The Plan is a defined contribution profit sharing plan established by Felling Trailers, Inc. (“the Company”) to provide retirement benefits to substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the administrator and sponsor of the Plan and has appointed Great-West Trust Company, LLC (“the Custodian”) as custodian of the Plan. The Custodian is responsible for holding the investment assets of the Plan and making distributions according to the Plan’s provisions. In addition, the Custodian provides recordkeeping and reporting services for the Plan. Effective January 1, 2014, the Plan was amended to terminate the Plan’s safe harbor matching contribution, to reduce the eligibility age from 20 to 18, to reduce the required service requirement from one year to six months of service, and to expand the plan entry dates from semi-annual enrollment to quarterly. Upon enrollment in the Plan, a participant may direct contributions to any combination of investment options.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation (salary reduction contributions), as defined in the Plan. Roth contributions are another option for participants to designate salary deferral contributions. Roth contributions are made on an after-tax basis and, together with pre-tax salary deferrals, are counted toward the maximum allowable salary deferral. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Plan allows participants age 50 and older to make catch-up contributions. Effective January 1, 2014 the Company made employer matching contributions for contributing participants equal to 33% of each participant's elective deferral up to 10% of the participant's compensation, subject to the Internal Revenue Service limitations. Employer matching contributions are allocated in a nondiscriminatory manner based upon participant’s elective deferrals. Additional employer discretionary matching contributions and nonelective contributions may be contributed at the discretion of the Company’s Board of Directors. No nonelective contributions were made for the year ended December 31, 2014 and 2013.

NOTE 1: Description of the Plan (continued)

Participant's Accounts

Each participant's account is credited with the participant's salary reduction contributions, employer matching contributions, rollover contributions and an allocation of the Plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. A participant's investment allocation for current and future contributions can be changed on any business day at the discretion of the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions, prior year safe harbor matching contributions and any rollover contributions plus actual earnings thereon. Participants, who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan, are considered 100% vested. The Company's employer discretionary matching and nonelective contributions and earnings thereon vest in accordance with provisions on the Plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
Less than 2 years	0%
2 year	20%
3 years	40%
4 years	60%
5 years	80%
6 years and above	100%

For purposes of determining the extent to which a participant is vested, a year of service is a consecutive twelve-month period in which the participant is credited with 1,000 hours of service.

Notes Receivable from Participants

The Plan does not permit participants to take a loan from the Plan.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan agreement. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants may withdraw a portion of this account balance for hardship and "in-

service” situations, as defined in the Plan. Account balances of terminated participants with balances of \$1,000 or less may be subject to mandatory cash out as defined in the Plan.

Forfeited Accounts

Forfeitures (non-vested benefits) from terminated participants’ accounts are first used to pay the Company’s plan expenses then may be used to reduce the Company’s matching contributions, subject to the terms of the Plan. At December 31, 2014 and 2013 the Plan had \$21 and \$10 in forfeited non-vested accounts.

NOTE 2: Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The financial statements of the Plan have been prepared on the accrual basis of accounting.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan’s management to use estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan’s investments are held by the Custodian and are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation/ (depreciation) include the plan’s gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015

NOTE 2: Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of participant withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses may be included in appreciation of fair value of investments.

Subsequent Events

The plan has evaluated subsequent events through July 7, 2014, the date the financial statements were available to be issued. No material events or transactions have occurred during this period which would render these financial statements to be misleading.

The Company made a plan restatement effective January 1, 2015 to provide for auto enrollment for eligible employees at a 4% deferral rate, allow in-plan Roth rollovers and transfers, and to mandate transfers to an IRA account for vested participant balances of terminated employees which are over \$1,000 and under \$5,000.

NOTE 3: Information Certified by the Plan's Custodian

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, and net appreciation/depreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Custodian.

NOTE 4: Investments

The following presents investments that represent 5% or more of the Plan's net assets.

	2014	2013
Registered investment companies	(\$ 135,089)	\$ 295,789

NOTE 5: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are adjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Felling Trailers, Inc. 401(k) Plan

Notes to the Financial Statements December 31, 2014 and 2013

NOTE 5: Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered Investment Company Funds: Share Prices/Net Asset Values (NAVs) reported on the Plan Summary Reports for NAV mutual funds are generally obtained from a file feed from the National Securities Clearing Corporation, and/or directly from the fund house, or a secondary pricing source, such as Interactive Data Corporation (IDC).

