HKM 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS

Note 1. Description of Plan

The following description of the HKM 401(k) Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of HKM Direct Market Communications, Inc. (the "Company") who meet the minimum service requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Employees become eligible to participate in the Plan after attaining one year of continuous service and age 21. This eligibility becomes effective on the next January 1, April 1, July 1 or October 1 following 12 consecutive months of employment in which at least 1,000 hours of service are attained.

Contributions:

Participants may make pre-tax contributions of an amount equal to not less than 1% and up to 100% of their compensation, subject to certain limitations imposed by the Internal Revenue Service. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Effective April 1, 2009, the Company elected to suspend the Company match.

Participant Accounts:

Participants' accounts are credited with their contributions along with an allocation of the Company's contribution, Plan investment income and charged with administrative expenses as defined by the Plan agreement. The benefit to which a participant is entitled is the amount that can be provided from the participant's vested account.

Notes Receivable From Participants:

The Plan permits limited borrowing by a participant against the value of his or her account to the extent of payroll contributions made under the Plan and earnings thereon, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of a participant's account balance. The loans are secured by the balance in the participant's account and bear interest at rates of 4.25%, which are commensurate with the prime rate plus 1% on the first business day of the month before the loan is originated. Repayments of principal and interest are credited to the participants' separate accounts within the funds as elected by the participants. Until such repayments are received, the loans receivable are accounted for in the participant loan fund.

Vesting:

A participant has a 100% non-forfeitable vested interest in his or her contributions plus actual earnings thereon. Vesting in the Company's contribution is based on years of continuous service. A participant is 100% vested after six years of credited service (0% in year one, 20% each year thereafter) or in the event of disability, death or retirement of the participant.

HKM 401(k) PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 1. Description of Plan (Continued)

Payment of Benefits:

A participant or his or her beneficiary, upon termination, disability, death or retirement, may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a specified term. Additionally, the Plan has provisions for active participants to make withdrawals from their account, subject to limitations and restrictions.

Forfeitures:

The Plan may utilize forfeitures to offset the Plan's administrative expenses or to reduce future Company contributions, at the Company's discretion. No forfeitures were used to offset administrative expenses for the years ending December 31, 2014 and 2013. At December 31, 2014 and 2013, \$8,836 and \$6,963, respectively, remained as unallocated forfeitures.

Expenses:

Expenses of the Plan are paid by the Company or the Plan at the Company's discretion.

Note 2. Summary of Accounting Policies

- A. Basis of Presentation – The accompanying financial statements have been prepared on the accrual basis of accounting.

The Company has evaluated subsequent events through August 14, 2015, which is the date the financial statements were available to be issued. There are no subsequent events that require disclosure under accounting principles generally accepted in the United States of America.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust fund. Contract value for this common/collective trust fund is based on the net asset value of the fund as reported by the trustee. The statements of net assets available for benefits present the fair value of the investment as well as the adjustment of the investment from fair value to contract value (if applicable). The statement of changes in net assets available for benefits is prepared on a contract value basis.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 2. Summary of Accounting Policies (Continued)

A. Basis of Presentation (Continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

- B. Investment Valuation and Income Recognition** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

- C. Notes Receivable From Participants** – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan agreement.
- D. Use of Estimates** – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.
- E. Payments of Benefits** – Benefits are recorded when paid.
- F. Reclassifications** – Certain reclassifications to prior year amounts were made to conform to current year presentation.

Note 3. Unaudited Information

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified to the completeness and accuracy of all investments and notes receivable reflected in the statements of net assets available for benefits at December 31, 2014 and 2013, the supplemental schedule at December 31, 2014, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2014 and investment related information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Note 4. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Unobservable inputs in which little or no market data exists

The following is a description of the valuation methodologies used for plan assets measured at fair value:

- Registered investment companies: Investments in registered investment companies are determined based on their quoted closing market prices in active markets for identical investments, and are classified as Level 1.
- The investment in the common/collective trust is valued at its closing net asset value as a practical expedient to estimate fair value since this value is the probable selling price of the investment. The net asset value is based primarily on quoted prices of the actual underlying assets or similar assets and is classified as Level 2.

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used at December 31, 2014 and 2013. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level the Plan's assets at fair value as of December 31, 2014 and 2013:

Note 5. Plan Termination

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Note 6. Federal Income Tax Status

The prototype document on which this Plan is based obtained a determination letter, dated March 31, 2008, from the Internal Revenue Service ("IRS"), in which the IRS stated that the basic prototype document and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since the prototype was adopted, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, it believes that the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements. As of December 31, 2014, the Plan's tax years from 2011 and thereafter remain subject to examination by the Internal Revenue Service, as well as various other taxing authorities.

Note 7. Party-in-Interest Transactions

During the year, certain investments were managed by Fifth Third Bank, the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions. In addition, administrative fees paid by the Plan to Fifth Third Bank totaled \$20,972 for the year ended December 31, 2014.

Note 8. Risks and Uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
