Independent Auditors' Report

To the Trustees of the
Boston Capital 401(k) Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Boston Capital 401(k) Plan, which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2(a); this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan (modified cash basis) as of December 31, 2014 and 2013, and the changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2014, in accordance with the modified cash basis of accounting described in Note 2(a).

Basis of Accounting

We draw attention to Note 2(a) of the financial statements, which describes the basis of accounting. The financial statements are presented on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year), December 31, 2014, is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

BOSTON CAPITAL 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of the Plan

The following description of the Boston Capital 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan covering all full time employees of Boston Capital (the Company), who prior to May 1, 2013, have three months of service and are age twenty-one or older. As of May 1, 2013, the Plan was amended to remove the service requirement and cover all full time employees who are age twenty-one or older. After May 1, 2013, employees are automatically enrolled with a 3% deferral rate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

(b) Contributions

Each year, participants may contribute up to the maximum percentage of compensation and dollar amount permissible under Section 402(a) of the Internal Revenue Code (IRC) not to exceed the limits of Code Section 401(k), 404 and 415. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common collective trusts and a self-directed brokerage account (Charles Schwab Personal Choice Retirement Account) as investment options for participants. In addition to the participant contributions under the Plan, the Company has the option of making two matching contributions for any Plan year. The Company is not required to make either matching contribution for any Plan year. All contributions are subject to certain limitations.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions and Plan earnings. Additionally, participants are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Notes Receivable from Participants

Participants may borrow from their fund accounts an amount that does not exceed the lesser of \$50,000 or 50% of the vested value of their account. The notes receivable are secured by the balance in the participant's account and bear interest at rates, not less than the prevailing rate of interest charged on similar commercial loans by persons in the business of lending money and shall be determined by the Plan Administrator. The notes receivable interest rate is at Prime Rate plus 2%. Interest rates for notes receivable from participants vary from 5.25% to 9.5% as of December 31, 2014. Notes receivable from participants mature on various dates through June 2024. Principal and interest is paid ratably through payroll deductions.

BOSTON CAPITAL 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(1) Description of the Plan - continued

(e) Vesting

Participants are immediately vested in their contributions plus their actual earnings. Vesting in the Company's contribution portion of their accounts plus their actual earnings is based on years of service. A participant is 100% vested after five years of credited service.

(f) Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or a rollover distribution into a qualified plan. Benefits and any corrective distributions are recorded when paid to the participant or their beneficiaries.

(g) Forfeitures

Forfeitures of amounts not vested will occur upon a five-year break in service and will be used as (1) restoration of participants forfeitures, (2) offset Plan expenses and (3) used to reduce the employer's matching contribution. For the years ended December 31, 2014 and 2013, \$53,780 and \$136 were used to reduce employer's matching contributions, respectively. Unused forfeitures as of December 31, 2014 and 2013 were \$7,718 and \$42,656, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles in the United States of America. Investments are recorded at fair value. Dividend, interest income and routine contributions are recorded when received rather than when earned and delinquent contributions are accrued when not received timely by the Plan. Unrealized appreciation or depreciation in the fair value of investments is recognized currently. Modifications to the cash basis of accounting include investments recorded at fair value and notes receivable from participants. Income is recognized when received and expenses are recognized when paid.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The Diversified Stable Pooled Fund, offered by Transamerica Retirement Solutions Collective Trust is considered fully benefit-responsive. See Note 6b for further discussion of the Diversified Stable Pooled Fund.

Notes to Financial Statements

December 31, 2014 and 2013

(2) Summary of Significant Accounting Policies - continued

(b) Use of Estimates

The preparation of financial statements in conformity with the modified cash basis requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when received. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Income is recognized when received and expenses are recognized when paid.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are recorded as a distribution based upon the terms of the Plan Agreement.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Mutual Fund Fees

Investments in registered investment companies are subject to sales charges in the form of front-end loads, back-end loads, 12b-1 fees, and other investment/custodian management fees. 12b-1 fees, which are ongoing fees allowable under section 12b-1 of the Investment Company Act of 1940, are annual fees deducted to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earning activity and thus are not separately identifiable as a Plan expense.

(g) Administrative Expenses

Except for a loan set-up fee associated with notes receivable from participants and the Charles Schwab self-directed account setup fee, all administrative expenses of maintaining the Plan are shared by the Plan and the Company. During the year ended December 31, 2014, the Plan paid \$30,121 for recordkeeping and investment advisory services and the Company paid for auditing services.

BOSTON CAPITAL 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(3) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation of other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the years ending December 31, 2014 and 2013.

Shares of mutual funds and investments in Charles Schwab Personal Choice Retirement Account are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Investments in common/collective trusts (stable pooled fund) are stated at estimated fair values, which have been determined based on the unit values of the funds. Unit values are determined by the financial institution sponsoring such funds by dividing the fund's net assets at fair value by units outstanding at year-end.

