INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

Note 1 Description of Plan

The following description of the Informa USA, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide all employees of Informa USA, Inc. (the "Company"), located within the United States of America, with retirement benefits in accordance with Sections 401(a) and 401(k) of the Internal Revenue Code ("IRC"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

General

During 2014, a certain related qualified defined contribution benefit plan sponsored by the Company was merged into the Plan. In connection with this merger, net assets of \$4,256,558 were transferred into the Plan.

Eligibility

All employees of the Company (except certain employees as defined in the Plan document) who have attained the age of 21 and completed six months of service are eligible to participate in the Plan. Enrollment dates are on the first day of each month.

Participant contributions

Eligible participants may make voluntary contributions through salary reductions from 1% to 75% of eligible pretax annual compensation, limited to the maximum amount allowable under the provisions of the IRC (\$17,500 in 2014). Further, participants who are 50 years of age or older can contribute an additional "catch up" contribution (\$5,500 in 2014).

The plan also allows for participants to defer funds into a "Roth 401(k) deferral." These deferrals are subject to federal income taxes, and the maximum allowable contribution is \$17,500 combined between both the Roth and the pre-tax deferral.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds, a money market fund, a common collective trust and brokerage funds as investment options for participants.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2014 and 2013

Note 1 **Description of Plan (continued)**

Employer contributions

The Company will make a matching contribution of 50 cents for every dollar contributed not to exceed 6% of the participant's eligible compensation. In addition, at the discretion of the board of directors, the Company may make certain additional profit sharing contributions. There were no discretionary profit sharing contributions for the year ended December 31, 2014.

Participants' accounts

Each participant's account is credited with their respective contribution and its allocation of (a) employer contributions and (b) Plan earnings or losses.

Vesting

Participant's voluntary contributions, rollover contributions, and any earnings thereon vest immediately. Vesting in employer matching and profit sharing contributions and any earnings thereon is based on the number of years of continuous service (as defined). Vesting begins after one year of service, with full vesting after completing three years of credited service. In the event of death, disability or attainment of age 55, participant's accounts become fully vested.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Participants may borrow up to 50% of their vested account balance with a minimum of \$1,000 and a maximum of \$50,000. Loans from participants are subject to approval by the plan administrator and terms range from one to five years. However, if the loan is to acquire the principal residence of the participant, the term may be extended to ten years. Further, loans will bear interest at a reasonable percentage interest rate to be determined by the plan administrator and are secured by the balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2014 and 2013

Note 1 **Description of Plan (continued)**

Payment of benefits

Upon termination of employment, retirement, attainment of age 59 ½, death, or disability, the participant or the participant's beneficiary is entitled to receive the vested portion of the participant's account in a single lump-sum, in accordance with Internal Revenue Service ("IRS") regulations and Plan provisions. Certain participants may also elect to receive distributions in the form of an annuity or monthly installments. Withdrawals from the plan are also available for special "hardship" reasons (as defined). Distributions to participants are recorded when paid.

Forfeitures

The Plan provides that forfeitures, the unvested portion of employer contributions for terminated participants, can be used to reduce Company contributions to the remaining Plan participants. The Company used the forfeiture account to reduce its contributions during 2014 by approximately \$43,700. As of December 31, 2014 and 2013, there was \$41,327 and \$33,932, respectively, of forfeitures available to reduce future Company contributions.

Note 2 **Summary of significant accounting policies**

The following is a summary of significant accounting policies followed by the Plan.

Accounting method

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's sponsor determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. All investments are stated at fair value as determined by quoted market prices, except for its benefit-responsive investment contract which is stated at contract value (Note 9). See Note 11 for discussions of fair value measurements.

Accounting standards require investment contracts, held by a defined-contribution plan, to be reported at fair value. However, the contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by accounting standards, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2014 and 2013

Note 2 **Summary of significant accounting policies (continued)**

Investment valuation and income recognition (continued)

Realized gains and losses on investments sold and the unrealized appreciation and depreciation of investments held are reported on an average current cost basis, based on fair market value of the investments at the beginning of the Plan year or at the time of purchase during the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Use of estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that could affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Administrative expenses

The Company may, at its discretion, pay the expenses incident to administering the Plan. In the event that the Company does not pay the Plan expenses, the expenses shall be paid by the Plan. During 2014, all expenses incurred in the administration of the Plan other than fund transfer fees and loan fees were charged to and paid by the Company.

Fair value

Accounting standards provide a common definition of fair value and establishes a framework to make the measurement of fair value in generally accepted accounting principles more consistent and comparable. Accounting standards also require expanded disclosures to provide information about the extent to which fair value is used to measure certain financial assets and liabilities, the methods and assumptions used to measure fair value, and the effect of fair value measures on earnings. The Plan's financial assets and liabilities reflected in the financial statements at fair value include its investments (see Note 11).

Subsequent events

The Company has evaluated subsequent events through August 25, 2015, which is the date the financial statements were available to be issued.

During the Plan year ended December 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated by \$2,756,251.

