Ed Schmidt Auto Group 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description

The following description of Ed Schmidt Auto Group 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit plan, adopted April 13, 1966, covering all full-time employees of Ed Schmidt Pontiac - Auto Group (the "Company") who have completed one year of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Employee contributions may be made by a salary reduction of annual eligible compensation. Employee contributions are limited to a maximum amount permitted by the Internal Revenue Service per year. In addition, the plan sponsor may make a discretionary contribution in the form of a fixed matching contribution of 25 percent up to 6 percent of eligible compensation. For the years ended December 31, 2014 and 2013, the fixed matching contribution totaled approximately \$47,000 and \$42,000, respectively. The plan sponsor may also make a discretionary profit sharing contribution with the amount being determined each year. There were no discretionary profit sharing contributions for the years ended December 31, 2014 and 2013. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their voluntary contributions and rollover contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on continuous service. A participant becomes fully vested in the employer contribution portion of his or her account after six years of service or upon retirement, permanent disability, or death. Forfeitures of terminated participants' nonvested accounts are used to pay plan expenses and offset future company contributions.

Participant Notes Receivable - The Plan allows participants to borrow money from the Plan. Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their account balance, not to exceed \$50,000. Loans are collateralized by the participant's account balance, with interest being charged at rates established by the Company on a nondiscriminatory basis, taking into consideration the interest rates then being charged on similar loans by independent parties.

Ed Schmidt Auto Group 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 1 - Plan Description (Continued)

Benefit Payments - Upon a participant's death, disability, retirement, or termination of service, the participant may elect to receive a lump-sum amount equal to the value of his or her account.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become fully vested in their account balances.

Party-in-interest Transactions - Certain administrative expenses are paid by the Company. Certain plan assets are in investment funds managed by American Funds Distributors, Inc. or its affiliates, of which Capital Bank and Trust is one. Capital Bank and Trust is the trustee as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below. The common collective trust fund investment is valued at contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund. The common collective trust fund primarily holds guaranteed investment contracts, fixed-income securities, and derivatives. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. The fair value of the fixed-income securities is valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. The fair value of a wrapper contract provided by the contract issuer is based on the replacement cost methodology which is the present value of the difference between the replacement wrapper fee and the contracted wrapper fee.

All other investments are valued based on quoted market prices. See Note 4 for additional information.

Ed Schmidt Auto Group 401(k) Plan

Notes to Financial Statements December 31, 2014 and 2013

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 7, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Capital Bank and Trust Company holds the Plan's investment assets and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and schedule of assets held at end of year are based solely on information provided by FASCore, LLC and certified by Capital Bank and Trust Company.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

Note 4 - Fair Value Measurements (Continued)

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Redemption Restrictions - Withdrawals from the stable value fund needed for benefit payments and loan advances of participating employee benefit plans are generally permitted daily. Withdrawals for other purposes require 12-month advance notice to the fund. At its discretion, the fund may affect these withdrawals prior to the end of the 12-month period. There are no other redemption restrictions for any of the other funds within the Plan.

Note 4 - Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2014 and 2013.

Note 5 - Tax Status

The Plan is a prototype plan. The prototype plan has received a favorable opinion letter from the Internal Revenue Service (IRS) indicating that the Plan, as designed, is qualified for federal income tax-exempt status. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.
