MUELLER, INC. 401(K) PLAN

Notes to the Financial Statements

Note 1: DESCRIPTION OF PLAN

The following description of the Mueller, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution benefit plan covering all full-time employees of Mueller, Inc. (the Company) who have one year of service and 1,000 hours. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Board of Trustees and executive management is responsible for oversight of the Plan. Executive management determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, not to exceed a dollar limit which is set by law. Participants who have attained age 50 before the end of the plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Employer will make a safe harbor non-elective contribution to the account of each "eligible participant" an amount equal to 3% of each eligible participant's compensation for the plan year beginning January 1 or July 1 immediately following satisfaction of eligibility requirements. The Plan may require the Company to make contribution on the participants' behalf which is in addition to its discretionary contribution. This guaranteed minimum contribution is necessary if the Plan is top heavy and the amount of Company contributions and forfeitures allocated to participant accounts for the plan year falls below a certain percentage (usually 3%) of participant compensation for the plan year. If the Plan requires the plan sponsor to make an additional contribution, the plan sponsor will allocate the additional contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company contributions, and related earnings from their investments. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are always 100% vested in their Employee and Employer accounts.

Participant Loans

Participant loans are not permitted under the Plan.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive benefits as either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or a direct rollover into an I.R.A. or other qualified employer plan. Benefits are recorded when paid.

MUELLER, INC. 401(K) PLAN

Notes to the Financial Statements

Note 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, revenue is recognized when earned and expenses are recognized when incurred.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts; the adjustment of the fully benefit-responsive investment contracts from fair value to contract value is not needed as fair value equals contract value. The Statements of Changes in Net Assets Available for Benefits is prepared using the fair value as well.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's executive management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 5 for discussion of fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Withdrawing Participant Obligations

Amounts allocated to withdrawing participants are claims that have been processed and approved for payment prior to year end, but not paid as of that date. These amounts were not deemed material at December 31, 2014 and 2013.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

Management of the Plan has evaluated subsequent events through July 24, 2015, the date the financial statements were available to be issued.

Other than contributions receivable, certain information related to investments disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2014 and 2013, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2014 and 2013, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Wilmington Trust Company (the trustee of the Plan).

Notes to the Financial Statements

Note 5: FAIR VALUE MEASUREMENTS

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Mutual Funds - Investments are reported at fair value utilizing Level 1 inputs. For these investments, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U. S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the bond's terms and conditions, among other things.

Guaranteed investment contract - Guaranteed investment contracts are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see Note 6). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, executive management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing market data (for example, swap curve rate).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5: FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Unrealized gain/(losses) included in changes in net assets available for benefits for the years ended December 31, 2014 and 2013 are reported in net appreciation in fair value of investments.

Note 6: GUARANTEED INVESTMENT CONTRACT WITH NATIONAL INSURANCE COMPANY

The Plan entered into a fully benefit-responsive guaranteed investment contract with Lincoln National Life Insurance Company (Lincoln). Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer, is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value as fair value equals contract value. Contract value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

MUELLER, INC. 401(K) PLAN

Notes to the Financial Statements

Note 6: GUARANTEED INVESTMENT CONTRACT WITH NATIONAL INSURANCE COMPANY (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was \$2,586,372 and \$2,626,162, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, was 1.75% and 1.75% at December 31, 2014 and 2013, respectively. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) any charges billed to the contract owner haven't been paid to Lincoln within 30 days, (2) the plan ceases to meet the requirements of the Internal Revenue Service for purchasers of this contract, (3) at any time following the end of the third contract year, the contract owner account is less than \$15,000, (4) at any time following the third contract year, there is no deposit activity for a 24 consecutive-month period and the contract owner account is less than \$50,000, (5) The contract owner fails to furnish requested information or other documentation, (6) The contract owner fails to furnish requested information or other documentation, (7) Lincoln discovers any misrepresentation of material information, (8) Lincoln discontinues offering this contract to the public, or (9) The Plan terminates its recordkeeping agreement with Lincoln. The Plan administrator believes that there is low probability that any events would occur that would limit the Plan's ability to transact or contract value with participants.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date of December 31, 2015.

The average yields earned by the guaranteed investment contract as of December 31, 2014 and 2013 were 1.73% and 1.31%, respectively.

Note 7: RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments in guaranteed investment contract are managed by Lincoln National Life Insurance Company, the investment adviser of the Plan's assets. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 8: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 % vested in their employer contributions.

Note 9: TAX STATUS

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and tax exempt.

MUELLER, INC. 401(K) PLAN

Notes to the Financial Statements

Note 10: RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of mutual funds and other investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
