Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the Administrator of The Narda Microwave Pension Plan:

We have audited the accompanying financial statements of The Narda Microwave Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of January 1, 2014 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of December 31, 2014 and changes therein for the year then ended and its financial status as of December 31, 2013, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

THE NARDA MICROWAVE PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
(Dollars in thousands)

1. Plan Description

The following brief description of The Narda Microwave Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan is a non-contributory defined benefit plan covering all eligible salaried employees of The Narda Microwave Corporation, a division of L-3 Communications Corporation (the “Company”), a wholly owned subsidiary of L-3 Communications Holdings, Inc. On April 30, 1997, Lockheed Martin Corporation (“Lockheed Martin”) sold The Narda Microwave Corporation to the Company, and The Narda Microwave Corporation became a wholly owned subsidiary of the Company. In connection with the sale, Lockheed Martin transferred sponsorship of The Narda Microwave Corporation Pension Plan to the Company, and the Company changed the name of the Plan to The Narda Microwave Pension Plan.

Participation in the Plan commenced as of the participants’ date of hire, assuming the participant is at least 21 years of age. Participation in the Plan was closed to new employees on January 1, 2003. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

The Plan was amended as of the original effective date of the Plan. The Plan amendment states, if a Plan participant is transferred to any business unit within the Company at any time after the effective date of the Plan, any service and compensation earned by the participant of the Plan from the date of transfer until the date of the participant’s termination of employment with the Company will be treated as though earned by the participant at the business unit of the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Interest in Master Trust

Investment assets of the Plan are maintained in the L-3 Communications Corporation Master Trust (the “Master Trust”) administered by The Bank of New York (“BNY”) Mellon, as Trustee. The Plan participates in the Master Trust along with other defined benefit plans sponsored by the Company (collectively, the “L-3 Participating Plans”). The only investment of the Plan is its undivided interest in the net assets of the Master Trust. The fair value of the Plan’s interest in the Master Trust is determined based on the beginning of year value of the Plan’s undivided interest in the trust plus actual contributions and allocated investment income (loss) less actual distributions and actual administrative expenses. Assets held in the Master Trust primarily consist of corporate equity securities, commingled trust funds and mutual funds, and corporate bonds. See Note 6 for a description of the valuation methodologies of the assets of the Master Trust.

THE NARDA MICROWAVE PENSION PLAN
NOTES TO FINANCIAL STATEMENTS – continued
(Dollars in thousands)

The Master Trust records investment transactions on the trade-date, dividend income on the ex-dividend date, interest income as earned, and determines realized gains and losses on sales of securities based on the average cost method.

Net Investment Income from Master Trust

The net investment income from the Master Trust includes interest and dividend income and net appreciation or depreciation in the fair value of investments, which includes net gains or losses realized upon disposition of investments and net unrealized appreciation or depreciation of investments. The net investment income or loss is allocated to the L-3 Participating Plans based upon the relationship of each plan's respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Benefit Payments

Benefit payments are recorded when paid.

Plan Expenses

The administrative expenses of the Plan are paid for by the Plan. Administrative expenses are allocated to the Plan at the direction of the Company based upon the Plan's respective portion of the expense. Investment management fees of the Master Trust are allocated to the L-3 Participating Plans based upon the relationship of each plan's respective ending monthly balances in the investment pool to the total investments of the Master Trust, as determined on a monthly basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities, benefit obligations, and changes therein, disclosures of contingent assets, liabilities and benefit obligations, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may differ from those estimates.

Risks and Uncertainties

Plan contributions and the actuarial present value of accumulated plan benefits are determined based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in the estimates and assumptions in the near term would be material to the financial statements.

The investments held in the Master Trust are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that

THE NARDA MICROWAVE PENSION PLAN
NOTES TO FINANCIAL STATEMENTS – continued
(Dollars in thousands)

changes in risks in the near term would materially affect the investments and related allocation reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Reclassifications

Certain reclassifications have been made to prior year amounts to conform to the current year presentation.

Recently Issued Accounting Standards

In July 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-12, which eliminates the requirement for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation by general type. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate, but will no longer be required to be disaggregated and disclosed by general type. ASU 2015-12 also removes the requirement to disaggregate investments of employee benefit plans by nature, characteristics and risks and will require that these investments be grouped only by general type. This update is effective for the interim and fiscal periods beginning after December 15, 2015. The adoption of this standard will not impact the Plan’s statements of net assets available for benefits, statements of changes in net assets available for benefits or statements of accumulated plan benefits and changes in accumulated plan benefits.

