LEE LEWIS CONSTRUCTION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2014 and 2013

NOTE A—DESCRIPTION OF PLAN

The following description of the Lee Lewis Construction ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company, except those covered under a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiations, non-resident aliens, and independent contractors for whom the employer does not file Form W-2, who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of Code Sections 401(k), 402(g), and 415, as defined in the Plan. Participants who have attained or are expected to attain age 50 before the close of the Plan year are eligible to make catch-up contributions. Participants may also roll over eligible amounts from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The plan currently offers 30 mutual funds and one money market fund as investment options for participants. Each year, the Company contributes (1) the total amount of the salary reduction each participant elected to defer, (2) a discretionary matching amount equal to a percentage, determined each year by the Company, of the amount of the salary reduction each participant elected to defer, and (3) a discretionary non-elective employer contribution, to be determined each year by the Company. The company contributes matching contributions to the Plan each year equal to 100% of the first 3% of participants compensation plus 50% of the next 2% of participants compensation contributed to the Plan. Participants direct the investment of the Company contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Payment of Benefits. On termination of service due to death, disability, or retirement, a participant who is entitled to receive a distribution under the Plan will receive a single lump-sum payment equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant will be entitled to receive only the vested percentage of their account balance and the remainder of their account balance will be forfeited.

Forfeited Accounts. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $669 and $1,650 respectively. These accounts will be used to reduce future employer contributions and may be used for plan administration expenses.

NOTE B—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Management's Review

Subsequent events were evaluated through August 25, 2015, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in conformity with applicable financial reporting framework requires the plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and change therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Shares of registered investment companies (mutual funds) are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All Expenses of maintaining the plan are paid by the Company.

Contributions Receivable

Contributions are made by the Company after payroll checks have been issued. The last paycheck of the year ended December 31, 2014 was issued on December 30, 2014. As a result, the final contributions were made on January 2, 2015. These January 2, 2015 contributions make up the entirety of the contributions receivable account. The contributions were made in a timely manner and are not considered past due.

NOTE C—INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee.

	2014	2013
Investments at Fair Value as Determined by Quoted Market Price:		
Interest in registered investment Companies – Mutual Funds	($113,226)	$ 460,117

NOTE D—FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

The following table sets forth, by level within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at Reporting Date Using:
	Fair Value	**Quoted Prices in Active Markets for Identical Assets (Level 1)**
December 31, 2014		
Mutual funds	$ 6,884,437	$ 6,884,437
Contributions Receivable	$ 12,494	$ 12,494
Total assets at fair value	$ 6,896,931	$ 6,896,931
December 31, 2013		
Mutual funds	$ 6,035,681	$ 6,035,681
Total assets at fair value	$ 6,035,681	$ 6,035,681

NOTE E—RELATED PARTY TRANSACTIONS

All plan assets are held in trust by Fidelity Management Trust Company (the trustee). A significant amount of plan assets are invested in companies advised by the trustee or affiliated entities and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan sponsor to the trustee for the years ending December 31, 2014 and December 31, 2013 were $2,875 and $2,300, respectively.

NOTE F—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G—TAX STATUS

The Company adopted the Fidelity Prototype Non-Standardized Profit Sharing Plan with CODA on July 15, 2008. Fidelity Management Trust Company became the trustee of the plan. The Internal Revenue Service has informed Fidelity Management & Research Co., by letter dated October 9, 2003, that an employer adopting this plan may rely on the letter with respect to the qualification of its plan under Code Section 401(a). In July 2009 The Company adopted the Fidelity Volume Submitter Profit Sharing Plan with CODA. The Internal Revenue Service notified the plan by letter dated March 31, 2008 that the plan is acceptable under section 401 of the Internal Revenue Code. The Company adopted the Fidelity Volume Submitter Defined Contribution Plan November 30, 2011. The Internal Revenue Service notified the plan by letter dated March 31, 2008 that the plan is acceptable under section 401 of the Internal Revenue Code. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE H—ADMINISTRATIVE EXPENSES

The plan sponsor absorbs significant plan administrative and audit expenses. The total expense absorbed by the sponsor in 2014 and 2013 was $17,875 and $17,300, respectively.

NOTE K—RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE A—DESCRIPTION OF PLAN

The following description of the Lee Lewis Construction ("Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all employees of the Company, except those covered under a collective bargaining agreement for which retirement benefits have been the subject of good faith negotiations, non-resident aliens, and independent contractors for whom the employer does not file Form W-2, who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of Code Sections 401(k), 402(g), and 415, as defined in the Plan. Participants who have attained or are expected to attain age 50 before the close of the Plan year are eligible to make catch-up contributions. Participants may also roll over eligible amounts from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The plan currently offers 30 mutual funds and one money market fund as investment options for participants. Each year, the Company contributes (1) the total amount of the salary reduction each participant elected to defer, (2) a discretionary matching amount equal to a percentage, determined each year by the Company, of the amount of the salary reduction each participant elected to defer, and (3) a discretionary non-elective employer contribution, to be determined each year by the Company. The company contributes matching contributions to the Plan each year equal to 100% of the first 3% of participants compensation plus 50% of the next 2% of participants compensation contributed to the Plan. Participants direct the investment of the Company contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant Accounts. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Payment of Benefits. On termination of service due to death, disability, or retirement, a participant who is entitled to receive a distribution under the Plan will receive a single lump-sum payment equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant will be entitled to receive only the vested percentage of their account balance and the remainder of their account balance will be forfeited.

Forfeited Accounts. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $669 and $1,650 respectively. These accounts will be used to reduce future employer contributions and may be used for plan administration expenses.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Shares of registered investment companies (mutual funds) are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

NOTE D—FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 or Level 3 inputs were available to the Plan.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

The following table sets forth, by level within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at Reporting Date Using:
	Fair Value	**Quoted Prices in Active Markets for Identical Assets (Level 1)**
December 31, 2014		
Mutual funds	$ 6,884,437	$ 6,884,437
Contributions Receivable	$ 12,494	$ 12,494
Total assets at fair value	$ 6,896,931	$ 6,896,931
December 31, 2013		
Mutual funds	$ 6,035,681	$ 6,035,681
Total assets at fair value	$ 6,035,681	$ 6,035,681

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