The methods described above may produce fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different value measurement at the reporting date.

BOSTON CAPITAL 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(3) Fair Value Measurements - continued

- (a) Conservative funds seek to offer price stability and a steady stream of income, which is reinvested, by investing in short-term bonds or contracts issued by creditworthy companies, financial institutions and government entities.
- (b) The investment seeks to match the performance of the respective index.
- (c) Income funds seek to provide a steady stream of income, which is reinvested, and in some cases a small amount of growth, by investing in bonds issued by governments and corporations.
- (d) Growth funds seek to maximize the value of savings over time by investing in companies that have a strong potential for providing above-average earnings growth.
- (e) The common/collective trust invests in a diversified portfolio of stable value fixed income instruments, including Guaranteed Investment Contracts (GIC's), Bank Investment Contracts and GIC alternatives.
- (f) The Charles Schwab Personal Choice Retirement Account consists of 44% equities, 27% mutual funds, 4% unit trusts and 25% money market funds.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2014 and 2013, there were no transfers between level 2 and 3.

(4) Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Transamerica Retirement Corporation Stable Pooled Fund	2,807,137	2,923,629

(b) Fully Benefit-Responsive Investments

The Plan has an interest in a fully benefit-responsive group annuity contract, Diversified Stable Pooled Fund (Fund), offered by Transamerica Retirement Solutions (Transamerica) Collective Trust (Trust). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The following information is only a general summary of certain fund provisions. Participants should refer to the fund agreements for additional material information relating to this investment option.

As of December 31, 2014 and 2013, the fund has invested all of its assets in the Wells Fargo Stable Return Fund G, a collective trust fund sponsored by the Wells Fargo Bank, N.A., which invests in stable value investment vehicles such as guaranteed investment contracts, bank investment contracts and synthetic guaranteed investment contracts issued by highly rated financial institutions and corporations as well as obligations of the U.S. Government or its agencies. The daily value of the fund's investment is based on the underlying daily value reported by the Wells Fargo Stable Return Fund G.

BOSTON CAPITAL 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(6) Investments - continued

(b) Fully Benefit-Responsive Investments - continued

The terms of the fund's Agreement and Declaration of Trust and adoption agreements permit the assessment of a charge against the assets held by this fund to pay the fees of Transamerica for investment management and for all other customary expenses incurred in connection with the operation of this fund. For these services, Transamerica receives an annual fee as a percentage of the fund's average daily net assets.

There are no reserves against contract value for credit risk of contract issuers or otherwise. Without consideration of the expenses noted above, the average yield for the underlying assets was 1.40% and 1.36% for the years ended December 31, 2014 and 2013, respectively. The crediting rate of the contract resets every quarter based on the performance of the underlying investment portfolio. The crediting interest rates for the underlying assets were 1.64% and 1.52% for the years ended December 31, 2014 and 2013, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, based on the yields of the underlying investments at fair value and contract value and considering factors such as projected investment earnings, the current interest environment, investment expenses, and duration of the assets underlying the contract.

If the Plan's participation in the fund is terminated, which requires receipt of written notice from the authorized representative of the Plan, Transamerica will withdraw the Plan's interest in the fund and pay such amount on the Date of Transfer as directed by the Plan's authorized representative. The Date of Transfer will be within twelve months following the date Transamerica receives notice of the Plan's termination of participation in the fund. On the business day prior to the Date of Transfer, Transamerica will withdraw the number of Units in the fund which are attributable to the Plan, and on the Date of Transfer, an amount, equal to the number of Units withdrawn multiplied by the value of each Unit as of the date of withdrawal, will be transferred as directed by the authorized representative of the Plan. As of December 31, 2014, the occurrence of an event outside the normal operation of the Trust that would cause a withdrawal from an investment contract is not considered to be probable.

All withdrawals and transfers from this fund are payable at contract value. Participant-directed transfers from the fund are permitted to non-competing funds, subject to a 90-day equity wash provision. Withdrawals from the fund which are due to an event that would reasonably be determined to have an adverse financial effect on the Collective Trust including, but not limited to, a merger, layoffs, bankruptcy, full or partial Plan termination and early retirement incentive programs will be made within the twelve month period following Transamerica's receipt of the written withdrawal request. During the above referenced twelve-month period, benefit distributions and participant-directed transfers to non-competing funds will be permitted from the fund, subject to a 90-day equity wash provision.

BOSTON CAPITAL 401(K) PLAN

Notes to Financial Statements

December 31, 2014 and 2013

(7) Party-In-Interest Transactions

The Plan invests in shares of mutual funds managed by State Street Bank and Trust Company (Custodian), on behalf of Transamerica. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules.

(8) Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that these changes could materially affect the amounts reported in the statements of net assets available for benefits (modified cash basis).

(9) Subsequent Events

The Plan has performed an evaluation of subsequent events through August 8, 2015, which is the date the Plan's financial statements were available to be issued.
