NOTES TO FINANCIAL STATEMENTS

Ogden Publishing Corporation Section 401(k) Retirement Plan and Trust

1 Description of Plan

The following description of the Ogden Publishing Corporation Section 401(k) Retirement Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all common law employees of the Employer who have completed one "Year of Service" (as defined by the Plan) and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions:

Participant Elected Contributions - Participants may elect salary reduction contributions in an amount between 1% and 25% of their compensation. Participants may increase or decrease the amount of contributions made to the Plan on any business day effective with the next pay.

Rollover and Transfer Contributions - Rollover contributions from other plans are also accepted, provided certain specified conditions are met.

Employer Discretionary Matching Contribution – Ogden Publishing Corporation (the "Company"), at its sole discretion, may contribute matching funds to the Plan, determined on an annual basis. The contribution amount, if any, will be determined as a percentage of each participant's elected contribution. Participants that have completed at least 1,000 hours of service and are employed on the last day of the Plan year are eligible if the Employer elects to make matching contributions.

The Employer matching contribution for 2014 and 2013 was fifty percent (50%) of the first four percent (4%) of the participants' compensation deferred pursuant to a Salary Reduction Agreement.

Employer Discretionary Profit Sharing Contribution - On an annual basis, the Company, at its sole discretion, may make a profit sharing contribution to the Plan. These funds are allocated to all eligible Plan participants who, during the Plan year, complete a year of service and are employed by the Company at the end of the Plan year regardless of whether they made participant elected contributions to the Plan.

The employer discretionary contribution was 0.80% and 0.50% of each participant's credited compensation in 2014 and 2013, respectively.

Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code as defined in the Plan agreement.

NOTES TO FINANCIAL STATEMENTS

Ogden Publishing Corporation Section 401(k) Retirement Plan and Trust

1 Description of Plan, Continued

Participants' Accounts:

Each participant's account is credited with the participant's contribution and allocations of the Company matching and discretionary contribution, if made, and earnings and losses thereon. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions and Plan expenses.

The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant is 100% vested after six years of credited service.

Forfeited Accounts:

The Plan received \$2,513 and \$2,082 of forfeitures for 2014 and 2013, respectively.

The Plan used \$3,793 (2014) and \$0 (2013) of forfeitures to reduce the employer matching and discretionary contributions.

Forfeited non-vested accounts totaled \$4,088 and \$1,575 as of December 31, 2014 and 2013 respectively. Employer contributions and Plan expenses were or will be reduced by these amounts.

Notes Receivable from Participants:

In accordance with Plan provisions, participants may borrow from their fund accounts a minimum of \$1,000 and up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loans are repaid over a period not to exceed 5 years with exceptions for the purchase of a primary residence. The loans are secured by the balance in the participants' account and bear interest at rates equivalent to those charged by local lending institutions. Principal and interest are paid ratably through payroll deductions. The note becomes due and payable upon termination of employment with the Company. The notes are measured at their unpaid principal balance plus accrued but unpaid interest.

NOTES TO FINANCIAL STATEMENTS

Ogden Publishing Corporation Section 401(k) Retirement Plan and Trust

1 Description of Plan, Continued

Payment of Benefits:

Upon termination of employment, retirement, death or disability, a participant may choose to receive the value of the vested interest in his or her account as either a lump sum distribution or rollover his or her account balance to a new qualified plan. Participants with account balances of \$5,000 or more, may choose to leave his or her account balance with the Plan.

Effective March 28, 2005, the Plan was amended to reflect mandatory distributions from the Plan. A mandatory distribution is an eligible rollover distribution that is made without the participant's consent and that is made to the participant before he or she attains normal retirement age.

Investment Options:

Upon enrollment in the Plan, a participant may direct contributions in 1% increments in any of the investment options offered by the Plan. Once enrolled, participants may change their investment options daily.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's financial statements are prepared on an accrual basis of accounting.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties:

The Plan includes investments in mutual funds and collective funds holding investment contracts with varying degrees of risk, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for Plan benefits.

