NOTES TO FINANCIAL STATEMENTS

December 31, 2014

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Red Hawk Fire & Security Employee Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined-contribution plan, formed on November 1, 2012, covering all eligible employees of Red Hawk Fire & Security, LLC. (the “Company”), and certain affiliated companies, who are age 21 or older, provided they are not union employees as defined in the Plan document. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Administration of Plan Assets

The Plan is administered by the Company. State Street Bank and Trust Company functions as the Trustee for the Plan. Automatic Data Processing, Inc. functions as the Plan’s record-keeper.

Eligibility and Contributions

All full-time employees of the Company are eligible to become participants in the Plan subsequent to the completion of 3 months of service and reaching an age of 21 years or older.

Participants are automatically enrolled in the Plan on their first day of eligibility at a contribution rate of 6% unless they opt out. Participants may elect to contribute in whole percentages ranging from 1%-70% of eligible compensation as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, subject to certain limitations under the Internal Revenue Code (“IRC”). Participants may also contribute amounts representing distributions from other qualified plans (“rollovers”). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company matches 60% up to the first 6% of employee contributions. Contributions are subject to certain limitations. All contributions during a Plan year are subject to maximum dollar limitations established by the IRC. For the year ended December 31, 2014, the total maximum allowable tax-deferred contribution to the Plan under the IRC from employee sources was \$17,500, plus catch-up contributions of \$5,500 for eligible employees.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Participant Accounts

Each participant's account is credited and/or debited with the participant's contributions, the Company's contributions, and a proportionate share of Plan earnings/losses, investment fees and any other administrative expenses paid out of the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Upon enrollment in the Plan, a participant may direct their contributions plus actual earnings thereon to be invested in any of the investment options offered by the Plan. Participants may change their investment options daily.

Vesting

Participants are immediately fully vested in their contributions plus/minus actual earnings/losses thereon. The Plan uses the equivalency method for Company contributions which means that if an employee works at all during a month, they are credited with 190 hours. Once a participant reaches 1,000 hours in the Plan year, they are credited with a year of service. Participants vest in Company contributions based upon the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
1 year	50%
2 years	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Each participant is allowed to have a maximum of one loan outstanding at a time. The notes are secured by the balance in the participant's account, or other collateral, and bear interest at a rate commensurate with prime rate plus 1%. The prime rate is determined based upon the prime rate of interest that is published in the Wall Street Journal on the 14th day of each month.

The maximum note repayment period is five years unless the note is for the purchase of a primary residence in which case the repayment schedule may be for a term in excess of five years. Principal and interest payments with respect to the notes are credited solely to the account of the borrowing participant from which the note was made.

NOTE A - DESCRIPTION OF THE PLAN – Continued

Forfeited Accounts

Forfeitures of non-vested account balances are used by the Company first to offset plan administrative expenses and then to reduce the employer matching contributions for the Plan year in which the forfeitures occur. As of December 31, 2014, there were no forfeited non-vested accounts. During the year ended December 31, 2014, the Company's contributions were reduced from forfeitures by approximately \$22,800.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or an annuity. If a participant meets certain criteria, benefits may also be received as an in-service withdrawal.

Benefits paid to participants are recorded as deductions from net assets available for benefits when paid.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits are prepared on a contract basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation in Fair Value of Investments

Net realized and unrealized appreciation of investments is recorded in the accompanying statements of changes in net assets available for benefits as net appreciation in fair value of investments and includes gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

Administration of the Plan

Certain administrative functions are performed by officers or employees of the Company. No such officers or employees receive compensation from the Plan. Certain administration expenses, such as professional fees, are paid directly by the Company. Fees paid by the Company were approximately \$80,000 for 2014.

T. ROWE PRICE RETIREMENT 2035-RETAIL	2,123,699
TRPRICE RET 2045	1,225,363

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year then ended) appreciated as follows:

	<u>2014</u>
Mutual Funds	\$ 175,963
Common/Collective Trust	<u>41,055</u>
	<u>\$ 217,018</u>

NOTE D - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(continued)

Red Hawk Fire & Security Employee Savings Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2014

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds - Valued at the net asset value ("NAV") of shares held by the Plan at year-end. The mutual funds provide for daily redemptions by the Plan at reported NAVs with no advance notice requirement.

Common/Collective Trusts - Valued based on the fair value of the collective trust's underlying investments using information reported by the investment custodian.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

NOTE E - COLLECTIVE INVESTMENT TRUST

The Plan holds interests in collective investment trusts to maintain a portion of the Plan contributions in guaranteed investment contracts, synthetic guaranteed investments contracts, and separate account investment contracts. Of those collective trusts, Federated Capital Preservation - ISP Fund is a Stable Value investment and is fully benefit-responsive. The account is credited with contributions and earnings on the underlying investments and charges for participant withdrawals and administrative expenses charged by the trustee of the collective investment trust. The guaranteed investment contract issuers are Because certain investment contracts in the collective investment trusts are fully benefit-responsive, these collective investment trusts are included in the financial statements at contract value as reported to the Plan by State Street Bank and Trust Company. There are no reserves against the collective investment trust for credit risk of the contract issuer or otherwise. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

As of December 31, 2014, the fund's contract value was \$608,504 with a fair value of \$610, 525.

The average yield at fair value and weighted average crediting rate for the fund at December 31, 2014 are as follows:

	<u>2014</u>
Average yields:	
Based on actual earnings	1.10%
Based on interest rate credited to participants	1.14%

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be different from each issuer and can be found in the contract of the collective investment trust. Examples of such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Red Hawk Fire & Security Employee Savings Plan

NOTES TO FINANCIAL STATEMENTS - CONTINUED

December 31, 2014

NOTE F - RISKS AND UNCERTAINTIES

The Plan provides for investment options in a variety of investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, market volatility, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE G - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their accounts.

NOTE H - TAX STATUS

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the Internal Revenue Code ("IRC"), and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the IRC. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is not subject to income tax examinations for years prior to 2012, the year of inception for the Plan.
