Jefferson Financial Credit Union 401(K) Plan Notes to Financial Statements

NOTE 1 - DESCRIPTION OF PLAN

The following description of Jefferson Financial Credit Union (the “Plan Sponsor” and “Employer”) 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Plan Sponsor who have one (1) year of eligible service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan Sponsor generally pays the administration, recordkeeping, distribution, and related fees for the Plan.

The appointed custodian and record keeper of the Plan is CMFG Life Insurance Company (the “Trustee”). The Trustee has been directed and authorized to hold, invest, and reinvest the fund assets (as directed by Plan participants) and to pay the participants' benefits due to them at the direction of the Plan Administrator.

Effective January 1, 2015, the Plan was merged into the Credit Union Retirement Association 401(k) Plan. As a result, all investments were transferred from the Plan into the Savings Plan on that date. The Plan merger does not impact participant accounts or benefits.

Participant Contributions

The Plan has an automatic deferral provision under which eligible employees have three percent (3%) withheld from their pay each pay period. Employees may elect to defer an alternate amount up to the maximum allowable by Internal Revenue Code (IRC) section 401(k) as defined by the Plan or elect not defer under the Plan in accordance with the deferral procedures of the Plan. Participants may also contribute amounts representing distributions from other qualified plans or individual retirement accounts. Participants direct the investment of their entire account balance into various investment options offered by the Plan.

Profit Sharing Contributions

The Company may make profit sharing contributions at its discretion. These will be allocated to participants in the same ratio as each participant’s compensation bears to the total of such compensation of all participants. Profit sharing contributions for the year ended December 31, 2014 were \$638,845.

Jefferson Financial Credit Union 401(K) Plan Notes to Financial Statements

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Participant Accounts

Each participant's account is credited with the participant's contribution, the allocation of the Employer's contribution, and Plan earnings. Each participant's account is also charged with an allocation of fund operating expenses. Allocations are based on participant earnings or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer's matching portion of their accounts plus actual earnings thereon is based upon years of continuous service. A participant is one hundred percent (100%) vested after six (6) years of continuous employment beginning with the effective date of the Plan. See below:

Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participant Loans

Participant loans are allowed under the Plan. Loans must be for at least \$1,000 and a participant may only have one loan outstanding at a time. Loans may not exceed the lesser of \$50,000 or one-half of the participant's vested amount. Loans are repaid by payroll deductions and bear a three percent (3%) interest rate. Delinquent participant loans are recorded as a distribution based upon the terms on the Plan document.

Payment of Benefits

Participants will be entitled to receive payment on account of termination of service as soon as practicable following the date of termination of employment. Without regard to termination, participants will be entitled to receive payment as soon as practicable following the attainment of age fifty-nine and one-half (59 ½) or the normal retirement age. Participants will be entitled to receive all or any portion of their rollover contribution account at any time. The form of distribution may be a lump sum or periodic payments as provided in the Plan.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Forfeited Accounts

Forfeited balances of terminated participants' nonvested accounts are used to reduce Plan expenses and the remainder to reduce Employer contributions. There were forfeitures of \$30,864 in 2014.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates

Investment Valuation and Income Recognition

Quoted market prices are used, when available, to value investments. Company and participant contributions for the Plan year which are received after year end are recorded as Plan additions as well as the related receivable. The Plan has an investment contract with CUNA Mutual. CUNA Mutual maintains the investments of Plan assets in mutual funds and a guaranteed investment contract. The accounts are credited with contributions and earnings on the underlying investments. The accounts are charged for Plan withdrawals and administrative expenses assessed by CUNA Mutual. The guaranteed investment contract is included in the financial statements at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan's investments were transferred to the new Plan on January 1, 2015.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Administrative Expenses

Certain expenses incurred in the administration of the Plan are paid directly by the Company. Administrative expenses were \$3,201 for the year ended December 31, 2014.

Subsequent Events

Subsequent events have been evaluated through July 24, 2015, the date the financial statements were available to be issued and no material events have been noted for disclosure other than those disclosed at Note 7.

NOTE 3 - INFORMATION CERTIFIED BY TRUSTEE (UNAUDITED)

The following unaudited information was included in the information certified by CMFG Life Insurance Company, the Trustee of the Plan. The Trustee has certified as complete and accurate all of the information regarding investments in the accompanying financial statements and supplemental schedule including investment balances, investment income, loans, and assets held for investment purposes. The following is a summary of the Plan's financial information at December 31, 2014 and 2013 that is included in the financial statements based on information certified by the Trustee as complete and accurate in compliance with ERISA:

NOTE 4 - FAIR VALUES OF FINANCIAL INSTRUMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* ("ASC 820") and FASB ASC 825, *Financial Instruments* ("ASC 825") require disclosure of fair value information about financial instruments, whether or not recognized in the Statements of Net Assets Available for Benefits. The fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value is best determined based upon quoted market prices. However, in many instances, there are no quoted market prices for the Plan's various financial instruments. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the instruments.

Level 1 classification is applied to any asset that has a readily available quoted price from an active market where there is significant transparency in the executed/quoted price.

Level 2 classification is applied to assets that have evaluated prices received from fixed income vendors with data inputs which are observable either directly or indirectly, but do not represent quoted prices from an active market for each individual security.

Level 3 classification is applied to assets for which inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Jefferson Financial Credit Union 401(K) Plan Notes to Financial Statements

NOTE 4 - FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Stable Value Fund

Investments in stable value fund contracts are reported at fair value. Values are determined by applying prices received from annuity contracts with data inputs which are observable either directly or indirectly, but do not represent quoted prices from an active market for each individual security.

Mutual Funds

Fair values of mutual funds are usually based on quoted market prices. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

Guaranteed Investment Contracts

The guaranteed investment contracts are included in the financial statements at contract value, which approximates fair value. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses.

NOTE 4 - FAIR VALUES OF FINANCIAL INSTRUMENTS (CONTINUED)

The following tables set forth a summary of changes in the fair value of the Plan's Level 3 investment assets, the stable value fund and guaranteed investment contracts, for the year ended December 31, 2013:

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2014, there were transfers of \$86,167 and \$24,345 into and out of Level 3, respectively.

The following table presents information about significant inputs used in Level 3 fair value measurements:

Jefferson Financial Credit Union 401(K) Plan Notes to Financial Statements

NOTE 5 – GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a fully benefit-responsive guaranteed investment contract (“GIC”) with the Trustee. The Trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. The GIC is presented on the face of the Statements of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%. The crediting rate for the years ended December 31, 2014 and 2013 were 1.50% and 1.75%, respectively. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable to occur.

NOTE 6 - PARTY-IN-INTEREST

Certain Plan assets are shares of mutual funds managed by CMFG Life Trust. CMFG Life Trust is the Custodian and record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - PLAN MERGER

Effective January 1, 2015, the Plan was merged into the Credit Union Retirement Association 401(k) Plan (the “Successor Plan”). As a result, all investments were transferred from the Plan into the Successor Plan on that date. The Plan merger does not impact participant accounts or benefits.

Jefferson Financial Credit Union 401(K) Plan Notes to Financial Statements

NOTE 8 - TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 7, 2010, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has concluded that as of December 31, 2014, there are no uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 9 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2014 to Form 5500:

Net assets available for benefits per the financial statements	\$ 4,795,463
<u>Less: Transfer of assets to new plan</u>	<u>(4,795,463)</u>
Net assets available for benefits per the Form 5500	\$ 0

Plan assets were shown as transferred on the Form 5500 to show a \$-0- balance which indicates to the IRS that no additional 5500 forms will be filed at the Employer level.
