Allied Benefit Systems, Inc. 401(k) Plan
Notes to the Financial Statements

Note 1 Description of Plan

The following description of the Allied Benefit Systems, Inc. 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General—Allied Benefit Systems, Inc. (the Company) established the Plan on January 1, 1995, to provide for the accumulation of capital on a regular and long-term basis for participants' retirement income needs. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility—Employees shall be eligible to make Elective Contributions in the plan after 90 days of service. Participants are eligible for employer matching contributions following the completion of one year of service, as defined.

Contributions—Participants may elect to contribute 1 percent to 25 percent of compensation on a pretax basis. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may contribute funds (rollover contributions) from other eligible plans if these contributions qualify under Section 401(a) of the Internal Revenue Code (Code) and are exempt from tax under Code Section 501(a). The Company matches an amount equal to 25 percent of the first 4 percent of the participant's elective contributions. All contributions are subject to maximum amounts under current tax law.

Participant Accounts—Participant's accounts are credited with the participant's contributions, the employer's matching contributions and allocations of plan earnings and expenses. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting—Participants are immediately vested in their voluntary contributions, plus actual earnings thereon. Vesting in employer's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service, vesting at an increase of twenty percent per year. A participant is 100% vested after five years of accredited service.

Forfeitures—Forfeitures are non-vested portions of participants' accounts and may be used by the Company to reduce future matching contributions or pay administrative fees. The forfeiture balance at December 31, 2013 and 2014 was $425 and $1,244 respectively.

Payment of Benefits—Distribution of a participant's account will be made in the event of termination, retirement, death, or disability subject to certain age and dollar value restrictions. If the participant has attained age 59½, the participant may withdraw the contributions and the vested portion of Company matching contributions without incurring penalties. As of March 28, 2005, if termination of employment is made before retirement age, the participant will automatically receive a single sum cash payment if the vested interest of the terminated account balance does not exceed $1,000. For those terminated account balances over $1,000, the terminated employee may elect to keep the funds in the Allied Benefits Systems, Inc. 401k Plan.

Note 1 Description of Plan, *Continued*

Hardship Withdrawals—Hardship withdrawals are allowed under limited conditions, as defined by the Plan. A participant can withdraw a maximum amount limited to the lesser of the participant's vested balance or the amount of the hardship need. Hardship withdrawals are subject to the Participant's spousal consent. After making a hardship withdrawal, the participants' contributions shall be suspended for twelve months, after the hardship withdrawal is received.

Participant Notes Receivable—Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of: (a) 50 percent of their vested account balance, less any outstanding loan balance, or (b) $50,000, less the highest outstanding loan balance over the last 12 months. Loans will be made only once during a Plan Year. Loans are repaid via payroll deductions. Loans bear a reasonable rate of interest and are secured by the participant's account. Loan terms range from one to five years or up to 15 years if used for the purchase of a primary residence.

Investment Options—The Plan is a participant directed plan, whereby each participant may allocate their contributions in any whole percentage among a variety of funds held in the custody of Transamerica Life Insurance Company. Allocations may be changed daily.

Note 2 Summary of Significant Accounting Policies

Basis of Accounting—The Plan's financial statements are presented using the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to the Financial Statements

Use of Estimates— The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

Payment of Benefits—Benefits are recorded when paid.

Note 3 Investments

The Plan's investments representing 5 percent or more of the fair value of the Plan's net assets at December 31, 2013 and 2014 are as follows:

Transamerica Equity RET Opt	$ 565,664	$ 663,424

Participant notes receivable	267,951	269,199

Note 4 Plan Termination

Although the Company has reserved the right to terminate the Plan at any time, it has expressed no intention to do so at this time. If the Plan were terminated, participants would automatically be 100 percent vested and distributed their entire account

Note 5 Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 17, 2002, stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from, taxation. Subsequent to this determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

Note 6 Related-Party Transactions

Certain plan investments are managed by Transamerica Life Insurance Company, which is the trustee, as defined by the Plan, and therefore, these transactions are considered to be party-in-interest transactions.

Note 7 Information Certified By the Trustee

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2013 and 2014, and net appreciation in fair value of investments, interest, dividends, and investment expenses for the year then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee, Transamerica Life Insurance Company. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following investments:

	2014	2013
Shares of pooled separate accounts	$5,626,736	$5,171,888
Shares of stable value fund	609,390	567,674
Participant notes receivable	269,199	267,951
Total	$6,505,325	$6,007,513

Net Appreciation in fair value of investments - pooled separate accounts	$ 418,164
Interest on shares of stable value fund	9,421
Interest on participant notes receivable	11,552
	439,137

Note 8 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 Fair Value Measurements

GAAP, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Shares of pooled separate accounts: Valued at the total of the net asset value of shares of the underlying investments held by the accounts at year-end. The Plan's interest in the pooled separate accounts were valued based on the information reported by the investment advisor.

Shares of stable value fund: Valued at the contract value, which was based on the stable value fund's beginning balance plus any deposits and credited interest, less any withdrawals, charges, or expenses, a measurement which approximated fair value.

Participant notes receivable: Valued at amortized cost, which approximated fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2014 and 2013:

2014

	Level 1	Level 2	Level 3	Total
Shares of pooled separate accounts	$ -	$ 5,626,736	$ -	$ 5,626,736
Shares of stable value fund	-	609,390	-	609,390
Participant notes receivable	-	-	269,199	269,199
Total assets at fair value	$ -	$ 6,236,126	$ 269,199	$ 6,505,325

2013

	Level 1	Level 2	Level 3	Total
Shares of pooled separate accounts	$ -	$ 5,171,888	$ -	$ 5,171,888

Total assets at fair value	$ -	$ 5,739,562	$ 267,951	$ 6,007,513

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2014:
