NOTES TO FINANCIAL STATEMENTS

A. Description of Plan

The following description of the Icon Identity Solutions (“Company”) 401(k) Savings Plan (“Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

1. *General.* The Plan is a defined contribution 401(k) plan available to qualifying employees of Company. Employees are eligible to participate in the Plan on the first day of the month that coincides with or immediately follows the day the employee has completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan became effective January 1, 1994.

1. *Contributions.* Each year participants may contribute a minimum of one (1) percent of their compensation to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may contribute a percentage of the first 15% of eligible compensation. For the 2014 Plan year, the Company contributed \$0.25 for each dollar of elective deferral contributions up to the 15% limit. Additional amounts may be contributed at the option of the Company’s board of directors. Contributions are subject to certain IRS limitations.
3. *Participant Accounts.* Each participant’s account is credited with the participant’s contributions and allocations of the Company’s contribution and Plan earnings. Participant accounts are charged with an allocation of Plan administrative expenses and expenses associated with the investment of Plan assets that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant’s vested account.
4. *Vesting.* Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company’s matching and discretionary contribution portion of participant’s accounts plus earnings thereon is based on years of continuous service. Participants are 100% vested in their account balances after five years of credited service.

NOTES TO FINANCIAL STATEMENTS

A. Description of Plan – continued

5. *Notes Receivable from Participants.* Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan terms do not exceed five years. Loans are secured by the participant's account balance and bear interest fixed for the entire loan duration at a reasonable rate of interest as determined by the plan administrator based on the prevailing interest rates charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest are paid through payroll deductions.
6. *Payment of Benefits.* Distributions from the Plan shall be made only in the event of retirement, death, disability, termination of employment, or termination of the Plan. A participant may elect to receive the value of his or her account as an annuity, an installment, or as a lump-sum amount.
7. *Forfeited Accounts.* At December 31, 2014 and 2013, forfeited non-vested accounts totaled \$82,284 and \$60,008, respectively. These accounts may be used to reduce future employer contributions. In 2013, employer contributions were not reduced by the use of forfeited non-vested accounts.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

NOTES TO FINANCIAL STATEMENTS

B. Summary of Accounting Policies - continued

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recoded.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Expenses related to the administration of the Plan or associated with the investment of Plan assets may be paid by the Plan or by the employer. In addition, participants may be assessed fees directly associated with the administration of their accounts.

C. Investments

Investments and notes receivable from participants held at December 31, 2014 and 2013, net appreciation (depreciation) in the fair value of investments, and interest and dividends for the years ended December 31, 2014 and 2013, were obtained or derived from information supplied to the Plan and certified as complete and accurate by Fidelity Management Trust Company ("FMTC"), the trustee. Accordingly, as permitted by 29 CFR 2520.103-8 the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan instructed the Plan's independent auditors not to perform any auditing procedures with respect to the investment confirmation certified by the trustee.

The following table presents the fair value of investments and notes receivable from participants in the Plan as of December 31, 2014 and 2013, respectively. Individual amounts that represent 5% or more of the Plan's net assets as of December 31, 2014 and/or 2013 are separately identified.

D. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for asset measure at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013:

Mutual funds: Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value ("NAV") of shares held by the Plan at year end (Level 1).

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded (Level 1).

401(k) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

D. Fair Value Measurements – continued

Common collective trust: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (Level 2).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013.

E. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

F. Tax Status

The Internal Revenue Service determined and informed the trustee of the Plan by a letter dated March 31, 2014, that the form of its plan is acceptable under the applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified, and the related trust is tax-exempt. The Plan's income tax returns are subject to examination by federal and state authorities, generally for three years after they are filed.

G. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. Subsequent Events

Events that occur after the statement of net assets available for benefits date but before the financial statements were available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of net assets available for benefits date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of financial position date require disclosure in the accompanying notes. Management evaluated the activity of Icon Identity Solutions 401(k) Savings Plan through July 31, 2015 (the date the financial statements were available to be issued) and concluded that no subsequent events have occurred that require recognition in the financial statements or disclosure in the notes to the financial statements.