In May 2015, the FASB issued ASU 2015-7, which removes the requirement for reporting entities to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. ASU 2015-7 also removes the requirement to make certain disclosures for all investments that are measured at fair value using the net asset value per share as a practical expedient. This update is effective for interim and fiscal periods beginning after December 15, 2016. The adoption of this standard will not impact the Plan’s statements of net assets available for benefits, statements of changes in net assets available for benefits or statements of accumulated plan benefits and changes in accumulated plan benefits.

Subsequent Events

The Plan continued to evaluate events after the Statement of Net Assets Available for Benefits date through August 26, 2015, the date the financial statements were available to be issued.

3. Contributions

Generally, the Company’s funding policy is to contribute amounts in accordance with the Internal Revenue Code (“IRC”) that are at least equal to minimum funding requirements of ERISA. There was no minimum funding requirement in 2014 and 2013. The Company’s contributions met or exceeded the minimum funding requirements of ERISA in 2014 and 2013.

THE NARDA MICROWAVE PENSION PLAN
NOTES TO FINANCIAL STATEMENTS – continued
(Dollars in thousands)

Minimum contributions are calculated using the Unit Credit Actuarial Cost Method, as prescribed by law. Under this method, the liability is measured on an accrued-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year. Assuming all assumptions are met (including the investment earnings implicitly assumed by the interest rate), funding the minimum required contribution is generally designed to achieve the following: (1) if the plan is underfunded, funding at the minimum level would achieve 100% funding within seven years, and then contributions would equal the target normal cost, or (2) if the plan is overfunded, there will be no required contributions unless the target normal cost exceeds the overfunding.

4. Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

The Plan provides an annual benefit of 0.95% of final average compensation not in excess of covered compensation times years of accrual service to a maximum of 30 years plus 1.5% of final average compensation in excess of covered compensation times years of accrual service to a maximum of 30 years. Benefits vest 100% after 5 years of service, and are payable at age 65.

The Plan permits early retirement for participants at age 55 with at least 15 years of service. The benefit may begin at the date of early retirement, reduced by 5% for each year by which commencement of benefits precedes the normal retirement date. Retirees may elect to receive their pension benefits in the form of a joint and survivor annuity or a life annuity payable monthly from the date of retirement. Under the joint and survivor annuity, if a vested participant dies prior to the date pension payments commence, the surviving spouse of the deceased vested participant receives benefits equal to 50% of the amount which would have been payable to the retiree under a joint and survivor annuity. Under the life annuity, there are no continuing payments after the death of the retiree. If participants are terminated before completing 5 years of service, they forfeit the right to receive their accumulated benefits.

The actuarial present value of the accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2014 and 2013 were:

Mortality basis	2014: Total Collar RP-2014 Mortality Table (adjusted back to 2006), projected generationally with the 2014 SSA Intermediate – Cost Projections Scale. 2013: RP-2000 Annuitant and Non-Annuitant Tables (sex-specific) with static projections through the valuation date plus another 7 years for annuitants and 15 years for non-annuitants.
Retirement	Retirement at ages 55 through 70, at varying rates with 100% by age 70.
Interest rate for the determination of the present value of accumulated plan benefits	8.25%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors may be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2014.

The Plan, through the Master Trust, may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a foreign currency forward contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchange rates at the dates of entry in the contracts and the forward foreign exchange rates at the reporting date is included in Plan's statement of net assets available for benefits. Realized and unrealized gains and losses are included in the Plan's statement of changes in net assets available for benefits. These instruments involve market and/or credit risks. The Plan, through the Master Trust, manages exposure to credit risk by entering into foreign currency forward exchange contracts only with major institutions that are expected to fully perform under the terms of such contracts. The average notional for 2014 and 2013 were 6,246 and 4,047, respectively.

At December 31, 2014 and 2013, the Plan had the following foreign currency forward exchange contracts.

6. Fair Value Measurements

The Plan adopted the standards for fair value measurements. The provisions of the standards are applicable to all of the Plan's assets and liabilities that are measured and recorded at fair value. The Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trustee. The standards establish a framework for measuring fair value and expand related disclosures. The standards define fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants. It establishes a fair value hierarchy that gives the highest priority to observable inputs and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below.

Level 1: Quoted market prices available in active markets for identical assets or liabilities as of the reporting date. The Plan's Level 1 assets include equity securities, a mutual fund classified under Fixed Income – Investment Grade and Real Estate Investment Trusts ("REITs"), all of which fair value is derived from quoted market prices.

Level 2: Pricing inputs other than quoted prices in active markets included in Level 1, which are either directly or indirectly observable as of the reporting date. The fair value is determined using a valuation model based on observable market inputs. The Plan's Level 2 assets primarily include money market accounts, a commingled trust fund and both investment grade and high-yield fixed income securities.

