ACME ALLIANCE, LLC PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

NOTE 1 – DESCRIPTION OF PLAN

Acme Alliance, LLC Plan (Plan) is a defined contribution plan that, effective December 13, 2013, covers all full-time employees of Lovejoy Industries, Inc. (Company) and its wholly owned subsidiaries Acme Die Casting, LLC (Die Casting) and Acme Alliance, LLC (Alliance) who have completed two months of service, as defined by the Plan. Prior to December 13, 2013, the Plan covered employees of Die Casting and Alliance who had completed one month of service, as defined by the Plan. See Note 8 for further details relating to the amendment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Company serves as plan administrator.

For each plan year, the Company may contribute a board of directors approved discretionary amount to the Plan, provided that such contribution does not exceed either the current or accumulated earnings of the Company or the maximum amount deductible under the Internal Revenue Code (IRC).

If a Company contribution is made, each eligible participant's account is credited with its allocated share of the Company's contribution. Allocations of the Company contribution are based upon each participant's compensation, as defined by the Plan, in relation to total compensation of all plan participants for the fiscal year. Company contributions for the years ended December 31, 2014 and 2013 were $0.

Through a voluntary employee tax-deferred contribution feature, participants may elect to contribute a percentage of their base salary on a pretax basis. The Plan also allows Roth 401(k) deferral contributions for eligible participants. There is no employer matching contribution provided for in the Plan. Participants may change their deferral rate at the beginning of each quarter. The Plan allows catch up contributions and rollover contributions for eligible participants.

Participants may direct the investment of both their pretax and Roth contributions and their allocated share of the Company's profit sharing contributions, if any, in the selected funds provided by the Plan. Each participant's account is credited with the participant's contribution and allocation of the Company's contributions, if any, and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are at all times 100% vested in their voluntary employee contributions plus earnings there on. Participants vest in their balance of the Company's discretionary contributions at the rate of 20% for each full year of continuous service beginning in their third year, and become fully vested after their sixth full year of service. Participants who attain age 65 during the first six years of employment become fully vested at age 65.

All contributions are subject to certain limits.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Non-vested balances are forfeited as of the earlier of the last day of the plan year in which the former participant incurs five consecutive one-year breaks in service, or the distribution of the entire vested portion of the participant's account.

Forfeitures are reallocated to the remaining participants according to the participant's compensation as of the preceding or coincident plan year end, as per administrative decision, and allocated annually.

Upon retirement or termination of employment, a vested participant may elect to receive a joint and survivor annuity (if married), regular annuity, or a lump-sum distribution. In addition, participants may apply for partial withdrawal of their voluntary employee contributions and the vested portion of Company contributions as a result of financial hardship.

The above description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. There is no adjustment from fair value to contract value at December 31, 2014 and 2013.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Registered investment companies are valued at the daily closing price as reported by the fund. Shares of pooled separate accounts are valued at the net asset value of shares held by the Plan at year end. Plan management determines the Plan's valuation policies utilizing information provided by the Plan's custodian and insurance company. See Note 3.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition, continued

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period. Interest includes the Plan's interest earned on the fixed fund and stable value fund and is recorded as it is earned.

Refund of Excess Contributions

Amounts payable to participants for contributions made prior to Plan eligibility requirements being met are recorded as a liability with a corresponding reduction in contributions.

Administrative Expenses

Fees associated with benefit withdrawals from the participants are allocated to the applicable participant's account. All other administrative expenses for maintaining the Plan are allocated to participants based on their account balances.

Benefit Payments

Benefit payments are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pending Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent).* The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

NOTE 3 – FAIR VALUE MEASUREMENT

FASB ASC 820-10, *Fair Value Measurements* establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are inputs other than quoted prices included with Level 1 that are observable for the asset or liability either directly or indirectly, including the following:

1. Quoted prices for similar assets or liabilities in active markets.
2. Quoted prices for identical or similar assets or liabilities in markets that are not active.
3. Inputs other than quoted prices that are observable for the asset or liability (including volatilities).
4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs are unobservable inputs for the asset or liability and there is little or no market activity at the measurement date.

NOTE 3 – FAIR VALUE MEASUREMENT (CONTINUED)

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. An investment's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Fixed Account Investment: Valued by discounting the related cash flows based on current yields of similar instruments with comparable durations. In determining the reasonableness of the methodology, management evaluated a variety of factors, including review of the existing contract, economic conditions, financial market developments, and overall credit ratings. Certain unobservable inputs were assessed through review of contract terms.

Pooled Separate Accounts: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Registered Investment Companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2014 and 2013, there were no transfers in or out of Level 3.

(a) The pooled separate account in this category seeks the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. Investments are diversified between investment contracts issued by banks and insurance companies, both fixed and floating rate. Investments in this category can be redeemed due to discontinuance after a 24 month notice period at the current net asset value per share based on the fair value of the underlying assets. Participants are allowed to transfer in and out of this category freely.

NOTE 4 – INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Massachusetts Mutual Life Insurance Company (MassMutual) and Transamerica Financial Life Insurance Company (Transamerica), the custodians, that all information provided by them is complete and accurate. Information included in the accompanying financial statements as to investments, investment income, and all information in the supplemental schedule of assets held at December 31, 2014 is presented in reliance solely upon those certifications. All Plan assets were held in trust pursuant to an agreement between the Company and MassMutual, the custodian, for the period from January 1, 2013 to December 13, 2013. All Plan assets are held in trust pursuant to an agreement between the Company and Reliance Trust Company, the trustee, for the periods from December 13, 2013 to December 31, 2013 and January 1, 2014 to December 31, 2014.

The values of the investments of the Plan at December 31, 2014 and 2013 were as follows:

	$ 2,629,168	$ 2,429,382

At December 31, 2014, the following investments represented 5% or more of the Plan's net assets:

	2014	2013
Transamerica Invesco Stable Value Trust Ret Opt	$ 722,565	$ 819,506

Registered investment companies	82,236	13,793
	$ 82,236	$ 227,978

NOTE 5 – INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2006, the Plan entered into a benefit-responsive investment contract with Hartford Life Insurance Company (Hartford). As of January 1, 2013, Hartford was purchased by MassMutual. Hartford and MassMutual maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract was included in the Statements of Net Assets Available for Benefits at fair value as determined by discounting the related cash flows based on current yields of similar instruments with comparable durations. The adjustment from fair value to contract value for the investment contract was based on the contract value as reported to the Plan by Hartford and MassMutual. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There were no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate was based on a formula agreed upon with the issuer, but could not be less than 3.00%. Such interest rates were reviewed on a quarterly basis for resetting.

The contract was terminated in 2013 and the fair value of the investment contract at December 31, 2013 was $0. The average yield and crediting interest rates were approximately 3.00% for 2013.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would have limited the Plan's ability to transact at contract value with Hartford and MassMutual. No such event occurred while the contract was active.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan provisions to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a Plan termination, participants will become fully vested in their account balances.

NOTE 7 – TAX STATUS

The Plan had adopted the volume submitter plan of PDS Advantage™. The volume submitter plan received a determination letter from the Internal Revenue Service (IRS) dated March 31, 2008 that the volume submitter plan was designed in accordance with applicable sections of the IRC and was, therefore, not subject to income tax under present income tax laws. In December 2013, the Plan adopted the volume submitter plan of Transamerica. This volume submitter plan received a determination letter from the IRS dated May 30, 2008 that the volume submitter plan was designed in accordance with applicable sections of the IRC and was, therefore, not subject to income tax under present tax laws. The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8 – PLAN RESTATEMENT

On December 13, 2013, the Plan was amended and restated. Following are the significant changes to the Plan's provisions:

- The Plan's name was changed to Acme Alliance, LLC Plan.
- The Plan now covers all full-time employees of the Company in addition to those of Die Casting and Alliance.
- The Plan's eligibility provisions now require two months of service instead of one month of service.
- The Company's prior plan, the Lovejoy Industries, Inc. Employees' 401(k) Profit Sharing Plan and Trust (Lovejoy Plan) was merged into the Plan. As a result of the merger, $41,591 of assets from the Lovejoy Plan were transferred to the Plan.

NOTE 9 – RELATED PARTY TRANSACTIONS

Certain plan investments were pooled separate accounts and a fixed account managed by the custodians. MassMutual was defined as the custodian by the Plan from January 1, 2013 to December 13, 2013, and Transamerica was defined as the custodian by the Plan from December 13, 2013 to December 31, 2013 and January 1, 2014 to December 31, 2014, and therefore these transactions qualify as party-in-interest transactions as defined by ERISA.

NOTE 10 – SUBSEQUENT EVENTS

The date to which events occurring after December 31, 2014, the date of the most recent balance sheet, have been evaluated by the Company for possible adjustments to the financial statements or disclosure is July 24, 2015, which is the date the financial statements were available to be issued.
