NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of the ***PAR Holding Company 401(k) Retirement Plan*** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Description of the Plan

General

The Plan was a defined contribution plan covering all employees of ***Reid Safety Supply, LLC***, ***United Sign Company***, ***Total Quality Machining, Inc.***, ***Plow Parts Warehouse, Inc.***, ***and Filtrona Newton Inc*** . (together the "Plan Administrator", "Company" or the "Employer") who had completed one year of service by the end of a twelve month period. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants were able to contribute annual compensation as defined in the Plan up to a maximum allowed by the Internal Revenue Code. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants were also able to contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company's contributions to the Plan were discretionary and could be either a matching percentage of covered compensation or a profit-sharing contribution for each eligible participant. Participants directed the investment of contributions into various investment options offered by the Plan. The Plan offered investments in registered investment companies, a common collective trust and a money market fund as investment options for participants. Contributions were subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account was credited with the participant's contribution and the Company's matching contribution (when made), and an allocation of (a) the Company's profit sharing contribution (when made), and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based upon participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their 401(k) voluntary contributions plus actual earnings thereon. Vesting in Company matching and profit sharing contributions was based on years of continuous service. A participant was 100 percent vested after five years of credited service.

NOTES TO FINANCIAL STATEMENTS

Notes Receivable from Participants

Participants could borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The notes receivable were secured by the balance of the participant's account and bear interest ranging from 4.25% to 6.00%, which was commensurate with local prevailing rates at the time the notes were issued as determined quarterly by the Plan Administrator. Principal and interest was paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant was able to elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installment payments, as defined by the Plan agreement. For termination of service or for other reasons, a participant would receive the value of the vested interest in his or her account as a lump-sum distribution. In-service withdrawal of vested balances may have been elected by participants who have reached 59 1/2 years of age. The Plan also permitted withdrawals of active participants' elective and rollover contributions only in amounts necessary to satisfy financial hardship as defined by the Plan agreement.

Forfeited Accounts

Forfeited nonvested accounts were first allocated to Plan expenses and then used to reduce employer cash contributions. Plan expenses were reduced by $2 and $2,150 from forfeited nonvested accounts during 2014 and 2013 respectively. There were no forfeited nonvested accounts at December 10, 2014 or December 31, 2013.

Administrative Expenses

All legal, accounting, custodial and recordkeeping fees for the Plan could be deducted directly from investment returns, paid directly by the Employer or passed through to the participants in the Plan. Fees paid by the Employer qualify as party-in-interest transactions, which were exempt from prohibited transaction rules. Participants were charged directly for loan fees.

Summary of Significant Accounting Policies

Basis of Accounting

As described more fully in Note 5, the Plan was terminated in 2014 in connection with the acquisition of the Company by unrelated parties. Accordingly, the financial statements of the Plan are presented using the liquidation basis of accounting. The basis of accounting does not differ significantly from the ongoing basis of accounting.

NOTES TO FINANCIAL STATEMENTS

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would have received if they were to initiate permitted transactions under the terms of the contracts. The statements of net assets available for benefits as of December 31, 2013 present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits for the period ended December 10, 2014 and year ended December 31, 2013 are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determined the Plan's valuation policies utilizing information provided by the investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Net (depreciation) appreciation in aggregate fair value included the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in registered investment companies were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses were reflected as a reduction of net appreciation or an addition to net depreciation in the aggregate fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they are incurred. No allowance for credit losses had been recorded as of December 10, 2014 or December 31, 2013. If a participant ceased to make loan repayments and the Plan Administrator deemed the note receivable to be in default, the participant note receivable was reduced and a benefit payment is recorded.

NOTES TO FINANCIAL STATEMENTS

Contributions

Participant contributions were recorded when withheld from compensation. Employer contributions were recorded in the period in which they became the obligations of the Company.

Payment of Benefits

Benefits were recorded when paid.

Subsequent Events

In preparing the accompanying financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 10, 2014, the most recent statement of net assets available for benefits presented herein, through July 29, 2015, the date these financial statements were available to be issued. No significant such events or transactions were identified.

2. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity"), as trustee, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 10, 2014 and December 31, 2013, (2) the related investment activity reflected in the statements of changes in net assets available for benefits during 2014 and 2013, and (3) the information presented below. Fidelity has also certified the completeness and accuracy of notes receivable from participants and the related interest income as of and for the period ended December 10, 2014 and year ended December 31, 2013.

3. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuations methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. The description includes an indication of the level of the fair value hierarchy in which the assets are classified. There have been no changes in the methodologies used at December 31, 2013.

Money market fund: Shares held in the money market fund are comprised of debt securities with individual maturities of 13 months or less and an average maturity of 75 days or less. The composition of securities is structured to maintain a value of $1 per share and are classified as Level 2.

Common collective trust: These investments are public investment securities valued using the net asset value ("NAV") provided by Fidelity Management Trust Company and are classified as Level 2. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

NOTES TO FINANCIAL STATEMENTS

Registered investment companies: Shares held in registered investment companies are valued at quoted market prices that represent the NAV of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities then divided by the number of shares outstanding.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Money market fund	$ -	$ 924,156	$ -	$ 924,156
Common collective trust				
Fixed income funds	-	186,051	-	186,051
Registered investment companies				
Blended funds	3,713,210	-	-	3,713,210
Bond funds	388,436	-	-	388,436
Growth funds	3,107,690	-	-	3,107,690
Total registered investment companies	7,209,336	-	-	7,209,336
Total investments at fair value	**$7,209,336**	**$ 1,110,207**	**$ -**	**$ 8,319,543**

The following table set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31, 2013:

Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective trust				
Fixed income funds	$ 186,051	$ -	Daily	Daily

The following is a description of the investment strategy for the common collective trust fund at December 31, 2013:

Fixed income funds: These funds include investments that seek to provide income by investing in intermediate and long-term bonds issued by corporations, the U.S. government and its agencies.

PAR HOLDING COMPANY 401(k) RETIREMENT PLAN
(TERMINATED AND LIQUIDATED)

NOTES TO FINANCIAL STATEMENTS

4. INCOME TAX STATUS

The Company's Board of Directors adopted the Reid Tool 401(k) Retirement Plan document formally amended for a name change to PAR Holding Company 401(k) Retirement Plan. The Plan document had received an opinion letter from the IRS dated November 28, 2003, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(a) of the Code. The Plan was required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan was qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 10, 2014 and December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

5. PLAN TERMINATION

In July 2013, Reid Safety Supply, LLC and Filtrona Newton Inc. were acquired by unrelated parties. Reid Safety Supply, LLC employees' assets were transferred to other qualified plans prior to December 10, 2014. Filtrona Newton Inc. employees were active participants in the Plan as of January 1, 2014 but incurred no activity through January 31, 2014 when the assets were transferred to the acquiring party's qualified plan.

Total Quality Machining, Inc. and Plow Parts Warehouse, Inc. were acquired in May 2014 and June 2014, respectively, by unrelated parties. All of the investment assets were liquidated to cash as of December 10, 2014, and the cash and participant notes receivable were transferred in full to other qualified plans. As such, the Plan was fully liquidated and terminated as of December 10, 2014.

6. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the custodial and record keeping services amounted to $575 and $5,091 for 2014 and 2013, respectively. Fees paid by the Plan for investment management services are included as a reduction of net appreciation in fair value of investments, as they are paid through revenue sharing, rather than direct payment.
