ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees

Notes to the Financial Statements

1. Plan Description

The following description of the ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan covering substantially all full-time and certain part-time non-union employees of ABARTA, Inc. (the Company and Plan Sponsor) and its subsidiaries: The Cleveland Coca-Cola Bottling Company, Inc.; Coca-Cola Bottling Company of Buffalo, Inc.; Coca-Cola Bottling Company of the Lehigh Valley; Coatesville Coca-Cola Bottling Works, Inc.; ABARTA Oil & Gas Company, Inc. and South Jersey Publishing Company. The Company is the plan administrator that controls and manages the operation and administration of the Plan. The plan investments and participant loans are held by Fidelity, the trustee.

A full-time employee who has reached the age of 21 becomes eligible to participate in the Plan immediately. A part-time employee who has reached the age of 21 and completed 1,000 hours of service becomes eligible to participate in the Plan immediately.

Effective February 2015, the Plan was amended to remove the age requirement of 21 as an eligibility requirement to participate in the Plan. The Plan was also amended to include automatic enrollment for all newly eligible employees.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Entry dates are the first day of each month during the year.

Contributions

Participants may contribute up to 60% of their annual eligible compensation to the Plan, subject to certain Internal Revenue Code (IRC) limitations.

In any calendar year in which a participant is age 50 or older, an additional "catch-up contribution" (limited to \$5,500 in 2014 and 2013) may be made. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may make discretionary matching contributions, as determined by the Company's Board of Directors, to the Plan. There were no discretionary matching contributions during 2014 and 2013.

Effective July 2015, the Plan was amended to provide certain participants a special one-time employer contribution and to be eligible for employer matching contributions. Eligible employees are those not part of a collective bargaining agreement, participants in the ABARTA, Inc. Pension Plan and were hired on or after September 1, 2010 and before September 1, 2015.

The special one-time contribution ranges from 1% to 4% and is based on the participant's date of hire. Participants eligible for employer matching contributions will receive 50% of the first 6% of compensation contributed to the Plan.

1. Plan Description (Continued)

Participant Accounts

The plan administrator maintains separate participant accounts for each participant. Each participant's account is credited with their voluntary and rollover contributions plus any Company discretionary matching contributions and with an allocation of plan earnings. Allocations of plan earnings are based on the participant's proportionate share of any investment earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants' contributions and Company discretionary matching contributions and earnings thereon are fully vested at all times.

Effective July 2015, the one-time contribution supplement and employer matching contributions are subject to a three-year vesting schedule.

Benefits

Upon termination of service due to death, disability, retirement, or for other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment distributions in substantially equal amounts over a period of time. If a participant's account balance is less than or equal to \$1,000 at the time of termination, the employee will automatically receive a lump-sum payment.

Subject to limitations of the plan agreement, the plan participant may apply to the Plan for a hardship withdrawal. A hardship withdrawal may be granted to a plan participant for an event considered to be an immediate and heavy financial need of the participant, in accordance with the IRC.

At December 31, 2014 and 2013, there were no significant amounts allocated to accounts of individuals who have withdrawn from the Plan but have not been paid.

Notes Receivable From Participants

Participants may borrow up to the lesser of 50% of their individual vested account balance or \$50,000, reduced by the participant's highest outstanding loan balance during the prior 12 months. The minimum amount a participant may borrow is \$1,000. A participant may not have more than two loans outstanding at any time. Loan repayment terms may not exceed 60 months unless the loan is granted for the purpose of acquiring the participant's principal residence. In such instances, repayment can be over a reasonable time period that may not exceed 120 months. The loans are collateralized by the vested interest in the participant's accounts and bear interest at a rate commensurate with local market rates for similar loans. The current loans bear interest at rates ranging from 4.25% to 8.25%.

1. Plan Description (Continued)

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are maintained on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation, Income Recognition and Risks

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers the assumptions that market participants would use when pricing the asset or liability.

The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Notes to the Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds are public investment vehicles valued using the net asset value provided by the administrator of the fund on the last day of the Plan's year end using a quoted price in an active market and are classified within Level 1 of the fair value hierarchy.

