Standard Stable Asset A
Balance, beginning of year	$ 906,101
Interest income	21,887
Fund transactions	
Purchases	135,673
Sales	(66,805)
Balance, end of year	$ 996,856

Interest income included in changes in fair value for the period above is reported in dividends and interest in the statement of changes in net assets available for benefits.

Name	Fair Value	Valuation Technique	Unobservable Inputs	Input Values
Standard Stable Asset A	$996,856	Discounted cash flow	Crediting rate	2.35%
			Crediting rate reset period	Quarterly

Note 5 – Guaranteed Investment Contracts with Standard Insurance Company

Stable Asset A is a benefit-responsive DA Contract with Standard Insurance Company. Contributions are maintained in Standard Insurance Company's general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Standard Insurance Company is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because Standard Stable Asset A is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits. As of December 31, 2014, Standard Stable Asset A's contract value approximated fair market value; therefore, there is no adjustment to contract value shown on the statements of net assets available for benefits. Contract value, as reported to the Plan by Standard Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 5 – Guaranteed Investment Contracts with Standard Insurance Company (continued)

The crediting interest rate on the Stable Asset Fund A for the year ended December 31, 2014, was 2.35%. The crediting interest rate may not be less than 1%. Such rates are reviewed on a quarterly basis for resetting. The average yield is based upon annualized earnings of the investment, which may differ from the crediting interest rate, which is based upon the annualized earnings credited to participant accounts. The Standard's position is that the average yield earned by the entire fund and the actual interest rate credited to participants are the same. The crediting rate is part of The Standard's obligation to the Plan, no matter how The Standard's assets perform. There are no particular segregated or identifiable assets ascribed to the Plan's Standard Stable Asset A.

The DA Contract is unsecured, general account obligations of insurance companies. The obligations are backed by the general account assets of the insurance company that writes the investment contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 8 – Information Certified by the Custodian

Accordingly, the Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Reliance Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and contract value of the deposit group annuity contract reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net appreciation in fair value of investments, dividends and interest reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Investments reflected on the schedule of assets (held at end of year), excluding participant loans.

Note 9 – Party in Interest Transactions

Plan investments include shares of the stable value fund managed by The Standard Life Insurance Company. The Standard Life Insurance Company is the custodian of the Plan and, therefore, transactions with these entities qualify as exempt party in interest transactions. The Plan also allows for loans to participants, which qualify as party in interest transactions.

Note 10 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
