NOTE 1. PLAN DESCRIPTION

The following description of the Alliance Bancshares, Inc. 401(k) Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan whereby eligible employees of Alliance Bank (the Bank) are permitted to make pretax contributions that are tax-deferred and after-tax basis (Roth) contributions under Section 401(k) of the Internal Revenue Code. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees become eligible for participation at the age of eighteen and upon completing 90 days of service. Once eligible, employees may enroll on the first day of any month.

Contributions

Each year, a participant may make salary deferral contributions from 1% to 100% of pretax annual compensation, as defined by the plan, subject to certain maximum limitations imposed by the Internal Revenue Code. Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the Internal Revenue Code. Rollover contributions are allowed and may be made prior to meeting the eligibility requirements for participation in the plan. The Bank contributes a matching contribution of up to 4% of compensation.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Bank's matching contributions. Discretionary contributions are allocated to all eligible participants based on compensation. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants vested account.

Investment Options

Participants must direct contributions to selected investments as made available and determined by the plan. Participants may change their investment options any time throughout the year via Internet or direct phone access.

Vesting

Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. The matching contributions are immediately vested under the Plan's "safe-harbor" provisions. The portion of the participants' accounts attributable to the Bank's discretionary contributions vest to participants on a graduated scale of twenty, forty, sixty, eighty and one hundred percent after three, four, five, six and seven years of service, respectively.

Forfeitures

Forfeitures represent the portion of nonvested benefit payments remaining in the Plan for terminated employees. Forfeitures are used to reduce employer matching contributions. Plan assets include no significant unallocated forfeitures at December 31, 2014 and 2013, respectively. No forfeitures were applied toward the employer's contribution for the year ended December 31, 2014.

Payment of Benefits

Upon termination of service, participants may elect to receive an amount equal to the value of the participants' vested interest in his or her account in a lump-sum amount or direct rollover, for distributions that qualify, into another qualified plan or IRA.

Notes Receivable from Participants (Participant Loans)

Participants may borrow from their fund accounts a minimum of $1,000 to a maximum of the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at the prime lending rate. Loan terms range from 1-5 years and loan repayments are made through automatic payroll deductions. If the loan is for the purchase of a principal residence, a longer repayment term may be permitted. A participant may have a maximum of three loans outstanding at a time.

Participant loans are measured at the unpaid principal balance plus accrued but unpaid interest. All participant loans are secured by the participant's account balance. Management considers all loans to be well-collateralized and determined that no allowance was necessary to properly state the receivable balances at December 31, 2014 and 2013.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Determination of Fair Value

In accordance with the *Fair Value Measurements and Disclosures* topic of FASB ASC, the fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument.

The recent fair value guidance provides a consistent definition of fair value, which focuses on exit price in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions. If there has been a significant decrease in the volume and level of activity for the asset or liability, a change in valuation technique or the use of multiple valuation techniques may be appropriate. In such instances, determining the price at which willing market participants would transact at the measurement date under current market conditions depends on the facts and circumstances and requires the use of significant judgment. The fair value is a reasonable point within the range that is most representative of fair value under current market conditions.

Fair Value Hierarchy

In accordance with this guidance, the Plan groups its financial assets and financial liabilities generally measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value.

Level 1 – Valuation is based on quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. Level 1 assets and liabilities generally include securities that are traded in an active exchange market. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 – Valuation is based on inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly. The valuation may be based on quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3 – Valuation is based on unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which determination of fair value requires significant management judgment or estimation.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following methods and assumptions were used by the Plan in estimating fair value disclosures for financial instruments:

Cash and cash equivalents

The carrying amounts of cash and short-term instruments approximate fair values based on the short-term nature of the assets.

Fair values of other interest-bearing deposits are estimated using discounted cash flow analyses based on current rates for similar types of deposits.

Investments

Fair values for investments are based on quoted market prices in an active exchange market. If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments.

Bank holding company common stock

Investment in Alliance Bancshares, Inc. common stock is independently appraised to determine fair value.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Payment of Benefits

Benefits are recorded when paid.

Employer Contributions

Employer Bank contributions are accrued for the plan year to which the contribution is attributed by the Bank's Sponsor.

NOTE 3. ADMINISTRATION OF PLAN ASSETS

The Plan assets were held and managed by Massachusetts Mutual Life Insurance Company (Mass Mutual) as of December 31, 2014. Mass Mutual invests cash received, interest and dividend income as directed by the participants of the plan. Mass Mutual also makes distributions to participants.

Certain administrative functions are performed by employees of the Bank. However, no such employees receive compensation from the plan. Administrative expenses for the Plan's fees are paid by the Bank.

Parties-in-interest are defined under Department of Labor regulations as any fiduciary to the Plan, any party rendering services to the plan, the employer, and certain others. As such, transactions conducted with Alliance Bank and the Trustee, qualify as exempt party-in-interest transactions.

NOTE 4. INFORMATION CERTIFIED BY PLAN TRUSTEE (UNAUDITED)

The plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the Trustee, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule of assets (held at end of year).

The plan's investments and their fair values at December 31, 2014 and 2013 as certified by the plan Trustee are listed below. Investments that represent 5% or more of the Plan's net assets are separately identified.

	2014	2013
Investments, at fair value:		
Alger Capital Appreciation Institutional	703,956	652,620
The Hartford Target Retirement 2010-2050	-	2,369,200
MM Retiresmart Funds	2,637,944	-
BlackRock Equity Dividend	596,792	546,667
Fixed Account	1,810,441	1,855,489

Other Investments	3,825,528	4,065,202
	11,107,685	10,829,286

The Trustee also certified to the completeness and accuracy of $36,543 of net appreciation in fair value of investments for the year ended December 31, 2014.

NOTE 5. FAIR VALUE MEASUREMENTS

Assets and liabilities measured at fair value on a recurring basis are summarized below:

Fair Value Measurements as of December 31, 2014

Description	Quoted Prices in Active markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Carrying Value
Investments	9,574,661	-	-	9,574,661
Bank holding company common stock	-	-	1,533,024	1,533,024
Total assets at fair value	9,574,661	-	1,533,024	11,107,685

Fair Value Measurements as of December 31, 2013

Description	Quoted Prices in Active markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Carrying Value
Investments	9,489,178	-	-	9,489,178
Bank holding company common stock	-	-	1,340,108	1,340,108
Total assets at fair value	9,489,178	-	1,340,108	10,829,286

Fair Value Measurements Using Significant Unobservable Inputs (Level 3)

	Bank Holding Company Common Stock
Balance January 1, 2013	928,452
Increase in fair market value 2013	352,660
Purchases 2013	58,996
Balance December 31, 2013	1,340,108
Increase in fair market value 2014	117,106
Purchases 2014	75,810
Balance December 31, 2014	1,533,024

The methodologies used by the Plan for assets measured at fair value (and described in Note 2 above) may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6. TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter, however, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable requirements of the IRC. The Plan's tax returns for the past three years are subject to examination by tax authorities, and may change upon examination.

NOTE 7. PLAN AMENDMENTS

There were no significant plan amendments during the year ended December 31, 2014.

NOTE 8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Bank has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their entire account.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

NOTE 10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 6, 2015, the date which the financial statements were available to be issued.
