PRENTKE ROMICH COMPANY DEFERRED COMPENSATION PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Prentke Romich Company Deferred Compensation Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

General - The Plan is a defined contribution plan covering all eligible domestic employees of Prentke Romich Company and its domestic subsidiary (together, the "Company") who are at least eighteen years of age and have completed three months of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also make Roth deferrals and contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions as defined by the Plan. The Company may make discretionary matching and profit sharing contributions to the Plan. Contributions are subject to certain Internal Revenue Code limitations.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participant investment account options - Participants direct the investment of all contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, pooled separate accounts, common/collective trusts and a guaranteed investment contract as investment options for participants.

Vesting - Participants are immediately vested in their contributions and qualified nonelective contributions of the Company plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions plus actual earnings thereon is based on years of service to the Company and is subject to the following vesting schedule:

<u>Years of Service</u>	<u>Vested %</u>
Less than 2	0%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (Continued)

Payment of benefits – On termination of service as defined, a participant will receive a lump sum amount equal to the value of the participant's vested interest in his or her account or a single-sum payment of a portion of their account balance. Participants may also withdraw amounts from their accounts under certain defined conditions.

Forfeited accounts – At December 31, 2014 and 2013, forfeited, nonvested accounts totaled \$1 and \$7,546, respectively. These accounts may be used to first reduce plan expenses and then to reduce employer contributions. In 2014, employer contributions were reduced by \$9,059 from forfeited nonvested accounts.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment contracts – Investment options held by a defined contribution plan whose underlying investments include fully benefit-responsive investment contracts are required to be reported at fair value and adjusted to contract value since it represents the amount at which participants can execute transactions in the Plan. The Plan's investments include a guaranteed investment contract which holds underlying investment contracts. This fund is presented on the face of the statements of net assets available for benefits at fair value which approximates contract value. See Note 6.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Notes 6 and 7 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (Continued)

Unit Values - Individual participant accounts for the common/collective trusts and pooled separate accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the accounts, but do have an interest therein represented by units valued daily. The accounts earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each separate account are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

NOTES TO FINANCIAL STATEMENTS

(4) **Information prepared and certified by the custodians**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West and Principal, the custodians of the Plan, have certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate with respect to investments and notes receivable from participants:

- Investments at fair value
- Notes receivable from participants
- Net appreciation in fair value of investments
- Interest and dividends
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) **Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

(6) **Guaranteed investment contracts with insurance companies**

The Plan had benefit-responsive guaranteed investment contracts (GIC) with Great-West at December 31, 2013 and Principal at December 31, 2014 and 2013. Great-West and Principal maintain GIC contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. The guaranteed investment contracts are presented on the face of the statements of net assets available benefits at fair value which approximates contract value. Contract value, as reported to the Plan by Great-West and Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuers. Such interest rates are reviewed on a quarterly basis for resetting.

PRENTKE ROMICH COMPANY DEFERRED COMPENSATION PLAN

NOTES TO FINANCIAL STATEMENTS

(6) Guaranteed investment contracts with insurance companies (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the Plan document (including complete or partial termination or merger with another plan.) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Plan participants are probable of occurring.

The guaranteed investment contracts do not permit the insurance companies to terminate the agreement prior to the scheduled maturity date.

(7) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codifications ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

PRENTKE ROMICH COMPANY DEFERRED COMPENSATION PLAN

NOTES TO FINANCIAL STATEMENTS

(7) Fair value measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds and pooled separate accounts: Valued at the NAV of units. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed investment contracts: Valued at fair value by the insurance companies. Since the guaranteed investment contracts are not traded on an open market and public prices are not available, fair value is based on unobservable inputs. As the Plan intends to maintain the guaranteed investment contracts, the best proxy for fair value is possible transactions involving plan participants. Therefore, as most transactions with participants are executed using contract value without adjustment, fair value is deemed to be the same as contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

PRENTKE ROMICH COMPANY DEFERRED COMPENSATION PLAN

NOTES TO FINANCIAL STATEMENTS

(7) Fair value measurements (Continued)

The following table sets forth a summary of changes in the fair value of the Principal guaranteed investment contract (level 3 asset) for the year ended December 31, 2014:

Balance, beginning of year	\$ 296,545
Purchases	221,766
Settlements	<u>(516)</u>
Balance, end of year	<u>\$ 517,795</u>

(8) Tax status

The Internal Revenue Service has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC") and informed Principal of such in a letter dated March 31, 2014. Although the prototype plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(9) Related party transactions and party-in-interest transactions

Certain Plan investments are units of pooled separate accounts and common collective trusts managed by Principal, and a guaranteed investment contract sponsored by Principal. Principal is the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions which are exempt from prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Plan made direct payments to Principal of \$1,320 in 2014, which were not covered by revenue sharing. The plan sponsor pays directly any other fees related to the Plan's operations.

PRENTKE ROMICH COMPANY DEFERRED COMPENSATION PLAN

NOTES TO FINANCIAL STATEMENTS

(10) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) Subsequent events

The Plan has evaluated events through August 25, 2015, which is the date the financial statements were available to be issued. No significant matters were identified for disclosure during this evaluation.