Valuation of Investments:

Investments held in the Trust are stated at fair value. Marketable securities are reported at fair market value as of the balance sheet date. Fair values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker. The fair value of the guaranteed investment contract is included in the financial statement and represents the contributions made under the contract plus earnings, less withdrawals and administrative expenses.

NOTES TO FINANCIAL STATEMENTS

Ogden Publishing Corporation Section 401(k) Retirement Plan and Trust

2 Summary of Significant Accounting Policies, Continued

Valuation of Investment, Continued:

Under current accounting guidance, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Under current accounting guidance, the Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Payment of Benefits:

Benefits are recorded when paid. There were no benefits due and payable to terminated participants at December 31, 2014 and 2013.

Fees:

Fees are paid by the Plan, Employer, and Participants.

The Plan paid \$3,127 and \$6,952 in investment advisory fees during 2014 and 2013, respectively, which were offset by \$16,969 and \$15,047 in variable asset charges received by the Plan during 2014 and 2013, respectively.

The Employer paid \$365 and \$499 in administrative fees during 2014 and 2013, respectively, which are not reflected in these financial statements.

During 2014, participants paid fees of \$8,054 consisting of \$5,200 in loan fees, labeled "Loan initiation and maintenance fee" and wrap fees of \$2,854 associated with Vanguard targeted funds, labeled "Vanguard fees".

During 2013, participants paid fees of \$9,321 consisting of \$6,334 in loan fees, labeled "Loan initiation and maintenance fee" and wrap fees of \$2,987 associated with Vanguard targeted funds, labeled "Vanguard fees".

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through July 27, 2015, which is the date the financial statements were available to be issued.

3 Fair Value Measurements

As defined in FASB ASC 820, "Fair Value Measurements", fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. In determining fair value, the Plan utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable firm inputs. The Plan utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the examination of the inputs used in the valuation techniques, the Plan is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

- * Level 1: Inputs to the valuation methodology are unadjusted quoted market prices in active markets for identical assets or liabilities.
- * Level 2: Inputs to the valuation methodology include:
 - * Quoted prices for similar assets or liabilities in active markets;
 - * Quoted prices for identical assets or similar assets or liabilities in inactive markets;
 - * Inputs other than quoted prices that are observable for the asset or liability;
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- * Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement that are not corroborated by market data.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices and are classified as a Level 1.

Benefit Responsive Contract:

The fair value of the benefit responsive account is based on the underlying assets of the general account of the Transamerica Life Insurance Company. The fair value is expressed in units. The benefit responsive account is classified in the Level 2 category of the valuation hierarchy.

NOTES TO FINANCIAL STATEMENTS

5 Investment in Benefit-Responsive Contract

The Plan invests in the Transamerica Stable Value Fund which is considered a benefit-responsive investment contract. Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Transamerica. The contract is included in the financial statements at fair market value (which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses), because it is fully benefit responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. However, withdrawals influenced by Company-initiated events, such as in connection with the sale of a business, may result in additional charges. There are no reserves against contract value for credit risk of contract issuers or otherwise.

There is no stated maturity date and the amount payable on demand is the contract value. Accordingly, it is the position of Transamerica that the contract value of the fund is the fair value. Therefore, no adjustment to fair value has been made on the Statement of Net Assets Available for Benefits.

The average yield was approximately 1.35% and 1.45% for 2014 and 2013, respectively. The crediting interest rate was approximately 1.35% and 1.45% at December 31, 2014 and 2013, respectively. The crediting interest rate is reset monthly by the issuer but cannot be less than 0%.

7 Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Transamerica Investment Management, LLC, an affiliate of Investors Bank and Trust, the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Usual and customary fees were paid by the mutual funds for the investment management services for the years ended December 31, 2014 and 2013.

Recordkeeping services are performed by Transamerica Retirement Solutions Corporation.

NOTES TO FINANCIAL STATEMENTS

Ogden Publishing Corporation Section 401(k) Retirement Plan and Trust

8 Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9 Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated August 13, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended; however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2014, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.