The Plan's investment in the Managed Income Portfolio (the Fund) is a fully benefit-responsive investment contract in a stable value common collective trust fund. The investment contract is presented at fair value with an adjustment to contract value. Investment contracts are generally permitted to be valued at contract value, rather than fair value, to the extent they are fully benefit-responsive because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fully benefit-responsive investment contracts are included at fair value in the investments of the Plan and are adjusted to contract value in the statements of net assets available for benefits. The statement of changes in net assets available for benefits is prepared on a contract value basis. Collective investment trusts are public investment vehicles valued using the net asset value (NAV) provided by the trustee on the last day of the Plan's year end. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the fair value hierarchy. The Plan's participants may exchange units in the Fund on a daily basis with minimal restrictions. The Plan is required to provide one year redemption notice to liquidate its entire share in the Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on securities sold or redeemed are determined on specific identification. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

Notes to the Financial Statements (Continued)

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Administrative expenses are paid by the Company or the Plan, as provided by the plan document.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued updated guidance to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. The practical expedient criteria differ from the criteria used to categorize other fair value measurements within the hierarchy. Currently, investments valued using the practical expedient are categorized within the fair value hierarchy on the basis of whether the investment is redeemable with the investee at NAV on the measurement date, never redeemable with the investee at NAV, or redeemable with the investee at NAV at a future date. Under this updated guidance, investments for which fair value is measured at NAV per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. The guidance is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, and should be applied retrospectively. The retrospective approach requires that an investment for which fair value is measured using the NAV per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity's financial statements. Earlier application is permitted.

Consideration of Subsequent Events

The Plan Sponsor evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through August 24, 2015, the day the financial statements were approved and authorized for issue.

*Did not meet 5% threshold

The net appreciation (depreciation) in the Plan's investments, including investments bought, sold and held during the year, was related to mutual funds in 2014 and 2013.

4. Certification of Financial Information

Fidelity, the trustee of the Plan, has certified that the investment information related to investments and notes receivable from participants summarized in the statements of net assets available for plan benefits and in the statements of changes in net assets available for plan benefits as of and for the years ended December 31, 2014 and 2013 is complete and accurate.

5. Exempt Parties-in-interest Transactions

The Plan's investments in mutual funds and in the collective investment trust are with Fidelity. Certain mutual funds and the collective investment trust are sponsored and advised by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for custodian and recordkeeping services were not significant for the years ended December 31, 2014 and 2013. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

6. Tax Status

The Plan Sponsor has adopted a prototype plan of Fidelity. Fidelity obtained a letter dated March 31, 2014, in which the Internal Revenue Service stated its opinion that the form of the prototype plan of Fidelity is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The Plan has since been amended. The plan administrator, the trustee and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Notes to the Financial Statements (Continued)

6. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to Schedule H of Form 5500 as of December 31:

	2014	2013
Net assets available for plan benefits per the financial statements	\$ 26,374,715	\$ 28,149,231
Adjustment from fair value to contract value for interest in collective investment trust relating to fully benefit-responsive investment contracts	47,261	54,411
Net Assets Available for Plan Benefits per Schedule H of Form 5500	\$ 26,421,976	\$ 28,203,642

The following is a reconciliation of total additions per the financial statements to Schedule H of Form 5500 for the years ended December 31:

	2014	2013
Total additions per the financial statements	\$ 2,575,399	\$ 6,801,294

The collective investment trust is carried at fair value in the Plan's financial statements and contract value in the Plan's Form 5500.

ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees

Notes to the Financial Statements

1. Plan Description

The following description of the ABARTA, Inc. Deferred Compensation 401(k) Savings Plan for Non-Union Employees (the Plan) provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a participant-directed defined contribution plan covering substantially all full-time and certain part-time non-union employees of ABARTA, Inc. (the Company and Plan Sponsor) and its subsidiaries: The Cleveland Coca-Cola Bottling Company, Inc.; Coca-Cola Bottling Company of Buffalo, Inc.; Coca-Cola Bottling Company of the Lehigh Valley; Coatesville Coca-Cola Bottling Works, Inc.; ABARTA Oil & Gas Company, Inc. and South Jersey Publishing Company. The Company is the plan administrator that controls and manages the operation and administration of the Plan. The plan investments and participant loans are held by Fidelity, the trustee.

