Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Additionally, participants age 50 or older, who are making contributions to the Plan, are allowed to make catch-up contributions, as defined in the plan document. Participants direct the investment of all contributions into various investment options offered by the Plan.

The Company's discretionary matching contributions applicable to the years ended December 31, 2014 and 2013 amounted to \$83,088 and \$75,118, respectively. Additionally, the Company may make discretionary non-elective contributions to the Plan. Allocations of the Company's discretionary non-elective contributions are based upon a participant's compensation as it relates to all eligible participants' compensation. During the years ended December 31, 2014 and 2013, the Company did not make any discretionary non-elective contributions to the Plan. All Company contributions are subject to certain limitations prescribed by the IRC.

Participant investment account options - The Plan currently offers various mutual funds and a collective trust fund as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contributions, the Company's matching contributions, and an allocation of the Company's discretionary non-elective contributions (if any), plus earnings or losses on all contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Forfeitures derived from the Company's discretionary matching contributions are used to reduce future Company discretionary matching contributions. Forfeitures derived from the Company's discretionary non-elective contributions are allocated to remaining participants as an additional discretionary non-elective contribution. During 2014 and 2013, the Company's discretionary matching contributions were reduced by \$0 and \$668, respectively, from forfeited nonvested accounts.

Notes receivable from participants - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at the prime rate in effect at the origination of the note plus 1%, unless that rate is determined to be unreasonable by the plan administrator. Notes with a face value of less than \$2,000 must be repaid to the Plan within three years. Notes with a face value greater than \$2,000 must be repaid within five years. The repayment of a note of any amount may extend up to fifteen years if the funds are used by the participant for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions. Participants may not have more than one note outstanding at any time.

Payment of benefits - On termination of service due to death, disability, or upon reaching normal retirement age as defined in the plan document, participants with a vested interest in their account in excess of \$5,000 may elect to receive payments of their benefits either in the form of a lump sum payment or in annual installments. Participants with a vested interest in their account of less than \$5,000, and/or payments of benefits for other reasons, including distributions qualifying under certain "hardship" rules as prescribed by the Internal Revenue Service (the "IRS"), will be distributed in a lump sum payment.

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents fair value of the Plan's investments as well as an adjustment of fully benefit-responsive investment contracts from fair value to contract value, if applicable. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gains distributions from mutual funds are recorded as dividend income. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income on notes receivable from participants is recorded on the accrual basis. If a participant ceases to make note repayments and the plan administrator deems the note to be in default, the remaining note balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Unit values - Individual participant accounts for the collective trust fund are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the fund, but do have an interest therein represented by units valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

Payment of benefits - Benefits are recorded when paid.

(4) Information prepared and certified by the trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, SunTrust Bank ("SunTrust"), the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedules are complete and accurate with respect to investments:

- Investments at fair value
- Notes receivable from participants
- Net appreciation (depreciation) in fair value of investments
- Dividends and interest
- Interest income on notes receivable from participants
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(5) Fair value measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS

(5) Fair value measurements (continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

The fair value of the investments in the collective trust fund has been estimated using the NAV of the investments. The collective trust fund is redeemed on a daily basis and does not have any redemption restrictions. Additionally, there are no unfunded commitments.

(6) Excess contributions refundable and subsequent event

The Company was notified by SunTrust that the Plan failed a component of its discrimination tests in connection with participant contributions for the year ended December 31, 2004. Accordingly, excess contributions refundable in the amount of \$8,345 were included in the Plan's statement of net assets available for benefits at December 31, 2014. These excess contributions have been refunded to various participants in January 2015.

KB ELECTRONICS, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

(7) Related party transactions and party-in-interest transactions

Certain Plan investments are in funds managed by SunTrust. SunTrust is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid to SunTrust by the Plan for investment management and recordkeeping services totaled \$1,000 and \$1,048 for the years ended December 31, 2014 and 2013, respectively. Other investment related fees incurred by the Plan are included in net appreciation (depreciation) in fair value of investments as they are paid through revenue sharing, rather than as a direct payment. Certain Plan expenses are also paid for by the Company and as such, are not included in the statements of changes in net assets available for benefits.

(8) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company's contributions.

(9) Tax status

The IRS has issued an opinion letter dated March 31, 2008, stating that the prototype plan adopted by the Plan's management is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since the date of this letter and has not received its own determination letter, the Plan's management believes that the Plan is currently being operated in compliance with all applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America requires the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(10) Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

(11) Delinquent participant contributions and subsequent event

Defined contribution plans are required to remit participant contributions to the Plan as soon as they can be reasonably segregated from the employer's general assets. During the year ended December 31, 2014, participant contributions aggregating \$883 were not remitted within the required time period. In January 2015, the Company remitted these delinquent participant contributions, including the resulting lost investment earnings.

(12) Reconciliations of financial statements to Schedule H of Form 5500

(13) Subsequent events

The Plan has evaluated subsequent events through August 25, 2015, which is the date the financial statements were available to be issued. Other than as disclosed in Notes 6 and 11, no significant matters were identified for disclosure during this evaluation.
