As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Vanguard Fiduciary Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the 2014 financial statements. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the trustee is complete and accurate.

NIDEC MOTOR CORPORATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements

December 31, 2014

(See Independent Auditor's Report)

Note A – Description of the Plan

The following description of the Nidec Motor Corporation Retirement Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan Document or the Summary Plan Description for a more complete description of the Plan’s provisions.

General

The Plan was established October 1, 2010 and is a defined contribution plan covering all eligible hourly employees of Nidec Motor Corporation (the “Company” or “Plan Administrator”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Effective October 1, 2010, the Company was formed upon purchase of the motor division of Emerson Electric Co. (“Emerson”). In November 2010, former employees of Emerson that began employment with the Company had their account balances transferred from the Emerson Electric Co. Retirement Savings Plan (“Emerson Plan”).

Vanguard Fiduciary Trust Company is the Plan Trustee.

Eligibility

Employees are eligible to make elective deferral contributions and participate in Company matching contributions immediately upon hire. Certain participants, as defined in the Plan Document, are eligible to participate in the discretionary Company contribution upon completion of 60 days of service.

The Plan includes an auto-enrollment provision. Employees who meet the eligibility requirements will be automatically enrolled in the Plan with a default contribution rate of 3% and their contribution invested in a designated balanced fund until changed by the participant. It is the responsibility of the participant to opt out of the Plan if not interested in participating.

Contributions

Participants may make pre-tax and after-tax deferral contributions up to the lesser of 40% of eligible compensation or the Internal Revenue Code (“IRC”) limitation. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing eligible rollover distributions from other qualified plans. Effective January 1, 2014, the Plan was amended to allow participants to make Roth deferral contributions.

The Company is required to make matching contributions equal to 100% of participant elective deferral contributions up to a maximum of 3% of eligible compensation. Participants are eligible to receive the matching contribution immediately upon participation in the Plan. Company matching contributions amounted to \$530,193 and \$541,161 for the years ended December 31, 2014 and 2013, respectively.

Note A – Description of the Plan (Continued)

Contributions (Continued)

The Company, at its sole discretion, may make additional contributions equal to 3% of eligible compensation. Company discretionary contributions amounted to \$360,362 and \$368,714 for the years ended December 31, 2014 and 2013, respectively.

In addition, the Company is required to make a pension equalization benefit contribution equal to 7% of eligible compensation to certain participants, as defined in the Plan Document. Pension equalization benefit contributions amounted to \$516,079 and \$514,028 for the years ended December 31, 2014 and 2013, respectively.

Participant Accounts

Each participant's account is credited with the participant's elective deferral contributions and allocations of the Company's contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are at all times 100% vested in their elective deferral contributions and earnings thereon. Vesting in the Company's matching, discretionary and pension equalization benefit contributions are based on years of service. A participant vests 20% each year after one year of service, becoming fully vested after five years of service. Participant's also become fully vested upon reaching normal retirement age (55), death or upon becoming disabled.

Notes Receivable from Participants

Participants may borrow an amount not less than \$500 up to a maximum of the lesser of \$50,000 or 50 percent of their vested account balance, excluding certain Company contributions, as defined in the Plan Document. Loans must be repaid over a period not to exceed four years, extended to nine years if the loans are used to purchase a primary residence. The loans are repaid through payroll withholdings, including principal and interest at the prime rate plus 1%.

Payment of Benefits

Upon retirement, death, disability, or termination of employment, a participant may take a distribution of their vested account balance in a lump-sum payment.

In-Service Withdrawals

Active participants who reach age 59½ or experience a qualifying financial hardship may withdraw all or part of their vested accounts. Hardship withdrawals will be approved only if they conform to the Plan provisions and established IRC safe harbors.

Forfeitures of nonvested participant balances are used to reduce future Company contributions. Forfeitures available for future use at December 31, 2014 and 2013 amounted to \$2,161 and \$21,121, respectively. Forfeitures of \$48,227 and \$36,706 were used to reduce Company contributions during the years ended December 31, 2014 and 2013, respectively.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the collective investment trust, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits is prepared on a contract-value basis.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment custodians and insurance company. See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation in fair value of registered investment companies and the common stock fund includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note B – Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net realized and unrealized appreciation in fair value of registered investment companies and common stock fund.

Subsequent Events

The Plan has evaluated subsequent events through _____, 2015, the date the financial statements were available to be issued.

Note C – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from Vanguard Fiduciary Trust Company (the "Trustee") that all of the information provided by the Trustee and included in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) is complete and accurate. Information as to the investments in the accounts of the Trustee, investment income, and all information appearing in the accompanying statements and the supplemental schedule are presented in reliance solely upon those certifications.

Note C – Investments (Continued)

The following investments represent 5% or more of the Plan's net assets at December 31:

	<u>2014</u>	<u>2013</u>
Vanguard Retirement Savings Trust*	\$ 5,085,686	\$ 5,485,705
Vanguard Institutional Index Fund	2,776,287	2,597,801
Emerson Common Stock Fund	2,731,290	3,478,341
Vanguard Target Retirement 2020 Fund	1,945,104	1,728,809
Vanguard Target Retirement 2030 Fund	1,259,581	**
Vanguard Target Retirement 2025 Fund	1,080,651	**

* - Represents contract value

** - Represents less than 5% of net assets

The Plan's investments include the Emerson Common Stock Fund (the "Fund"), which invests solely in the common stock of Emerson. This investment was part of a transfer of assets from the Emerson Plan in 2010. Participants are allowed to redeem shares of the Fund at any time; however, no new contributions are allowed to be invested in the Fund.

Note D – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

NIDEC MOTOR CORPORATION RETIREMENT SAVINGS PLAN

Notes To Financial Statements - Continued

December 31, 2014

(See Independent Auditor's Report)

Note D – Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered Investment Companies – Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Common Stock Fund – Valued at the NAV of shares held by the Plan at year end. The NAV is determined by dividing the net assets of the Fund by the number of units outstanding on the day of valuation. The Fund is comprised solely of Emerson Electric Co. common stock that is traded on an active market.

Collective Investment Trust – Valued at the NAV of units of a bank collective trust. The NAV, as provide by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The preceding methods used to arrive at a fair value calculation may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note E – Related Party Transactions

Certain registered investment companies and a collective investment trust are managed by the Trustee. These transactions, therefore, qualify as party-in-interest transactions.

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Note G – Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated October 19, 2012, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
