1. DESCRIPTION OF PLAN:

The following description of the 401(k) Profit Sharing Plan (the "Plan") for John R. Jurgensen & Associated Companies (the "Company" or "Employer") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all salaried employees of the Company who have completed six months or 1,000 hours of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Internal Revenue Code). The Plan also allows for after-tax contributions or Roth 401(k) contributions. The combined pre-tax and after-tax contributions cannot exceed established Internal Revenue Service limits. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various mutual funds and common/collective trusts offered by the Plan. Each year, the Company contributes additional amounts at its discretion. The Company currently contributes (1) 100% of the first 3% and 50% of the next 4% of base compensation that a participant contributes to the Plan, and (2) a special discretionary contribution made each year on behalf of each non-highly compensated participant equal to a percentage (determined each year by the Company) of each participant's compensation. All employer contributions are invested as directed by the participants. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with the participant's contribution and Company contributions, as well as Plan earnings. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account. The loan interest rate is set at 1 percent above the prime rate, as defined. Principal and interest are paid ratably through weekly payroll deductions over a maximum period of five years unless it is for the purchase of a participant's primary residence, in which case the loan repayment may exceed five years.

Forfeited accounts

At December 31, 2014 and 2013 there were \$12,541 and \$4,127 of forfeited non-vested accounts, respectively, available to offset future employer contributions. Forfeitures of \$1,596 were used to offset Company contributions in 2014.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after six years of credited service as shown in the following schedule:

<u>Vesting Years of Service</u>	<u>Percentage</u>
1 but less than 2	15%
2 but less than 3	30%
3 but less than 4	45%
4 but less than 5	60%
5 but less than 6	80%
6 or more years	100%

Payment of benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or various options for monthly annuity payments over their remaining lifetime or the lifetime of their spouse. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution.

2. SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through common/collective trusts. As required by the professional standards, the statements of net assets available for benefits present the fair value of the investment in the common/collective trusts as well as the adjustment of the investment in the common/collective trusts from fair value to contract value relating to the investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to distributions and loans to participants are charged directly to the participant's account and are included in benefits paid to participants. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through August 24, 2015, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE CUSTODIAN:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fifth Third Bank, the custodian, has certified to the completeness and accuracy of all of the investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013 and the schedule of assets (held at end of year) as of December 31, 2014, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014.

4. INVESTMENTS:

Investments that represent 5% or more of the Plan's net assets available for benefits at December 31, 2014 and 2013, are as follows:

	<u>2014</u>	<u>2013</u>
Goldman Sachs Stable Value Coll TR CL I (at contract value)	\$ 6,258,140	6,529,587
American Funds Washington Mutual Fund A	5,862,316	5,402,781
Columbia Mid Cap Index A	5,033,572	*

Federated Mid Cap Index SVC	*	5,948,463
PIMCO Total Return Instl	*	5,137,327

* Represents investment was not held as of December 31.

During the year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by \$(68,488) for mutual funds and by \$150,848 for common/collective trusts.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Valued at the NAV of units of collective trusts. The NAV, as provided by the trust, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the plan to initiate a full redemption of the collective trusts, the investment adviser reserves the right to temporarily delay withdrawal from the trusts in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments are shares of investments managed by Fifth Third Bank. Fifth Third Bank is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

7. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in all their employer contributions.

9. TAX STATUS:

The Internal Revenue Service has determined and informed that Company by letter dated January 21, 2011, that the Plan and related trust are designed to be exempt from income taxes in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended and restated since receiving the determination letter. However, the plan administrator believes the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine tax audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

10. TRANSFER TO THE PLAN:

The Company acquired Cox Paving, LLC near the end of 2013. The funds related to the employees of Cox Paving, LLC were transferred in to the Plan near the beginning of 2014.