Fixed Annuities: The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly. The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013.

Note 6: Annuity Contract

The Plan has entered into an investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Great-West is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Fair value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of a portion of their investment at this value. Certain withdrawal limitations are imposed on participant initiated transfers between funds occurring within a twelve month period. If the investment contract with the custodian is discontinued, the value of the accounts will be paid at adjusted market value and liquidation charges may apply (liquidation value).

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed periodically for resetting. The crediting rates as of December 31, 2014 and 2013 were 1.25% and 1.26%, respectively.

NOTE 7: Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares in mutual funds and annuity insurance contracts managed by the custodian of the Plan. Accordingly, any related transactions qualify as party-in-interest transactions. The

Felling Trailers, Inc. 401(k) Plan

NOTE 7: Related-Party and Party-in-Interest Transactions (continued)

Plan made direct payments to the third party administrator and investment advisors which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations.

NOTE 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 9: Income Tax Status

The Company adopted a non-standardized prototype safe harbor 401k Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, in which the IRS stated that the non-standardized Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter. The Plan Administrator and the Plan's tax counsel believe that the Plan, as amended, is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is still qualified under Section 401(a) and the related trust was tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE 10: Risks and Uncertainties

The Plan invests in various investments in mutual funds and annuity contracts. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment

securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Felling Trailers, Inc. 401(k) Plan

Notes to the Financial Statements December 31, 2014 and 2013

NOTE 1: Description of the Plan

The following description of the Felling Trailers, Inc. 401(k) Plan (“the Plan”) provides only general information. Participants and other interested readers should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution profit sharing plan established by Felling Trailers, Inc. (“the Company”) to provide retirement benefits to substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company is the administrator and sponsor of the Plan and has appointed Great-West Trust Company, LLC (“the Custodian”) as custodian of the Plan. The Custodian is responsible for holding the investment assets of the Plan and making distributions according to the Plan’s provisions. In addition, the Custodian provides recordkeeping and reporting services for the Plan. Effective January 1, 2014, the Plan was amended to terminate the Plan’s safe harbor matching contribution, to reduce the eligibility age from 20 to 18, to reduce the required service requirement from one year to six months of service, and to expand the plan entry dates from semi-annual enrollment to quarterly. Upon enrollment in the Plan, a participant may direct contributions to any combination of investment options.

Contributions

Each year, participants may contribute up to 100% of pretax annual compensation (salary reduction contributions), as defined in the Plan. Roth contributions are another option for participants to designate salary deferral contributions. Roth contributions are made on an after-tax basis and, together with pre-tax salary deferrals, are counted toward the maximum allowable salary deferral. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). The Plan allows participants age 50 and older to make catch-up contributions. Effective January 1, 2014 the Company made employer matching contributions for contributing participants equal to 33% of each participant's elective deferral up to 10% of the participant's compensation, subject to the Internal Revenue Service limitations. Employer matching contributions are allocated in a nondiscriminatory manner based upon participant’s elective deferrals. Additional employer discretionary matching contributions and nonelective contributions may be contributed at the discretion of the Company’s Board of Directors. No nonelective contributions were made for the year ended December 31, 2014 and 2013.

Felling Trailers, Inc. 401(k) Plan

Notes to the Financial Statements December 31, 2014 and 2013

NOTE 1: Description of the Plan (continued)

Participant's Accounts

Each participant's account is credited with the participant's salary reduction contributions, employer matching contributions, rollover contributions and an allocation of the Plan earnings (net of administrative expenses). Allocations are based on the participant's eligible compensation or account balances, as defined in the Plan. A participant's investment allocation for current and future contributions can be changed on any business day at the discretion of the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary reduction contributions, prior year safe harbor matching contributions and any rollover contributions plus actual earnings thereon. Participants, who leave the Plan because of death, early or normal retirement, or disability retirement, as defined in the Plan, are considered 100% vested. The Company's employer discretionary matching and nonelective contributions and earnings thereon vest in accordance with provisions on the Plan as follows:

<u>Vesting Years of Service</u>	<u>Percentage Vested</u>
Less than 2 years	0%
2 year	20%
3 years	40%
4 years	60%
5 years	80%
6 years and above	100%

For purposes of determining the extent to which a participant is vested, a year of service is a consecutive twelve-month period in which the participant is credited with 1,000 hours of service.