Note 4 Information certified by the Plan's trustee (unaudited)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity Management Trust Company ("Fidelity"), the trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental Schedule H, line 4i – Schedule of Assets (Held at End of Year):

<u>Investments</u>	December 31, <u>2014</u>	December 31, <u>2013</u>

Brokerage Funds	3,481,336	2,737,803
Notes Receivable from Participants	1,079,899	933,443

The trustee also certified to the completeness and accuracy of \$2,756,251 of net depreciation in fair value of investments and \$9,253,888 of interest and dividend income related to the aforementioned investments and notes receivable from participants for the year ended December 31, 2014.

INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2014 and 2013

Note 5 **Related party transactions**

Certain Plan investments are shares of mutual funds managed by Fidelity. Fidelity is the trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

Note 6 **Tax status**

The Plan operates under a prototype plan which has received a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, indicating that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC.

The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Financial Accounting Standards Board has issued a standard regarding the accounting and recognition of income tax positions taken or expected to be taken by the Plan. The plan administrator assesses the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 7 **Plan termination**

Although it has not expressed any interest to do so, the Board of Directors of the Company may, at its discretion, terminate the Plan at any time, subject to the provisions set forth in ERISA. In the event that the Plan and the related trust terminate, all accounts will be valued as of the termination date, and all accounts will be distributed in full to participants.

INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2014 and 2013

Note 8 Risks and uncertainties

The Plan provides for various options in accounts which invest in combinations of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that these changes would, in the near term, materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Note 9 Investment contracts

The Plan invests a portion of its assets in a common collective trust. The assets within the trust are invested in Fidelity Managed Income Portfolio Fund (the "Fund"). The Fund holds various investment contracts with insurance companies and banks consisting mainly of synthetic wrap contracts. All of the contracts within the Fund are fully benefit-responsive. The contract is included in the statements of net assets available for benefits at fair value as determined based on the contractual terms of the underlying contracts. The adjustment from fair value to contract value for the investment contracts is based on the contract value as reported to the Plan by Fidelity.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawals or transfers of all or a portion of their investment at contract value.

The fair value of the contracts at December 31, 2014 and 2013, were \$823,704, and \$657,655, respectively. The average yields were 1.67% and 1.54% and the crediting interest rates were 1.07% and 0.89% for the years ended December 31, 2014 and 2013, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed quarterly for resetting.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value. The plan administrator believes the occurrence of such events that would also limit the Plan's ability to transact at contract value with Plan participants is not probable.

Net increase in net assets available for benefits per the form 5500		\$ <u>10,508,793</u>

Note 11 **Fair value measurements**

Accounting standards require that financial assets and liabilities, recognized or disclosed in financial statements on a recurring basis (at least annually), be measured at fair value. These standards define fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

These standards also establish a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. These standards describe three levels of inputs that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities that are accessible at the measurement date.

INFORMA USA, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

December 31, 2014 and 2013

Note 11 **Fair value measurements (continued)**

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities in active markets; quoted prices for similar assets or liabilities in markets that are not active; or model-derived valuations or other inputs that are observable or can be corroborated by observable market data for the assets or liabilities.

Level 3 - Unobservable inputs for the asset or liability. These inputs reflect the Plan's assumptions about the assumptions a market participant would use in pricing the asset or liability.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 and Level 3 inputs are only used when higher level inputs are not available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market funds: Valued at the closing price reported by the fund sponsor from an actively traded exchange.

Brokerage funds: Consists of mutual funds and money market funds. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds are open-ended funds that are registered with the Securities and Exchange Commission and deemed to be actively traded. These funds are required to publish their daily NAV and to transact at that price. Money market funds are valued at the closing price reported by the fund sponsor from an actively traded exchange.

Common collective trust fund: The fair value is based on the contractual terms of the underlying contracts.

Note 11 **Fair value measurements (continued)**

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes the valuation of the Plan's financial assets at December 31, 2014:

The following table summarizes the investment measured at fair value based on NAV per share as of December 31, 2014 and 2013, respectively.

	Fair Value at 12/31/14	Unfunded Commitments	Redemptions Frequency (If currently eligible)	Redemption Notice Period

	Fair Value at 12/31/13	Unfunded Commitments	Redemptions Frequency (If currently eligible)	Redemption Notice Period
Common collective trust fund	657,655	N/A	Daily	None

Common collective trust fund: Trust for the collective investment and reinvestment of assets contributed from employee benefit plans maintained by more than one plan. The primary investment objective is to seek the preservation of capital, as well as to provide a competitive level of income over time constituent with the preservation of capital. It is based on the contractual terms of the underlying guaranteed investment contracts and provides a daily mil-rate for income accretion. It is priced daily at a blend of the contract's rate of return and the liquidity component's daily mil-rate. The rate of return is typically reset on a quarterly basis.

The Company has evaluated subsequent events through August 25, 2015, which is the date the financial statements were available to be issued. On January 2, 2015, a related plan transferred \$30,762,012 into the Plan.