A full-time employee who has reached the age of 21 becomes eligible to participate in the Plan immediately. A part-time employee who has reached the age of 21 and completed 1,000 hours of service becomes eligible to participate in the Plan immediately.

Effective February 2015, the Plan was amended to remove the age requirement of 21 as an eligibility requirement to participate in the Plan. The Plan was also amended to include automatic enrollment for all newly eligible employees.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Entry dates are the first day of each month during the year.

Contributions

Participants may contribute up to 60% of their annual eligible compensation to the Plan, subject to certain Internal Revenue Code (IRC) limitations.

In any calendar year in which a participant is age 50 or older, an additional "catch-up contribution" (limited to \$5,500 in 2014 and 2013) may be made. Participants may also contribute amounts representing distributions from other qualified plans.

The Company may make discretionary matching contributions, as determined by the Company's Board of Directors, to the Plan. There were no discretionary matching contributions during 2014 and 2013.

Effective July 2015, the Plan was amended to provide certain participants a special one-time employer contribution and to be eligible for employer matching contributions. Eligible employees are those not part of a collective bargaining agreement, participants in the ABARTA, Inc. Pension Plan and were hired on or after September 1, 2010 and before September 1, 2015.

The special one-time contribution ranges from 1% to 4% and is based on the participant's date of hire. Participants eligible for employer matching contributions will receive 50% of the first 6% of compensation contributed to the Plan.

Participant Accounts

The plan administrator maintains separate participant accounts for each participant. Each participant's account is credited with their voluntary and rollover contributions plus any Company discretionary matching contributions and with an allocation of plan earnings. Allocations of plan earnings are based on the participant's proportionate share of any investment earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants' contributions and Company discretionary matching contributions and earnings thereon are fully vested at all times.

Effective July 2015, the one-time contribution supplement and employer matching contributions are subject to a three-year vesting schedule.

Benefits

Upon termination of service due to death, disability, retirement, or for other reasons, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment distributions in substantially equal amounts over a period of time. If a participant's account balance is less than or equal to \$1,000 at the time of termination, the employee will automatically receive a lump-sum payment.

Subject to limitations of the plan agreement, the plan participant may apply to the Plan for a hardship withdrawal. A hardship withdrawal may be granted to a plan participant for an event considered to be an immediate and heavy financial need of the participant, in accordance with the IRC.

At December 31, 2014 and 2013, there were no significant amounts allocated to accounts of individuals who have withdrawn from the Plan but have not been paid.

Notes Receivable From Participants

Participants may borrow up to the lesser of 50% of their individual vested account balance or \$50,000, reduced by the participant's highest outstanding loan balance during the prior 12 months. The minimum amount a participant may borrow is \$1,000. A participant may not have more than two loans outstanding at any time. Loan repayment terms may not exceed 60 months unless the loan is granted for the purpose of acquiring the participant's principal residence. In such instances, repayment can be over a reasonable time period that may not exceed 120 months. The loans are collateralized by the vested interest in the participant's accounts and bear interest at a rate commensurate with local market rates for similar loans. The current loans bear interest at rates ranging from 4.25% to 8.25%.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are maintained on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation, Income Recognition and Risks

Fair value is defined as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at a measurement date. When determining the fair value measurements for assets and liabilities required to be recorded at fair value, the Plan considers the principal or most advantageous market in which it would transact and considers the assumptions that market participants would use when pricing the asset or liability.

The three levels of inputs that may be used to measure fair value are as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices in active markets for identical assets and liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs that are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation, Income Recognition and Risks (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual funds are public investment vehicles valued using the net asset value provided by the administrator of the fund on the last day of the Plan's year end using a quoted price in an active market and are classified within Level 1 of the fair value hierarchy.

