NOTE 1 – DESCRIPTION OF PLAN

Naturebest Pre-Cut & Produce LLC 401(k) Profit Sharing Plan and Trust (the Plan) was a qualified retirement plan adopted by Naturebest Pre-Cut & Produce LLC (the Company) to help employees meet financial needs during their retirement years. The Plan was originally effective on January 1, 2013, commenced on June 3, 2013, and was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On September 24, 2014, the Company terminated the Plan. Effective October 7, 2014, all participants' accounts and Plan assets were distributed.

The following description of the Plan provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

Eligibility – All nonexcluded employees of the Company were eligible to participate in the Plan after satisfying one year of eligibility service and attainment of age 21. The number of hours of service required to complete a year of eligibility service was 1,000. A participant could immediately enter the Plan upon satisfying the eligibility requirements.

Contributions – Participants could elect to defer a percentage or dollar amount of their compensation into the Plan as pre-tax contributions or Roth contributions, not to exceed the limits imposed by the Internal Revenue Code (IRC). Participants could modify or revoke their elective deferral contributions at any time during the Plan year.

Participant Accounts – Each participant's account was credited with the participant's contributions and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Investment Options – Participants directed the investment of their entire interest in the Plan into various investment securities. The Plan offered various mutual funds as investment options for its participants. Participants could change the allocation of future contributions and account balances between investment securities at their discretion.

Vesting – Participants were always fully vested in their salary deferrals plus actual earnings thereon.

Payment of Benefits – Upon termination of employment, normal retirement, disability, or death, a participant or designated beneficiary was entitled to receive a distribution of the vested percentage of their account balance in a single lump-sum payment or have the payment paid as a direct rollover to an individual retirement account, individual retirement annuity, or to another employer's tax qualified plan.

If an active participant had attained age 59½, they could receive an in-service distribution from the Plan.

Administrative Expenses – The Plan permitted the payment of Plan expenses to be made from the Plan's assets. If expenses were paid using the Plan's assets, then the expenses would generally be allocated among the accounts of all participants in the Plan. These expenses would be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan. Expenses specifically incurred by, or attributable to, a participant would be paid from the participant's account.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan were prepared on the accrual basis of accounting.

Use of Estimates – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) required the Company to make estimates and assumptions that affected the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – Investments were reported at fair value. Fair value was the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See *Note 4* for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Net appreciation in fair value of investments included the Plan's gains and losses on investments bought and sold as well as held during the year. Dividends were recorded on the ex-dividend date.

Payment of Benefits – Benefits were recorded when paid.

Subsequent Events – The Plan has evaluated subsequent events through August 5, 2015, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provided a fair value hierarchy that prioritized the inputs to valuation techniques used to measure fair value. The hierarchy gave the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- **Level 1** – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- **Level 2** – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- **Level 3** – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques maximized the use of relevant observable inputs and minimized the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that were registered with the SEC. These funds were required to publish their daily net asset value and to transact at the price. The mutual funds held by the Plan were deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	December 31, 2013			
	Level 1	Level 2	Level 3	Total
Mutual fund:				
Balanced fund	$ 1,174	$ -	$ -	$ 1,174
Total assets at fair value	$ 1,174	$ -	$ -	$ 1,174

NOTE 4 – INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by Mid Atlantic Trust Company, the custodian, except for comparing such information certified by the custodian with information included in the Plan's financial statements and supplemental schedule. Information certified as complete and accurate by the custodian includes all investments reflected on the accompanying statements of net assets available for benefits as of October 7, 2014 and December 31, 2013, *Note 5*, and the related investment activity reflected in the statements of changes in net assets available for benefits for the periods ended October 7, 2014 and December 31, 2013.

NOTE 5 – INVESTMENTS (UNAUDITED)

At October 7, 2014 and December 31, 2013, all investments of the Plan were participant-directed. The following presents investments that represented 5% or more of the Plan's net assets as of:

	October 7, 2014	December 31, 2013
Fidelity Advisor Balanced T	**$ -**	$ 1,174

For the periods ended October 7, 2014 and December 31, 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value by $92 and $65, respectively.

NOTE 6 – RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were shares of mutual funds managed by the custodian and, therefore, these transactions qualified as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Company. These transactions qualified as party-in-interest transactions.

NOTE 7 – TAX STATUS

The Company adopted a volume submitter profit sharing plan with CODA sponsored by Paychex, Inc. The prototype obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service (IRS) stated that the plan was acceptable under section 401 of the IRC for use by employers for the benefit of their employees. The Plan has not requested its own determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Company believes that the Plan was designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes was included in the Plan's financial statements.

U.S. GAAP requires the Company to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities were exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 9 – PLAN TERMINATION

The Company had the right under the Plan to terminate the Plan subject to the provisions of ERISA.
