**Note 1 – Description of the Plan**

The following description of the Event Network, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Reference should be made to the Plan Document for a more complete description of the Plan's provisions.

**General** – The Plan is a 401(k) salary deferral and profit-sharing plan covering substantially all employees of Event Network, Inc. (the "Company") and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Company is the Plan's sponsor and serves as plan administrator.

**Eligibility** – Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing three months of service in which at least one hour is worked in each month.

**Contributions**

*Participant contributions* – Each year, participants may contribute between 1 and 70 percent of pretax annual compensation, as defined in the Plan Document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans.

*Discretionary-matching and profit-sharing contributions* – The Company may elect to make discretionary-matching and profit-sharing contributions to the Plan. Profit-sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no discretionary-matching or profit-sharing contributions for the year ended December 31, 2014.

Contributions are subject to regulatory limitations.

**Participant accounts –** Each participant's account is credited with the participant's contributions and discretionary-matching contributions, as well as allocations of the Company's profit-sharing contribution and plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

**Vesting** – Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 20 percent vested with two years of service. Participants then vest an additional 20 percent per year of service; becoming 100 percent vested after six years of service. Any amount not vested upon a participant's separation from service is forfeited as of the anniversary date following distribution of the vested amount.

**Note 1 – Description of the Plan (continued)**

**Notes receivable from participants –** Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years unless the loan is used to purchase a principal residence, in which case the loan must be repaid within a reasonable period of time not to exceed 30 years. Under the terms of the Plan Document, plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest are paid ratably through bi-weekly payroll deductions. As of December 31, 2014, the rate of interest on outstanding loans is 4.25 percent with various maturities through October 2018.

**Payment of benefits** – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

**Forfeitures** – Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan, must be used before year end, or must be used in the subsequent year and will first be used to pay plan administrative expenses, with any remaining amount used to reduce future Company contributions. As of December 31, 2014 and 2013, there were no forfeited non-vested accounts.

**Note 2 – Summary of Significant Accounting Policies**

**Basis of accounting** – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") using the accrual method of accounting.

**Use of estimates** – The preparation of financial statements in conformity with GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

**Plans with NAV investments** – In April 2015, the Financial Accounting Standards board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The ASU is effective for fiscal years beginning after December 15, 2016, with earlier application permitted.

The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient ("NAV"). Once adopted, the Plan will apply the amendments retrospectively to all periods presented. Plan management is determining the specific impact on Plan reporting. However when adopted, certain investments held by the Plan and measured using NAV will be no longer presented within the fair value hierarchy table.

**Note 2 – Summary of Significant Accounting Policies (continued)**

**Investment valuation –** The investments are stated at fair value. The Plan's custodian, Transamerica Life Insurance Company ("Transamerica"), certifies the contract value of the stable value fund and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

As of December 31, 2014 and 2013, the contract value of the Transamerica Stable Value Advantage fund approximated fair market value; therefore, there is no adjustment to contract value shown in the statements of net assets available for benefits.

**Income recognition** – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

**Notes receivable from participants –** Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based on the terms of the plan document.

**Payment of benefits** – Benefits are recorded when paid.

**Expenses** – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

**Excess contributions payable** – Excess contributions payable represent amounts refunded to participants after year end to comply with regulatory contribution limitations.

**Note 2 – Summary of Significant Accounting Policies (continued)**

**Subsequent events** – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits, but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through August 24, 2015, which is the date the financial statements were available to be issued.

**Note 3 – Investments**

**Note 4 – Fair Value Measurements**

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

**Level 1** - Inputs to the valuation methodology that are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

**Level 2** - Inputs to the valuation methodology that include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**Level 3 -** Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

*Pooled separate accounts* – Units held in pooled separate accounts ("PSAs") are valued using the NAV of the PSA as reported by the accounting managers. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a PSA is calculated based on a compilation of primarily observable market information. The PSA seeks capital appreciation by investing primarily in securities of emerging or other growth-oriented companies.

*Stable value fund* – The Transamerica Stable Value Advantage Fund is designed to provide preservation of capital and stable returns in excess of money-market funds and one-year treasury bills, which are consistent regardless of stock and bond market volatility. The fund seeks to earn a high level of income consistent with those objectives. The stable value fund is invested in the general account of Transamerica and has no stated maturity. Interest rates are reset monthly at the beginning of each month, during which a new interest rate is applied daily to the total outstanding balance of the investment. The stable value fund does not have a stated minimum or maximum interest rate and as a result, is not considered a guaranteed interest contact. The Transamerica Stable Value Advantage Fund is reportable at contract value, which approximated fair value at December 31, 2014 and 2013. As such, no adjustment was necessary to adjust from fair value to contract value.

**Note 4 – Fair Value Measurements (continued)**

The Board of Directors and the Plan Trustees determine the fair value measurement policies and procedures in consultation with the Company's chief financial officer. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management of the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses by level the fair value hierarchy of the Plan's assets at fair value as of December 31, 2014:

*Stable value fund* – Participants generally may withdraw assets from the fund without restriction; however, Transamerica may impose a hold period at the contract level in the event of a full or partial contract discontinuance.

*Pooled separate accounts* – Participants generally may withdraw assets from accounts without restriction.

(a) *Bond* – The PSA in this class typically invests to seek high total investment return through both current income and capital appreciation.
(b) *High-yield Bond* – The PSAs in this class typically invest in income-producing debt securities, with an emphasis on the higher rated segment of the high-yield bond market. The fund may invest up to 25 percent of assets in foreign investments. It may invest in fixed-income securities of any maturity and does not seek to maintain a particular dollar-weighted average maturity.
(c) *Hybrid* – The PSAs in this class invest in mutual funds according to an asset allocation between stocks, bonds, and money-market instruments. It is a strategy designed for investors based on a specific retirement year.
(d) *Large/Mid Blend Equity* – The PSAs in this class typically invest in domestic and international securities that include common stocks, warrants, and convertible securities.
(e) *Large/Mid Growth Equity* – The PSAs in this class typically invest in securities and common stocks for companies that appear to offer superior opportunities for growth.
(f) *Small Company Equity* – The PSAs in this class attempt to replicate the target index by investing in the stocks of smaller companies.
(g) *International Equity* – The PSAs in this class invest in common stock of international investments which have a potential for growth.
(h) *Specialty* – The PSAs in this class invest in investments related to precious metals and equity securities of foreign issuers, and may invest in emerging market-equity securities and debt securities linked to precious metals and common or preferred stocks of subsidiaries of the fund that invest directly or indirectly in precious metals and minerals.

**Note 5 – Tax Status**

The Internal Revenue Service has determined and informed the Company by a letter dated November 6, 2001, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2011.

**Note 6 – Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near-term could materially affect a participant's account balance and the amounts reported in the financial statements.

**Note 7 – Information Certified by the Custodian**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected in the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013.

- Investment income reflected in the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014.

- Investments reflected in the schedule of assets (held at end of year).

**Note 8 – Party-in-Interest Transactions**

Plan investments include shares of PSAs and stable value funds managed by Transamerica. Transamerica is the custodian of the Plan and an affiliate of Transamerica Retirement Services; therefore, transactions with these entities qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services to Transamerica were $10,324 for the year ended December 31, 2014.

**Note 9 – Plan Termination**

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

**Note 10 – Reconciliation to Form 5500**

The following are reconciliations of net assets available for benefits between the financial statements and Form 5500 as of December 31:

| | 2014 | 2013 |