Notes Receivable from Participants

The Plan does not permit participants to take a loan from the Plan.

Payment of Benefits

Benefits may be paid to the participant or beneficiary upon death, disability, retirement or termination of employment, as defined in the Plan agreement. The Plan provides for normal retirement at age 65. The total vested portion of a participant's account balance is distributed in the form of a lump-sum payment or installments. Participants may withdraw a portion of this account balance for hardship and "in-

service” situations, as defined in the Plan. Account balances of terminated participants with balances of \$1,000 or less may be subject to mandatory cash out as defined in the Plan.

Forfeited Accounts

Forfeitures (non-vested benefits) from terminated participants’ accounts are first used to pay the Company’s plan expenses then may be used to reduce the Company’s matching contributions, subject to the terms of the Plan. At December 31, 2014 and 2013 the Plan had \$21 and \$10 in forfeited non-vested accounts.

NOTE 2: Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The financial statements of the Plan have been prepared on the accrual basis of accounting.

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan’s management to use estimates and assumptions that affect the reported amount of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan’s investments are held by the Custodian and are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation/ (depreciation) include the plan’s gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to March 15, 2015

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of participant withdrawals are charged directly to the participant's account and are included in administrative expenses. Investment related expenses may be included in appreciation of fair value of investments.

Subsequent Events

The plan has evaluated subsequent events through July 7, 2014, the date the financial statements were available to be issued. No material events or transactions have occurred during this period which would render these financial statements to be misleading.

The Company made a plan restatement effective January 1, 2015 to provide for auto enrollment for eligible employees at a 4% deferral rate, allow in-plan Roth rollovers and transfers, and to mandate transfers to an IRA account for vested participant balances of terminated employees which are over \$1,000 and under \$5,000.

NOTE 3: Information Certified by the Plan's Custodian

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, and net appreciation/depreciation in fair value of investments, interest and dividends for the year ended December 31, 2014, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Custodian.

NOTE 4: Investments

Registered investment companies	(\$ 135,089)	\$ 295,789

NOTE 5: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are adjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to the Financial Statements December 31, 2014 and 2013

NOTE 5: Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered Investment Company Funds: Share Prices/Net Asset Values (NAVs) reported on the Plan Summary Reports for NAV mutual funds are generally obtained from a file feed from the National Securities Clearing Corporation, and/or directly from the fund house, or a secondary pricing source, such as Interactive Data Corporation (IDC).

Fixed Annuities: The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly. The reported values for fixed annuity options are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

The following tables set forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013.

Note 6: Annuity Contract

The Plan has entered into an investment contract with Great-West Life & Annuity Insurance Company (Great-West). Great-West maintains the contributions in a general account which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Great-West is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Fair value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of a portion of their investment at this value. Certain withdrawal limitations are imposed on participant initiated transfers between funds occurring within a twelve month period. If the investment contract with the custodian is discontinued, the value of the accounts will be paid at adjusted market value and liquidation charges may apply (liquidation value).

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed periodically for resetting. The crediting rates as of December 31, 2014 and 2013 were 1.25% and 1.26%, respectively.

NOTE 7: Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares in mutual funds and annuity insurance contracts managed by the custodian of the Plan. Accordingly, any related transactions qualify as party-in-interest transactions. The

NOTE 7: Related-Party and Party-in-Interest Transactions (continued)

Plan made direct payments to the third party administrator and investment advisors which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the plan's operations.

NOTE 8: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.

NOTE 9: Income Tax Status

The Company adopted a non-standardized prototype safe harbor 401k Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2008, in which the IRS stated that the non-standardized Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the opinion letter. The Plan Administrator and the Plan's tax counsel believe that the Plan, as amended, is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan is still qualified under Section 401(a) and the related trust was tax-exempt at the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE 10: Risks and Uncertainties

The Plan invests in various investments in mutual funds and annuity contracts. These investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment

securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