The Plan's investment in the Managed Income Portfolio (the Fund) is a fully benefit-responsive investment contract in a stable value common collective trust fund. The investment contract is presented at fair value with an adjustment to contract value. Investment contracts are generally permitted to be valued at contract value, rather than fair value, to the extent they are fully benefit-responsive because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fully benefit-responsive investment contracts are included at fair value in the investments of the Plan and are adjusted to contract value in the statements of net assets available for benefits. The statement of changes in net assets available for benefits is prepared on a contract value basis. Collective investment trusts are public investment vehicles valued using the net asset value (NAV) provided by the trustee on the last day of the Plan's year end. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within Level 2 of the fair value hierarchy. The Plan's participants may exchange units in the Fund on a daily basis with minimal restrictions. The Plan is required to provide one year redemption notice to liquidate its entire share in the Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on securities sold or redeemed are determined on specific identification. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these investments and the level of uncertainty related to changes in the value of these investments, it is at least reasonably possible that changes in the near term could materially affect the amounts reported in the statements of net assets available for plan benefits and the statements of changes in net assets available for plan benefits.

2. Summary of Significant Accounting Policies (Continued)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Administrative Expenses

Administrative expenses are paid by the Company or the Plan, as provided by the plan document.

Benefit Payments

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued updated guidance to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. The practical expedient criteria differ from the criteria used to categorize other fair value measurements within the hierarchy. Currently, investments valued using the practical expedient are categorized within the fair value hierarchy on the basis of whether the investment is redeemable with the investee at NAV on the measurement date, never redeemable with the investee at NAV, or redeemable with the investee at NAV at a future date. Under this updated guidance, investments for which fair value is measured at NAV per share (or its equivalent) using the practical expedient should not be categorized in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. The guidance is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years, and should be applied retrospectively. The retrospective approach requires that an investment for which fair value is measured using the NAV per share practical expedient be removed from the fair value hierarchy in all periods presented in an entity's financial statements. Earlier application is permitted.

Consideration of Subsequent Events

The Plan Sponsor evaluated subsequent events and transactions for potential recognition or disclosure in the financial statements through August 24, 2015, the day the financial statements were approved and authorized for issue.

*Did not meet 5% threshold

The net appreciation (depreciation) in the Plan's investments, including investments bought, sold and held during the year, was related to mutual funds in 2014 and 2013.

4. Certification of Financial Information

Fidelity, the trustee of the Plan, has certified that the investment information related to investments and notes receivable from participants summarized in the statements of net assets available for plan benefits and in the statements of changes in net assets available for plan benefits as of and for the years ended December 31, 2014 and 2013 is complete and accurate.

5. Exempt Parties-in-interest Transactions

The Plan's investments in mutual funds and in the collective investment trust are with Fidelity. Certain mutual funds and the collective investment trust are sponsored and advised by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for custodian and recordkeeping services were not significant for the years ended December 31, 2014 and 2013. These transactions are not, however, considered prohibited transactions under Section 408(b) of the ERISA regulations.

6. Tax Status

The Plan Sponsor has adopted a prototype plan of Fidelity. Fidelity obtained a letter dated March 31, 2014, in which the Internal Revenue Service stated its opinion that the form of the prototype plan of Fidelity is acceptable under Section 401 of the IRC for use by employers for the benefit of their employees. The Plan has since been amended. The plan administrator, the trustee and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a taxing authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

7. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for plan benefits per the financial statements to Schedule H of Form 5500 as of December 31:

	2014	2013
Net assets available for plan benefits per the financial statements	\$ 26,374,715	\$ 28,149,231
Adjustment from fair value to contract value for interest in collective investment trust relating to fully benefit-responsive investment contracts	47,261	54,411
Net Assets Available for Plan Benefits per Schedule H of Form 5500	\$ 26,421,976	\$ 28,203,642

The following is a reconciliation of total additions per the financial statements to Schedule H of Form 5500 for the years ended December 31:

	2014	2013
Total additions per the financial statements	\$ 2,575,399	\$ 6,801,294
Change in the fair value adjustment for the collective investment trust	(7,150)	(88,374)
Additions per Schedule H of Form 5500	\$ 2,568,249	\$ 6,712,920

The collective investment trust is carried at fair value in the Plan's financial statements and contract value in the Plan's Form 5500.
