403(b) Retirement Plan
Notes to Financial Statements
December 31, 2014 and 2013

Note 1 - Description of the Plan:

The following description of Mon Yough Community Services, Inc. 403(b) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions.

General

The plan is a defined contribution plan covering all employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provision of the Employee Retirement Income Security Act of 1974 (ERISA). All employees are eligible to participate in the 403(b) feature of the Plan as of their hire date.

Contributions

Participants may contribute to the Plan through payroll deductions at a rate of 1 to 100 percent of their compensation not to exceed annual limits set by the tax laws ($17,500 for both 2014 and 2013) in the Plan year. Participants age 50 and over were eligible to contribute up to an extra $5,500 in 2014 and 2013 respectively. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds as investment options for participants. The employer contributes 2% of the first 4% of base compensation that a participant contributes to the Plan. The matching contribution is fully discretionary and can be stopped or changed at any time during the plan year.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the company's contribution and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of the Plan (Continued):

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the company's matching and discretionary contribution portion of their accounts plus actual earning thereon is based on years of continuous services. The vesting schedule shows as follows:

Years of Service	Vesting %
Two years	20
Three years	40
Four years	60
Five years	80
Six years	100

Forfeitures

Forfeiture of non-vested company contributions are used to reduce future company contributions or reallocated to restore rehired participants' previously forfeited balances. Forfeitures were used to reduce the company's contributions in the amounts of $6,961 and $2,250 for the years ended December 31, 2014 and 2013, respectively. As of December 31, 2014 and 2013 forfeited nonvested accounts totaled $472 and $30, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participants' account and bear a reasonable rate of interest which is commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vesting interest in his or her account, or annual installments over a period of not more than participants' or their beneficiary's assumed life expectancies. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments are presented at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded in the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable are recorded as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from the financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Consideration of Subsequent Events

For the year-ended December 31, 2014, the plan has evaluated subsequent events for potential recognition and disclosure through July 29, 2015, the date the financial statements were available to be issued.

Note 3 – Information Certified by the Plan's Custodian (Unaudited)

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013.
- Investment activity excluding participant loans, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.
- The schedule of assets held for investment purposes at end of year excluding participant loans, as shown on Schedule H, Line 4(i).

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following table presents investments that represent 5 percent or more of the plan's net assets.

	2014	2013
American Funds Growth Fund of America	1,125,247	1,073,854
American Funds Washington Mutual	947,599	905,101

Invesco Small Cap Equity A	-	356,382
American Funds EuroPacific Growth	-	313,378
PIMCO High Yield A	-	307,510

The investments (including gains and losses on investments bought and sold, as well as held during the year and interest and dividend income) appreciated in value by $311,504, which is entirely attributable to mutual funds.

Note 4 – Fair Value Measurements:

FASB ASC 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of fair value hierarchy under FASB ASC 820 are described as below:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a brief description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4 – Fair Value Measurements (Continued):

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

Note 5 – Rollover Contributions:

The plan allows for rollover contributions from other plans. An aggregate of $40,956 was rolled into the Plan during the year ended December 31, 2014, and is shown as rollovers on the statement of changes in net assets available for benefits.

Note 6 – Related - Party Transactions and Party In Interest Transactions:

Certain Plan investments are shares of mutual funds managed by Nationwide Financial Services, Inc. Nationwide is the trustee as defined by the Plan. These transactions qualify as exempt party-in-interest transactions. Fees incurred by the Plan are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Note 7 Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 - Tax Status:

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan has been prepared to conform with the sample language provided by the Internal Revenue Service (IRS) in Revenue Procedures 2007-71. The plan administrator intends to apply for a determination letter on the Plan once the IRS opens such a program. The plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Note 9 – Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