Level 3: Pricing inputs that are generally unobservable inputs and not corroborated by market data. The Plan has no Level 3 assets.

The table below reports by level, within the fair value hierarchy, the assets held in the Master Trust at fair value as of December 31, 2014 and 2013, including a description of the valuation methodologies. As required by the standards, each asset is classified based on the lowest level of input that is significant to the fair value measurement. There have been no changes in the methodologies used at December 31, 2014 and 2013. There were no transfers between Levels 1, 2 or 3 during 2014 and 2013.

⁽¹⁾ Equity securities consist of investments in common stock of U.S. and international companies. The fair value of equity securities is based on quoted market prices available in active markets at the close of a trading day, primarily the New York Stock Exchange (NYSE), National Association of Securities Dealers Automated Quotations (NASDAQ), and various international exchanges. The Level 2 investment balance is derived from a regulated commingled equity trust fund, which fair value is based on the net asset value (NAV) at the end of each month. The NAV is calculated by the fund manager based on the fair value of the fund's holdings, primarily equity securities traded in active markets, determined as of the end of each month as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Withdrawals are permitted monthly, with notice by the 20th day of each month, based on NAV.

⁽²⁾ Approximately 60% at December 31, 2014 and 59% at December 31, 2013 of plan assets that are invested in the Fixed Income — Investment Grade asset category consist of a mutual fund offered by a registered investment company (the "Fund") and fixed income securities. The Fund invests in investment grade fixed income securities, mortgaged-backed securities, U.S. treasury and agency bonds and corporate bonds. The fund is classified by the Company as a Level 1 measurement within the fair value hierarchy, as the mutual fund trades on an active market and daily, quoted prices are available. The remaining 40% at December 31, 2014 and 41% at December 31, 2013 of plan assets are fixed income securities, primarily investment grade corporate bonds from various industries held directly by the plan. The fair value of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs and are classified as level 2.

⁽³⁾ Fixed Income — High Yield consists of investments in corporate high-yield bonds from various industries. The fair value of these investments are based on yields currently available on comparable bonds of issuers with similar credit ratings, quoted prices of similar bonds in an active market, or cash flows based on observable inputs.

⁽⁴⁾ REITs consist of securities that trade on the major exchanges and invest directly in real estate, either through properties or mortgages.

⁽⁵⁾ Other is classified as level 2 consists primarily of money market accounts, which invest primarily in short term, high quality money market securities such as government obligations, commercial paper, time deposits and certificates of deposit.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 28, 2008, that the Plan is designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable regulations of the IRC; therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to the year ended December 31, 2011.

The Plan recognizes accrued interest and penalties related to unrecognized tax benefits in tax expense. There were no interest and penalties included in the Plan's financial statements.

8. Related Party Transactions

Certain plan investments held in the Master Trust are units of a commingled trust fund managed by BNY Mellon, the Plan's trustee. As described in Note 2, the Plan (through the Master Trust) paid certain expenses related to plan operations and investment activity to various related party service providers. These transactions are exempt party in interest transactions under ERISA.

9. Termination Priorities

While the Company has not expressed any intention to do so, it is free to discontinue its contributions at any time and to terminate the Plan, subject to the provisions set forth in ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as specified by the Plan in accordance with ERISA, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.

THE NARDA MICROWAVE PENSION PLAN
NOTES TO FINANCIAL STATEMENTS – continued
(Dollars in thousands)

- b. Benefits attributable to participants who have retired at least three years before the termination date of the Plan or those participants who were eligible to retire and receive pension benefits at least three years before, but who did not elect to retire at that time.
- c. Benefits commencing at retirement age to participants who are eligible to receive guaranteed benefits under ERISA.
- d. All vested and non-vested benefits.

Whether participants receive all benefits to which they are entitled under the terms of the Plan should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation, up to specified limits.

The Narda Microwave Pension Plan
EIN 13-3937436 PN 006

Actuarial Assumptions and Methodologies (Funding)

Interest:

The interest rates used for the 2014 plan year are the 24-month average corporate bond segment rates for September 2013 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2014, the stabilization corridor is 10%. It will remain at 10% through 2017, then increase by 5% per year until it reaches 30% for 2021. The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization (under HATFA)	4.99%	6.32%	6.99%	6.48%
Current Year, without stabilization	1.37%	4.05%	5.06%	4.36%
Prior Year, reflecting stabilization (under MAP-21)	4.94%	6.15%	6.76%	6.31%
Prior Year, without stabilization	1.75%	4.62%	5.72%	4.94%

Mortality rates:	RP2000 separate annuitant and non-annuitant healthy mortality tables (sex-specific) with static projection using Scale AA and no collar-adjustment. Mortality is projected through the valuation date plus another 7 years for annuitants, and through the valuation date plus another 15 years for non-annuitants. This assumption is one of the choices allowed by the regulations.																													
Salary Increases::	3.50%

Description of Weighted Average Retirement Age:	Age 64, determined as follows: The individual weighted-average retirement age is calculated as the sum of the product of each potential past or future retirement age times the probability of surviving to that age and then retiring at that age, assuming no other decrements.
Retirement from terminated vested status:	Age 65
Assumed form of payment:	Retirees are assumed to elect a 50% Joint and Survivor life annuity if married and a life annuity otherwise.
Percent married:	70% of males, 55% for females
Age difference:	Husbands are three years older than their wives.
Administrative expenses:	An expense assumption is required under the funding rules. Plan-related expenses of \$275,000 are expected to be paid by the plan during the year.
Asset method:	As selected by the plan sponsor, assets are determined by averaging the market value as of the valuation date and the adjusted market values as of the preceding two years. The resulting value is limited to between 90% to 110% of market value of assets. The adjusted market values reflect cash flow and expected earnings to the valuation date. The expected earnings are based on an assumed rate of return of 7.50%, not to exceed the applicable third segment rate of 7.52% in 2012 and 6.76% in 2013.
Funding method:	Funding method is unit credit actuarial cost method, as prescribed by law. The liability is measured on an accrual-to-date basis using mandated mortality tables and interest rates with no salary projection past the end of the year.
Assumption changes since prior valuation:	None

Summary of Plan Provisions

This subsection summarizes the major provisions of the Plan as included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

PLAN STATUS: CLOSED TO NEW HIRES EFFECTIVE JANUARY 1, 2003	
Normal retirement:	
Age requirement:	65
Service requirement:	None
Amount:	0.95% of final average compensation not in excess of covered compensation times years of pension service to a maximum of 30 years plus 1.5% of final average compensation in excess of covered compensation times years of Credited Service to a maximum of 30 years.
Compensation:	Annual base rate of cash compensation (including elective employee deferral of contributions made under any qualified retirement plan, salary continuation and Section 125 and 132(f)(4) elective payroll deduction contributions) actually paid by the employer. Excludes bonus, overtime, commission, incentive compensation. Final average compensation consists of the five consecutive 12-month periods, which produce the highest annual average during the 120-month period (or the number of months in which such an employee received compensation if less than 120), prior to the date, which he ceases employment.
Early retirement:	
Age requirement:	55
Service requirement:	15 years of service
Amount:	Annual pension benefit determined as of early retirement date, reduced 5% for each year of payment before normal retirement date.
Disability:	
Age and service requirement:	Earlier of 55 and 15 or 65 and 5.
Amount:	Annual pension benefit is calculated as for early retirement substituting disability retirement date for early retirement date. Continued accrual for service occurs if the participant is in receipt of benefits from the long-term disability program. If the participant has at least 10 years of service, he will receive Credited Service for up to two years following termination due to disability with level compensation based on the rate prior to disability.

Lump sum benefits:	
	Benefits with a present value less than or equal to \$1,000 are automatically cashed out. If the present value of the benefits is over \$1,000 but less than \$5,000, a lump sum is offered to the participant. If the present value is over \$5,000 but less than or equal to \$20,000, the participant can elect the lump sum, an immediate annuity, or a deferred annuity.
Vesting:	
Age requirement:	None
Service requirement:	5 years of service
Amount:	100% of accrued normal retirement benefit based on annual earnings and Credited Service at date of termination. Benefit is payable from age 65. Employee may elect payment as early as age 55, with 15 years of Vesting Service; in this case payments are reduced in the same manner as for early retirement.
Pre-retirement death benefits:	
Age:	None
Service requirement:	5 years of service
Amount:	For married participants, an actuarially reduced benefit derived from the participant's accrued benefit under a 50% Joint and Survivor Option is payable at the later of (i) the first month following or coincident with the date of death, or (ii) the earliest retirement date under the Plan. Payments continue for the spouse's lifetime.
Participation:	
Age requirement:	21 years
Service requirement:	None
Groups covered:	
Group:	Employees of the Narda Microwave division of L-3 Communications Corporation hired prior to January 1, 2003. There are no new entrants to the plan after January 1, 2003.
Service:	
Vesting:	Full years and completed months of service from date of employment.
Credited:	Full years and completed months of service from date of employment.
